Focussing on the connections between practical and theoretical reason he explores the question of whether the priority of the good to the right in ethics might be used to defend an epistemological version of consequentialism and proceeds to formulate a new deontological externalist view His discussion is rich with insights and will be valuable for a wide range of readers in epistemology ethics and practical reason **God Breathed** Josh McDowell, 2015 Powerful Irrefutable Evidence on the Accuracy and Reliability of Scripture From Josh McDowell Popular Author Speaker and Founder of Josh McDowell Ministry God said Let there be And when God spoke things happened Recapture the awe the mystery the passion and power of scripture in God Breathed where you ll personally experience a life transformed by the One who spoke everything into existence including you **Dialogues with Davidson** Jeff Malpas, 2011-06-24 Leading scholars discuss Donald Davidson s work in relation to a wide range of contemporary philosophical issues and approaches The work of the philosopher Donald Davidson 1917 2003 is not only wide ranging in its influence and vision but also in the breadth of issues that it encompasses Davidson s work includes seminal contributions to philosophy of language and mind to philosophy of action and to epistemology and metaphysics In Dialogues with Davidson leading scholars engage with Davidson s work as it connects not only with aspects of current analytic thinking but also with a wider set of perspectives including those of hermeneutics phenomenology the history of philosophy feminist epistemology and contemporary social theory They link Davidson s work to other thinkers including Collingwood Kant Derrida Heidegger and Gadamer The essays demonstrate the continuing significance of Davidson s philosophy not only in terms of the philosophical relevance of the ideas he advanced but also in the further connections and insights those ideas engender **The Heart of the Matter** David Bakhurst, 2023-04-24 The Heart of the Matter explores the legacies of Ilyenkov and Vygotsky two Russian thinkers who marshalled their passion for truth enlightenment and independent thought to understand the human mind not for the sake of knowledge alone but to help create the conditions in which human flourishing can become a reality for all The book renders their theories intelligible against the dramatic social and historical background in which they lived and worked bringing their ideas into dialogue with themes and thinkers in Western philosophy to reveal how they illuminate philosophical issues of enduring significance

The Intentional Spectrum and Intersubjectivity Michael D. Barber, 2011-06-15 World renowned analytic philosophers John McDowell and Robert Brandom dubbed Pittsburgh Neo Hegelians recently engaged in an intriguing debate about perception In The Intentional Spectrum and Intersubjectivity Michael D Barber is the first to bring phenomenology to bear not just on the perspectives of McDowell or Brandom alone but on their intersection He argues that McDowell accounts better for the intelligibility of empirical content by defending holistically functioning reflectively distinguishable sensory and intellectual intentional structures He reconstructs dimensions implicit in the perception debate favoring Brandom on knowledge s intersubjective features that converge with the ethical characteristics of intersubjectivity Emmanuel Levinas illuminates Phenomenology becomes the third partner in this debate between two analytic philosophers critically mediating

their discussion by unfolding the systematic interconnection among perception intersubjectivity metaphilosophy and ethics

Lennox, 2019 Evangelistic book looking at whether science and religion are opposed **John McDowell** Jakob Lindgaard, 2009-04-29 John McDowell Experience Norm and Nature combines original essays by leading contemporary philosophers with point by point responses by McDowell himself to explore the central themes of one of the most innovative philosophers of our day Provides original and critical essays examining McDowell s reading and appropriation of Sellars Kant and Hegel in his own philosophy Explores McDowell s notions of perceptual experience and his proposed rethinking of our conception of nature in light of the challenges that reason and normativity introduce Includes an original essay by McDowell that includes significant developments of his conception of perceptual experience Offers thorough and penetrating responses by McDowell to his critics **Reason, Truth, and Theology in Pragmatist Perspective** Paul D. Murray, 2004 In this work Paul Murray explores which style of rationality is most appropriate to Christian theology in the contemporary pluralist postfoundationalist postmodern context At its heart is a fresh consideration of the American pragmatist tradition focussing on the writings of Richard Rorty and Nicholas Rescher Where Rorty correctly diagnoses the failures of foundationalist objectivism Rescher s pragmatic idealism is presented as healing the ills in Rorty s own neo pragmatism The significant resonance between Rescher s view of rationality and Christian understanding of the trinity is explored In turn Donald MacKinnon s influential writings are presented as exemplifying just such an approach to theology Murray both articulates an enriched form of Christian postliberalism committed to receiving and learning from other traditions of thought and practice and probes the claim that the dynamics of human rationality can be expected to reflect the Trinitarian dynamics of God s being Paul Murray presents us here with an exhaustive and insightful study of recent pragmatic theory in which he sets up

rhythms of healing and completion as well as interrogation particularly remarkable is his exploration of Christianity as the deep and in some sense final interlocutor of pragmatic tradition I strongly recommend this book Olivier Davis Professor of Christian Doctrine King s College London This is a mature wide ranging work that by uniting the intellectual and the practical carries both rational and ethical conviction It does equal justice to the classic teachings of Christianity and to the challenges to rethink them in dialogue with modern and postmodern approaches The result is a conception of Christianity both generously orthodox and deeply engaged with contemporary life and thought It is especially good to see the profound contribution of Donald MacKinnon understood and developed with such perception and relevance David F Ford Regius Professor of Divinity University of Cambridge Paul Murray is currently Lecturer in Systematic Theology within the Department of Theology at the University of Durham England He has previously held posts at St Cuthbert s Seminary Ushaw College Durham and Newman College of Higher Education Birmingham Essays of his exploring issues in philosophical theology science and theology and contemporary Roman Catholic theology have appeared in leading journals and edited collections This is his first monograph
