Warner,2023-01-03 An archaeological study of African American foodways in nineteenth century Annapolis In Eating in the Side Room Mark Warner uses the archaeological data of food remains recovered from excavations in Annapolis Maryland and the Chesapeake to show how African Americans established identity in the face of pervasive racism and marginalization By studying the meat purchasing habits of two African American families the Maynards and the Burgesses Warner skillfully demonstrates that while African Americans were actively participating in a growing mass consumer society their food choices subtly yet unequivocally separated them from white society The side rooms where the two families ate their meals not only satisfied their hunger but also their need to maintain autonomy from an oppressive culture As a result Warner claims the independence that African Americans practiced during this time helped prepare their children and grandchildren to overcome persistent challenges of white oppression Publication of the paperback edition made possible by a Sustaining the Humanities through the American Rescue Plan grant from the National Endowment for the Humanities **Illusions** Karen Alexander,2013-03-13 Jessie is a young girl who enjoys the traditional southern life of a small town where faith personal freedoms and independence are a way of life When she reaches the ripe old age of seventeen the United States of America is torn and its citizens living within a total maelstrom She and her family experience an invasion and a new world that Jessie can hardly believe to be real Why had no one seen this coming Survival without the freedoms they once knew as inalienable is the dilemma and taking America Back is their goal Orders of the High Court of Chancery, and Statutes of the Realm, Relating to Chancery Great Britain.
