Mccullochs Wonder:

Carving the Western Path R. G. Harvey, 2011-06-15 A century of dealmaking and government misdeeds forms the backdrop of this entertaining account of sternwheelers iron horses and mountain roads Battling factions of rail builders crossed many a line in the sand as they carved up both the land and the spoils of industry Did both federal and provincial politicians wittingly sabotage road construction programs to the benefit of the rail barons Were Cornelius Van Horne Major A B Rogers and Andrew McCulloch fully deserving of the accolades bestowed on them Was railway man J J Hill a genius or an opportunist R G Harvey has applied a keen mind and deft pen to uncover skulduggery in politics and critical routing errors by the early surveyors and engineers who carved their western paths In turn he has exposed new scars and wrinkles to add to historic portraits otherwise untainted *Head On!* R. G. Harvey, 2004 In a province where mountain ranges are at odds with road and rail builders and its capital city and a large portion of its population are on an island it s no surprise that provision of an effective transportation system has been a challenging undertaking or that mistakes have been made In many cases BC s political leaders not only didn t solve problems they added to them And many of the mistakes made resulted from premiers exploiting their time in office to further their own political preferences theories and agendas This insider s examination looks at premiers errors and exploitations along with their triumphs and achievements from the first days of the provincial government Whether it be trouble with bridges premiers Prior and Pattullo railways McBride and Bennett or ferries Clark R G Harvey calls it like he sees it *Canada's World Wonders* Ron Brown, 2018-09-15 Take an eclectic journey across Canada to seek out our world renowned natural and historic landmarks such as the relics of a famous gold rush North America s only walled city indigenous deep heritage spectacular landscape features and awe inspiring feats of engineering *Rails Over the Mountains* Ron Brown, 2016-07-09 Explore western Canada s rich railway history travelling from the grand railway hotels and rustic stations to the creative engineering that created spiral bridges and soaring trestles Relive this time through a trip on one of the many steam trains visit a railway museum or walk the trails where trains used to rumble **The Kelowna Story** Sharron J. Simpson, 2025-05-06 The new paperback edition of this excellent illustrated history includes additional information about recent developments up to 2025 The Kelowna Story is a comprehensive full length history of the largest metropolitan centre outside BC s Lower Mainland a labour of love by a leading local historian whose family roots have been entwined with Kelowna s for five generations It embraces the full sweep of central Okanagan history starting with the days of the S Ooekanhkchinx who enjoyed a largely peaceful existence along the shores of the lakes and rivers before the earliest explorers came to trade followed by Father Pandosy and his Okanagan Mission in 1859 It was the mission that attracted Kelowna s first homesteaders soon followed by cattle ranchers and orchardists and much later by the empire builders like the Bennett family who paved the way for today s budding metropolis Author Sharron J Simpson believes history is best told through the stories of ordinary people while allowing today s readers may not think it ordinary to walk over mountain ranges

to collect mail or consider it ordinary to climb into a narrow irrigation pipe to scrape the rust off the inside as it runs up and down the hillsides or to row freight from one end of Okanagan Lake to the other In their time she writes those who did extraordinary things were simply doing what needed to be done to get ahead Their stories are fascinating and tell of the remarkable investment early settlers made in this community Simpson tells the story of her hometown with an attention to detail and a passion for narrative that bespeaks her own considerable talent and deep commitment **Roaring Days** Jeremy Mouat,2011-11-01 In the 1890s Rossland was the most important mining centre in southeastern British Columbia In *Roaring Days* Jeremy Mouat examines many different aspects of mining from work underground to corporate strategies He also brings to life the unique individuals who were a part of this history the miners who toiled long hours under unimaginable working conditions the citizens of Rossland who built a bustling town out of the wilderness and the mine owners and entrepreneurs who became wealthy beyond all expectations *Vanishing British Columbia* Michael Kluckner,2011-11-01 The old buildings and historic places of British Columbia form a kind of roadside memory a tangible link with stories of settlement change and abandonment that reflect the great themes of our history With small towns declining and old rural properties changing so little of the history of these places has been recorded in museums or archives and so much of it may disappear as families disperse and memories dim More than a decade ago Michael Kluckner began painting these dots on his personal map of the province in a watercolour sketchbook In 1999 after he put a few of the sketches on his website a network of correspondents emerged that eventually led him to the family letters photo albums and memories all from a disappearing era of the province *Vanishing British Columbia* is a record of these places and the stories they tell It combines engaging and insightful historical commentary with over 160 of the author's original paintings It has an exceptional assortment of historic imagery including old postcards architectural plans and photographs The study of roadside memory demonstrates the visceral connection that people especially those who are part of the rural to urban diaspora of modern times have for the sites of their family memories On a grander scale this approach leads to a broader understanding of more abstract historical themes and of the province's history and culture It also presents a compelling argument for stewardship of regional history in the face of urbanization and globalization **Uneasy Partnership** Geoffrey Hale,2018-01-25 The Canadian government's pursuit of economic growth is central to its economic policy and to the nature of its relationship with the business community The government depends on business investment for economic growth vital to the prosperity of citizens the generation of tax revenues and enough public satisfaction to win re election Businesses depend on the government for stable sets of rules that are necessary for success They often look to governments for protection against threats to their well being and for assistance in competing with other businesses In this new edition of *Uneasy Partnership* Geoffrey Hale examines the interdependent relationship between Canadian governments and businesses considering the political role of the government in the economy and what effect this has on the business environment Hale provides an overview of the historical dimensions of Canada's

political economy and relations between government and business giving readers background to consider topics such as corporate power the implications of Canada's economic structure regional economic differences and the role of interest groups in political and policy processes among others In a thoughtful and well researched style Hale lays out how the partnership between business and government in Canada is an uneasy one and one whose capacity to adapt to ongoing changes is essential in an uncertain world Railway Heritage and Tourism Michael V. Conlin, Geoffrey R. Bird, 2014-05-08

This is the first book of its kind to examine railway heritage in the context of tourism in a comprehensive internationally relevant manner It explores the challenges faced by developers and operators of railway heritage destinations including financial legal and managerial sustainability in the modern tourism industry These themes are exemplified by a variety of case studies of railway heritage in tourism from regions around the world including North Central and South America the Caribbean Europe and Australasia The volume will be of particular interest to scholars of cultural tourism as well as researchers and practitioners of industrial heritage tourism along with graduate and senior undergraduate students **The Northern Horizons of Guy Blanchet** Gwyneth Hoyle, 2007-10-31 Guy Blanchet mapped large areas of the Barrens by canoe and soon became caught up in pioneer northern aviation He did not seek adventure but it often found him **The Shakespearean International Yearbook** Alexa Alice Joubin, Natalia Khomenko, 2025-06-30 In the modern world references to Shakespeare frequently mark moments of catastrophe and of the accompanying longing for restoring social order remedying injuries and building strong communities Shakespeare's moral authority has often been invoked to support artistic projects that claimed social justice as their goal on the assumption that drama has the power to manipulate perceptual reality Drawing on cases from around the world this book interrogates the idea that performing or reading Shakespeare has socially reparative value It also acknowledges Shakespeare as a potential source of social well being practices in the arts The global framework shows that it is problematic to view Shakespeare as an impartial moral center This book proposes that reparative creativity or remedial uses of the canon can give artists and audiences more agency Having a map of canonical texts hidden ideologies can help readers artists and playgoers navigate its landscape which is in itself a reparative act

Boundless Optimism Patricia E. Roy, 2012-11-01 Patricia E Roy is the winner of the 2013 Lifetime Achievement Award Canadian Historical Association The first decade and a half of the twentieth century was mostly a time of unprecedented prosperity and growth in British Columbia Although its colonial history was still etched in the public psyche BC was coming into its own as a province of Canada and starting to realize the untapped economic potential of its natural resources Richard

McBride served four terms as BC's premier from 1903 to 1915 building a reputation as a charismatic and optimistic leader whose vision of a modern industrialized and wealthy province helped shape BC's institutions and its place in the British world. McBride stabilized the legislature by introducing party lines, promoted provincial causes in Ottawa and above all encouraged new railways. His fight for Better Terms and his association with leading federal Conservatives made him a national figure while his support of the Imperial navy and British investment brought him attention in London and a knighthood. Boundless Optimism chronicles the brilliant career of this often overlooked leader and the province he helped create.

Train Beyond the Mountains Rick Antonson, 2023-04-18 A captivating journey blending memoir, history and biography that takes the reader on one of the world's most famous trains and tells of carving the dramatic route it follows while pondering other international railways through the eyes of travellers past and present. Rick Antonson has ridden trains in more than thirty-five countries but almost everything he thinks he knows about train travel changes when he boards the Rocky Mountaineer with his ten-year-old grandson Riley. As they wind over trestles and through tunnels, each mile of track uncovers stories of dynamite and discovery, surveyors and schemers, explorers and visionaries and the people who helped to build Canada against the odds of geography and politics. Surrounded by a wild landscape that sparks imagination, fellow passengers recount train travels in other countries, get nostalgic for the era of steam locomotives and consider life's unfinished journeys. Peppered with spirited dialogue, heartrending vignettes and intriguing anecdotes, *Train Beyond the Mountains* is a travelogue with urgency to make your travel dreams happen now. As one passenger muses, "The mistake we make is that we think we have time."

Okanagan Odyssey Don Gayton, 2010 *Okanagan Odyssey* is a quirky and lyrical examination of British Columbia's Okanagan Valley. Sticking to the backroads and byways, Gayton gently pokes and prods local ecosystems, histories, vineyards and people. From Osoyoos in the south to Armstrong at the head of the Valley, the author revels in the biological and social diversity while sampling local wines and fruit along the way. In his unique version of wine pairing, Gayton matches up local books and landscapes with local vintages, giving terroir a whole new meaning. An ecologist by profession, Gayton deftly negotiates the tension between the Okanagan that is home to many endangered species and ecosystems and the same Okanagan that is a mecca for developers and urban refugees. *Okanagan Odyssey* is not a travel guide but represents travel writing at its idiosyncratic best.
