American-Built Packets and Freighters of the 1850s William L. Crothers, 2013-06-07 Up and down the Eastern seaboard during the 1850s American shipyards constructed numerous large wooden merchant sailing vessels that formed the backbone of the commercial shipping industry This comprehensive volume appraises in minute detail the construction of these ships outlining basic design criteria and enumerating and examining every plank and piece of timber involved in the process including the keel frames hull and deck planking stanchions knees deck houses bulworks railings interior structures and arrangements More than 150 illustrations illuminate the size shape location and pertinent specifics of each item Complete with a glossary of contemporary industry terms this work represents the definitive study of the mid nineteenth century s great American built square rigged ships *Endeavor* Robert L., Fran Williams Smith, 2014-03-05 Endeavor to try to do to set about to owe to be under obligation to try hard to exert effort to make an earnest attempt to strive Endeavor begins as a story of five families related by blood marriage and a sixth surrogate family by love and friendship It was the sixth family that raised an important question for the author as to how he defines family Are they family only those who are related by blood marriage or are they friendship legal action or something broader associated with functions that are similar to what we normally associate with a family Endeavor is about people who spent their entire lives striving to achieve something better for their families themselves and others without depreciating the value of their work contribution or others with whom they shared many things not the least of which often was unemployment and poverty Only one thing could overwhelm them

fear of losing hope and their belief that things would be better It was their mantra for living Often beaten down they were rarely overwhelmed The story begins with the Smiths peasants living in the Ruhr Valley early in the 19th Century where they labored in the coalmines and on their own small patch of land carved from the dark forest which was their first step up the ladder of achievement In those days work was communal as was most of life s other requirements The opening chapter is followed by the story of the Dungans beginning in the early 1850s They were dirt poor Irish who traded a potato famine starvation and poverty for a little land in a new world Kentucky Both stories will take the reader to the Great Depression of the 1930s that shaped an American culture for two generations The third chapter will introduces the Williams Old and Goss families a treasure of Cornish cousins who formed tight family units for many generations and who generously included my wife and myself to their group when I married into the Williams family The Lows our adopted family are introduced in the sixth chapter Families at War From there on we leave it to the reader to sort out a remarkable collection of people who became the source of our human fire When we were alone with the wind crying Offered us the warmth of a human fire Partial quote from Many Winters by Nancy Wood *The American-built Clipper Ship, 1850-1856* William L. Crothers,1997 The American Built Clipper Ship presents in detail 152 clippers that comprise the culmination of the shipbuilder s art Every facet of clipper ship design and construction is covered from felling timber to details on interior finish work Detailed drawings illustrate this work **Exploration** David Tory,2020-11-03 Seduction Spies Sodomy Starvation Severe cold Indian Attacks A plague of sickness and death And a love story too Isaac Stanfield is a young man with a thirst for adventure He leaves his home to become a sailor on a merchantman the Sweet Rose and through ingenuity and sheer luck finds himself in the middle of the drama and explorations that precede the departure of the Mayflower for New England in 1620 Exploration is Isaac s coming of age story capturing the turbulence of the times through his observations and experiences Suspenseful poignant and expertly researched David Tory s novel brings to life an engaging cultural history of English seafaring exploration and intrigue in the early 17th century **Nelson's Arctic Voyage** Peter Goodwin,2019-05-16 In the summer of 1773 the 14 year old Horatio Nelson took part in an expedition to the Arctic which came close to ending his naval career before it had begun The expedition was to find a navigable northern passage between the Atlantic and Pacific and was supported by the Royal Society and King George III Two bomb vessels HMS Racehorse and Carcass were fitted out and strengthened under the command of Captain Hon Constantine Phipps It was an extremely cold Arctic summer and the ships became locked in ice far from Spitzbergen and were unable to cut their way out until days later when the wind changed and the ice broke up The ships were extricated and returned home On the trip the young Nelson had command of one of the smaller boats of the ships a four oared cutter manned by twelve seamen In this he helped to save the crew of a boat belonging to the Racehorse from an attack by a herd of enraged walruses He also had a more famous encounter with a polar bear while attempting to obtain a bearskin as a present for his father an exploit that later became part of the Nelson legend Drawing on the ship s journals and

expedition commander Phipps journal from the National Archives the book creates a picture of the expedition and life on board Using the ships muster books it also details the ship s crews giving the different roles and ranks in the ships The book is illustrated using some of the ship s drawings and charts and pictures of many objects used on the ship while a navigational chart of the route taken has been created from the logbooks The book also looks at the overall concept of naval exploration as set in train by Joseph Banks and the Royal Society The fact that the expedition failed as a result of poor planning with potentially tragic results demonstrates the difficulties and uncertainties of such an expedition It also looks at a great naval commander at the earliest stage of his career and considers how the experience might have shaped his later career and attitudes Other great captains and voyages are discussed alongside Nelson including Captain Cook and his exploration of the south seas and the later ill fated northern journeys of Franklin and Shackleton

The Ship's Midwife Peta Miller,2023-06-01 Lives are about to be irrevocably changed following a typhus outbreak on a cramped emigrant ship bound for Australia 1850 Sarah Hallow is orphaned penniless and alone with only the skills learned from her midwife mother to guide her Passage on a ship bound for the new settlement of Brisbane Australia is her last option Though her skills are quickly dismissed by the ship s doctor Sarah is pleased to find instant friendship with her cabin mate Bridie a fiery Irish girl with a sharp tongue and midwifery skills of her own When the two women come to the aid of a labouring woman onboard Sarah s dreams of opening her own midwifery practice in Brisbane don t seem so impossible Certainly not as impossible as her daydreams about the ship doctor s son who only seems to have eyes for her friend But something else is lurking on the ship a disease that has the power to take down even the strongest man and is about to rip through the ship like wildfire leaving only devastation in its path As caring for patients stretches Sarah and Bridie to their absolute limit thoughts of the future are rapidly eclipsed by their determination to survive If only they can make it to Australia with their lives and loves intact Inspired by true events this is a meticulously researched eye opening heart breaking soul warming story of survival love and grit for readers of Darry Fraser Alison Stuart and Tea Cooper A poignant story of love and loss and the triumph of the human spirit over adversity that will tug at your heart and have you reaching for the tissues Alison Stuart author of The Goldminer s Sister
