The Aesthetics of Ruins Robert Ginsberg, 2004 This book constructs a theory of ruins that celebrates their vitality and unity in aesthetic experience Its argument draws upon over 100 illustrations prepared in 40 countries Ruins flourish as matter form function incongruity site and symbol Ruin underlies cultural values in cinema literature and philosophy Finally ruin guides meditations upon our mortality and endangered world *Enciclopedia yucatanense* Paulo M. Sánchez

Novelo, Rolando Bello Paredes, Enrique Martín Briceño, 2017 *City of Memory and Other Poems* Jose Emilio Pacheco, 1997-04 The leading poet of his generation Jose Emilio Pacheco is one of Mexico's most esteemed and beloved writers *City of Memory and Other Poems* presents two of his finest poetry collections accompanied by beautifully rendered translations The first *City of Memory* touches on Pacheco's major literary obsessions the destructive effects of time the essential egotism and cruelty of the natural world with humankind at its violent center and the capacity of the human spirit to achieve transcendence The second *I watch the Earth* is an emotional catharsis the poet's mediation on the tragic earthquake that devastated his native Mexico City in 1985 Together these poems paint a vivid picture of the noble beauty and uncontrollable tragedy that is Mexico and the world today Jose Emilio Pacheco is the winner of the Jose Asuncion Silva Award for the best book of poetry to appear in Spanish from 1990 to 1995 Novelist poet essayist and translator he lives in Mexico City Cynthia Steele is the author of *Politics Gender and the Mexican Novel* 1968 1988 *Beyond the Pyramid and the translator of Underground River and Other Stories* by Ines Arredondo David Lauer is a poet and translator who lives in Chihuahua Mexico **Toward Octavio Paz** John M. Fein, 2021-10-21

The undisputed intellectual leadership of Octavio Paz not only in Mexico but throughout Spanish America rests on achievements in the essay and in poetry In the field of the essay he is the author of more than twenty five books on subjects whose diversity esthetics politics surrealist art the Mexican character cultural anthropology and Eastern philosophy to cite only a few is dazzling In poetry his creativity has increased in vigor over more than fifty years as he has explored the numerous possibilities open to Hispanic poets from many different sources The bridge that joins the halves of his writing is a concern for language in general and for the poetic process in particular *Toward Octavio Paz* defines this process of creation through a close examination of the books that represent the summit of the poet's development three long poems and three collections It is intended for readers of varied poetic experience who are approaching Paz's work for the first time By studying the relationship of the parts of the poem particularly structure and theme Fein traces the poet's growth through approaches to the reader each embodied in a separate work From the divided circularity of *Piedra de sol* through the intensification of the subject of *Salamandra* the multiple meanings of *Blanco* the polarities of *Ladera este* and the literary solipsism of *Pasado en claro* to the silences of *Vuelta* Paz has shaped his audience's responses to his work through suggestion rather than control The result is not only a new poetry but a new receptivity *The Object of the Atlantic* Rachel Price, 2014-11-30 The *Object of the Atlantic* is a wide

ranging study of the transition from a concern with sovereignty to a concern with things in Iberian Atlantic literature and art produced between 1868 and 1968 Rachel Price uncovers the surprising ways that concrete aesthetics from Cuba Brazil and Spain drew not only on global forms of constructivism but also on a history of empire slavery and media technologies from the Atlantic world Analyzing Jose Marti s notebooks Joaquim de Sousa Andrade s poetry Ramiro de Maeztu s essays on things and on slavery 1920s Cuban literature on economic restructuring Ferreira Gullar s theory of the non object and neoconcrete art Price shows that the turn to objects and from these to new media networks was rooted in the very philosophies of history that helped form the Atlantic world itself

nineteenth centuries the Hispanic Monarchy was one of the largest and most diverse political communities known in history. At its apogee it stretched from the Castilian plateau to the high peaks of the Andes from the cosmopolitan cities of Seville, Naples or Mexico City to Santa Fe and San Francisco from Brussels to Buenos Aires and from Milan to Manila. During those centuries Spain left its imprint across vast continents and distant oceans contributing in no minor way to the emergence of our globalized era. This was true not only in an economic sense: the Hispano American silver peso transported across the Atlantic and the Pacific by the Spanish fleets was arguably the first global currency thus facilitating the creation of a world economic system but intellectually and artistically as well. The most extraordinary cultural exchanges took place in practically every corner of the Hispanic world no matter how distant from the metropolis. At various times a descendant of the Aztec nobility was translating a Baroque play into Nahuatl to the delight of an Amerindian and mixed audience in the market of Tlatelolco; an Andalusian Dominican priest was writing the first Western grammar of the Chinese language in Fuzhou; a Chinese city that enjoyed a trade monopoly with the Spanish Philippines; a Franciscan friar was composing a piece of polyphonic music with lyrics in Quechua to be played in a church decorated with Moorish style ceilings in a Peruvian valley; or a multi ethnic team of Amerindian and Spanish naturalists was describing in Latin, Spanish and local vernacular languages thousands of medicinal plants, animals and minerals previously unknown to the West. And most probably at the same time that one of those exchanges were happening the members of the School of Salamanca were laying the foundations of modern international law or formulating some of the first modern theories of price value and money. Cervantes was writing *Don Quixote*; Velázquez was painting *Las Meninas*; or Goya was exposing both the dark and bright sides of the European Enlightenment.

Racial Experiments in Cuban Literature and Ethnography Emily Maguire, 2018. In the wake of independence from Spain in 1898 Cuba's intellectual avant garde struggled to cast their country as a modern nation. They grappled with the challenges presented by the postcolonial situation in general and with the location of blackness within a narrative of Cubaness in particular. Afro-Cuban culture though problematic to the intellectual elite was in a position to contribute significantly to the construction of a contemporary Cuban identity. In this breakthrough study Emily Maguire examines how a cadre of writers reimagined the nation and revalorized Afro-Cuban culture through a textual production that incorporated elements of the ethnographic with the literary. Singling out the work of Lydia Cabrera as emblematic of the experimentation with genre that characterized the age, Maguire constructs a series of counterpoints that place Cabrera's work in dialogue with that of her Cuban contemporaries including Fernando Ortiz, Nicolás Guillén and Alejo Carpentier. An illuminating final chapter on Cabrera and Zora Neale Hurston widens the scope to contextualize Cuban texts within a hemispheric movement to represent black culture. Provided by publisher.

Octavio Paz and T. S. Eliot Tom Boll, 2020-09-30. Octavio Paz 1914-1998 declared that when he discovered *The Waste Land* in Spanish translation as a sixteen year old it opened the doors of modern poetry. The influence of T. S. Eliot would accompany Paz throughout his career defining many of

his key poems and pronouncements Yet Paz's attitude towards his precursor was ambivalent Boll's study traces the history of Paz's engagement with Eliot in Latin American and Spanish periodicals of the 1930s and 40s It reveals the fault lines that run through the work of the dominant figure in recent Mexican letters By reading Eliot in a Latin American context it also offers new perspectives on relations between Anglo American modernism and the International avant garde Book jacket

I the Supreme Augusto Roa Bastos, 2019-02-26 I the Supreme imagines a dialogue between the nineteenth

century Paraguayan dictator known as Dr Francia and Policarpo Pati o his secretary and only companion The opening pages present a sign that they had found nailed to the wall of a cathedral purportedly written by Dr Francia himself and ordering the execution of all of his servants upon his death This sign is quickly revealed to be a forgery which takes leader and secretary into a larger discussion about the nature of truth In the light of what Your Eminence says even the truth appears to be a lie Their conversation broadens into an epic journey of the mind stretching across the colonial history of their nation filled with surrealist imagery labyrinthine turns and footnotes supplied by a mysterious compiler A towering achievement from a foundational author of modern Latin American literature I the Supreme is a darkly comic deeply moving meditation on power and its abuse and on the role of language in making and unmaking whole worlds
