McDonnell Douglas Oh 6a Helicopter:

The McDonnell Douglas OH-6A Helicopter Donald J. Porter, 1989-07-01 Border Patrol United States. General Accounting Office, 2000 **Loach!** Wayne Mutza, 2005-01 Don't be fooled by the small size of the H-6 Model 500 helicopter. In the scout role in Vietnam OH-6As and their aircrew became legends for their high risk work in the low level environment. Wayne Mutza presents the small dynamic helicopter's story in this well-written, superbly detailed and lavishly illustrated volume. Much of the OH-6A's combat record in Vietnam is told in firsthand accounts. Mutza offers fascinating insight to the helicopter's controversial beginning, its development and its service with the Army National Guard, the Army's flight demonstration team, worldwide operators and law enforcement agencies. In addition, the reader is treated to an entire chapter devoted to the Little Birds of Special Operations. Also included are appendices with factual data and more than sixty emblems. It's all here in this highly readable volume. **Border patrol procurement of MD 600N helicopters should be reassessed : report to the Honorable Duncan Hunter, House of Representatives** , *Library of Congress Subject Headings* Library of Congress, 1991 **Federal Register** , 2008 **Federal Register Index** , 2008 *Library of Congress Subject Headings* Library of Congress. Tucker, 2015-12-14 This three-volume reference work provides an up-to-date presentation and analysis of the U.S. wars of the 21st century, addressing their backgrounds, causes, courses, and consequences. It serves as an indispensable resource for students seeking to understand the role of the United States in the world today. Addressing the U.S. conflicts in Iraq, Afghanistan, and the Global War on Terror from the year 2001 to the present, this comprehensive three-volume encyclopedia covers the significant individuals, key events, and important places involved in these recent military events. Beginning with the rise of Al Qaeda in the 1990s and the attacks on September 11, 2001, and covering events through ISIS's dramatic surge in Iraq and Syria, the hundreds of detailed entries also examine historical trends, nations and ethnicities involved in the conflicts, influential figures, and organizations, economic, political, diplomatic, and cultural influences, wars, campaigns, and battles, and important weapons systems. The set's A-Z organization makes it an easy-to-use ready reference for high school and college students. Perspective essays on several controversial topics, such as the use of torture and the effects of the Patriot Act, serve to inspire readers to apply critical thinking. A detailed chronology is provided to help students place all the important events that have occurred in the Afghanistan War, Iraq War, and War on Terror. Each of the chronologically arranged primary documents is introduced with a brief overview to provide important background information and context. **Army** , 1983 *The Shock and Vibration Digest* , 1991 *A Compendium of Armaments and Military Hardware (Routledge Revivals)* Christopher Chant, 2014-06-03 First published in 1987, *The Compendium of Armaments and Military Hardware* provides within a single volume the salient technical and operational details of the most important weapons.
