Readings in Political Parties and Pressure Groups During the several years that I have taught courses in political parties and politics I have been impressed with the need for a book of readings composed largely of timely significant and interesting articles written by active political participants experienced political observers and prominent scholars It has been my belief that such a book would provide a highly realistic portrayal of this vital and dynamic field would perhaps give the reader a vicarious experience in politics and would stimulate greater interest and participation in politics This volume is designed to meet that need It may be used either as a supplement to any of the standard texts on political parties or as the principal text The book should also prove of value and interest to the general reader who wishes information about the functioning of political parties and pressure groups and the role of public opinion in our representative democracy The selections in this book have been gathered from a variety of sources A number of articles have been written by individuals with wide experience in various phases of politics For example a famous governor who has twice been his party's nominee for the presidency presents a penetrating analysis of our two party system a public relations expert explains his role in electing to the United States Senate a man who was virtually unknown a political boss of national reputation describes the way he controlled and directed his party organization and a United States Senator sets forth the findings of a Senate committee on ethics in government Other readings have been extracted from publications of our two major political parties and from government documents including reports of congressional committees Officials of the leading farm business and labor organizations have generously prepared for this volume articles describing their organizations or explaining their interest in politics A large number of the selections have been written by leading scholars or journalists who through education or experience or both have become specialists in some phase of politics About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
