CCF Colonialism in Northern Saskatchewan David Quiring, 2007-10-01 Often remembered for its humanitarian platform and its pioneering social programs Saskatchewan s Cooperative Commonwealth Federation CCF wrought a much less scrutinized legacy in the northern regions of the province during the twenty years it governed Until the 1940s churches fur traders and other wealthy outsiders held uncontested control over Saskatchewan s northern region Following its rise to power in 1944 the CCF undertook aggressive efforts to unseat these traditional powers and to install a new socialist economy and society in largely Aboriginal northern communities The next two decades brought major changes to the region as well

meaning government planners grossly misjudged the challenges that confronted the north and failed to implement programs that would meet northern needs As the CCF s efforts to modernize and assimilate northern people met with frustration it was the northern people themselves that inevitably suffered from the fallout of this failure In an elegantly written history that documents the colonial relationship between the CCF and the Saskatchewan north David M Quiring draws on extensive archival research and oral history to offer a fresh look at the CCF era This examination will find a welcome audience among historians of the north Aboriginal scholars and general readers Macleod's Clinical Examination John Macleod,2009-01-01 DVD *The Journal of the South Carolina Medical Association* South Carolina Medical Association,1990 Encyclopedia of Movement Disorders ,2010-02-26 The Encyclopedia of Movement Disorders is a comprehensive reference work on movement disorders encompassing a wide variety of topics in neurology neurosurgery psychiatry and pharmacology This compilation will feature more than 300 focused entries including sections on different disease states pathophysiology epidemiology genetics clinical presentation diagnostic tools as well as discussions on relevant basic science topics This Encyclopedia is an essential addition to any collection written to be accessible for both the clinical and non clinical reader Academic clinicians translational researchers and basic scientists are brought together to connect experimental findings made in the laboratory to the clinical features pathophysiology and treatment of movement disorders The Encyclopedia targets a broad readership ranging from students to general physicians basic scientists and Movement Disorder specialists Published both in print and via Elsevier s online platform of Science Direct this Encyclopedia will have the enhanced option of integrating traditional print with online multimedia Connects experimental findings made in the laboratory to the clinical features pathophysiology and treatment of movement disorders Encompasses a wide variety of topics in neurology neurosurgery psychiatry and pharmacology Written for a broad readership ranging from students to general physicians basic scientists and movement disorder specialists **Clinical Pharmacy in the United States** Robert M.
