Peck, 1996 In this her first book scholar Demaree C Peck assigns Willa Cather her rightful place in our literary history Challenging the assumption that women writers must draw their inspiration from a lineage of female predecessors Peck portrays Willa Cather as a woman who self consciously set out to write within a male literary tradition that she identified as Emersonian Peck explores the psychological underpinnings of Cather s aesthetics to show that her theory of stylistic economy and simplicity was motivated by a desire to reorganize the elements of the artistic stage exclusively around her own romantic ego that inexplicable presence of the thing not named Although Cather s protagonists appear in various disguises clad as pioneers lawyers or priests they are all incarnations of the artist who appropriates people and places as parts of consciousness Cather s imaginative claimants seek to assimilate the world as a reflection of the self in the way that their prototype Emerson s poet landlord enjoys a figurative ownership of the landscape in reward for his integrating vision The novels offer a series of ingenious masquerades beneath whose plots lurk variations of a single story impelled by the artist s quest to take imaginative possession of the world in order to recover the dominion of her soul Unlike critics who have discussed Cather s novels as a series of discrete experiments Peck charts the pursuit for imaginative possession as a continuous theme thereby suggesting a coherence for Cather s art and career as a whole Offering original interpretations of eight of Cather s novels in the light of previously undiscussed letters and other biographical materials Peck explores the relation between Cather s life and art to suggest that she created her central characters as surrogates whose imaginative accumulations could compensate her for various dispossessing experiences in her own life Cather s novels operate according to the psychological laws of wish fulfillment While Cather s romanticism has its historical origin in American transcendentalism its psychological origin derives from the mythic domain of childhood Cather s kingdom of art sanctions the dream projected upon childhood of an original omnipotence that could cheat fate and remain unsoiled by experience Her novels enact a fantasy of return to primal wholeness Peck suggests that the novels serve a restorative function not only for

their author but for Cather's readers as well Cather's fiction is significant Peck argues because it performs an important psychological work for its audience      **The American Shorthorn Herd Book** ,1915      *Montessori Comes to America* Phyllis Povell,2009-12-22 This book traces the evolution of women's leadership and its influence on the Montessori Method's development New research illuminates the unique roles of two historic early childhood educators and also updates the historical record and reveals the human dimension behind one of the most colorful chapters in American educational development      *Grain and Feed Journals Consolidated (some Issues Omit Consolidated)* ,1919      *The Montessori Method* Maria Montessori,2004 An essential resource for all students and scholars of early childhood education this book offers a rich array of material about Maria Montessori and the Montessori Method Distinguished education scholar Gerald Gutek begins with an in depth biography of Montessori exploring how a determined young woman overcame the obstacles that blocked her educational and career opportunities in Italy during the late Victorian age The author then analyzes the sources and influences that shaped the Montessori philosophy of education After laying the foundation for Montessori's development Gutek presents an annotated and abridged edition of *The Montessori Method* 1912 the seminal work that introduced her educational innovations to a U S audience The book concludes with key historical documents including disciple Anne E George's notes on the Montessori lectures and William H Kilpatrick's critique of the Montessori method Preserving the historical context of Montessori's contribution Gutek also shows the continuing relevance of her thought to educational reform in the twenty first century      **American Aberdeen-Angus Herd Book** American Angus Association,1914      **Notre Dame Journal of Education** ,1970      **Menus for Movieland** Richard Abel,2015-09-01 At the turn of the past century the main function of a newspaper was to offer menus by which readers could make sense of modern life and imagine how to order their daily lives Among those menus in the mid 1910s were several that mediated the interests of movie manufacturers distributors exhibitors and the rapidly expanding audience of fans This writing about the movies arguably played a crucial role in the emergence of American popular film culture negotiating among national regional and local interests to shape fans' ephemeral experience of moviegoing their repeated encounters with the fantasy worlds of movieland and their attractions to certain stories and stars Moreover many of these weekend pages daily columns and film reviews were written and consumed by women including one teenage girl who compiled a rare surviving set of scrapbooks Based on extensive original research *Menus for Movieland* substantially revises what moviegoing meant in the transition to what we now think of as Hollywood      *American Hereford Record and Hereford Herd Book* American Hereford Cattle Breeders' Association,1916      **Bringing Montessori to America** Gerald L. Gutek,Patricia A. Gutek,2016-04 *Bringing Montessori to America* tells the little known story of the collaboration and clash between the indomitable educator Maria Montessori and the American publisher S S McClure over the launch of Montessori education in the United States      *Official Gazette of the United States Patent Office* USA Patent Office,1914
