Fraser, Andrew Mango, Robert McNamara, 2011 TG Fraser presents a comprehensive analysis of how the decisions taken at the end of World War I forged a new Middle East These decisions set in place a pattern which formed the political shape of the region as we know it today including the popular uprisings witnessed in Egypt and Tunisia in 2011 From the Paris Peace Conference right up to the 2011 clashes in Tahrir Square and Hosni Mubarak's resignation Fraser gives a relevant and complete overview in this critical time for the Middle East and its people This book explores the complex interactions of the high politics of the conferences with how Arabs Jews and Turks created new realities on the ground often confounding what the statesmen had decided With events in the Middle East rarely absent from the world's headlines this book offers a scholarly and objective analysis of a

critical phase in its development TG Fraser is professor emeritus of the University of Ulster He is a fellow of the Royal Historical Society a fellow of the Royal Society of Arts and a Member of the Royal Institute of International Affairs Andrew Mango is the author of the definitive biography of Ataturk 2002 as well as The Turks Today 2004 Robert McNamara is currently a lecturer in international history at the University of Ulster at Coleraine

**Truman, Congress, and Korea** Larry Blomstedt, 2016-01-08 Three days after North Korean premier Kim Il Sung launched a massive military invasion of South Korea on June 24 1950 President Harry S Truman responded dispatching air and naval support to South Korea Initially Congress cheered his swift action but when China entered the war to aid North Korea the president and many legislators became concerned that the conflict would escalate into another world war and the United States agreed to a truce in 1953 The lack of a decisive victory caused the Korean War to quickly recede from public attention However its impact on subsequent American foreign policy was profound In Truman Congress and Korea The Politics of America's First Undeclared War Larry Blomstedt provides the first in depth domestic political history of the conflict from the initial military mobilization to Congress's failed attempts to broker a cease fire to the political fallout in the 1952 election During the war President Truman faced challenges from both Democratic and Republican legislators whose initial support quickly collapsed into bitter and often public infighting For his part Truman dedicated inadequate attention to relationships on Capitol Hill early in his term and also declined to require a formal declaration of war from Congress advancing the shift toward greater executive power in foreign policy The Korean conflict ended the brief period of bipartisanship in foreign policy that began during World War II It also introduced Americans to the concept of limited war which contrasted sharply with the practice of requiring unconditional surrenders in previous conflicts Blomstedt's study explores the changes wrought during this critical period and the ways in which the war influenced US international relations and military interventions during the Cold War and beyond
