*Disappointment River* Brian Castner,2018-03-13 In 1789 Alexander Mackenzie traveled 1200 miles on the immense river in Canada that now bears his name in search of the fabled Northwest Passage that had eluded mariners for hundreds of years In 2016 the acclaimed memoirist Brian Castner retraced Mackenzie s route by canoe in a grueling journey and discovered the Passage he could not find *Disappointment River* is a dual historical narrative and travel memoir that at once transports readers back to the heroic age of North American exploration and places them in a still rugged but increasingly fragile Arctic wilderness in the process of profound alteration by the dual forces of globalization and climate change Fourteen years before Lewis and Clark Mackenzie set off to cross the continent of North America with a team of voyageurs and Chipewyan guides to find a trade route to the riches of the East What he found was a river that he named *Disappointment* Mackenzie died thinking he had failed He was wrong In this book Brian Castner not only retells the story of Mackenzie s epic voyages in vivid prose he personally retraces his travels battling exhaustion exposure mosquitoes white water rapids and the threat of bears He transports readers to a world rarely glimpsed in the media of tar sands thawing permafrost remote indigenous villages and at the end a wide open Arctic Ocean that could become a far northern Mississippi of barges and pipelines and oil money *Drift Boats & River Dories* Roger L. Dunnette,Antonius Laenen,2018-05-04 What is involved in restoring a river River

Quality Dynamics and Restoration answers this question through a series of articles and case studies written by some of the field's leading researchers and practitioners. The first part of the book covers the physical, chemical, and biological dynamics of a river system. The second part describes monitoring programs and remedial measures used to restore river systems back to healthy and functional states. The Willamette River in Oregon and the Vistula River in Poland are used to illustrate the dynamic and restoration processes. Each river is in a different stage of restoration and is subjected to different degrees of stress from agriculture, industry, and urbanization. The Willamette is an internationally cited example of a restored river, while the Vistula is a river that has just recently begun the restoration process. Contrasts and comparisons of the two river systems enable readers to learn the limitations of restoration processes and what is involved in the different stages of restoration.

**Mazama, 1926      The Long Walk** Brian Castner, 2013-02-28 Brian Castner served three tours of duty in the Middle East, two of them as the commander of an Explosive Ordnance Disposal unit in Iraq. He and his team, his brothers, disarmed bombs. Sometimes they used robots and remote controls. Sometimes they set off controlled explosions. Sometimes one of the team would have to put on the eighty-pound Kevlar suit, take the Long Walk, and disarm the device by hand. Often they were simply too late, arriving just in time to pick up the pieces. In a hailstorm of bullets, bomb fragments, body parts, and the endless wailing of innocent civilians, the days rolled into nights, yesterday turned into tomorrow, and today never even happened. But after the tour, the celebrations, and the long plane ride home, the real war was just beginning. The war against the fear, the confusion, the guilt, and the memory loss. The war against the Crazy. This exhilarating, heartbreaking, searingly honest memoir exposes two harrowing and simultaneous realities: the terror, excitement, and camaraderie of combat and the lonely battle against the enemy within.
