Richard T. Hull

Quarter Century Of Value Inquiry Presidential Addresses Of The Americas:

A Quarter Century of Value Inquiry Richard T. Hull, 1994 This volume contains all of the presidential addresses given before the American Society for Value Inquiry since its first meeting in 1970 Contributions are by Richard Brandt Virgil Aldrich John W Davis the late Robert S Hartman James B Wilbur the late William H Werkmeister Robert E Carter the late William T Blackstone Gene James Eva Huel Cadwallader Richard T Hull Norman Bowie Stephen White Burton Leiser Abraham Edel Sidney Axinn Robert Ginsberg Patricia Werhane Lisa M Newton Thomas Magnell Sander Lee John M Abbarno Ruth Miller Lucier and Tom Regan Autobiographical sketches by all of the living contributors and one recently deceased biographical statements of the remainder together with photographic portraits of all the contributors make this volume a unique record of value inquiry during the past quarter century previously unpublished or unpublished in the present form substantial new material added **Dialogues on Values and Centers of Value** Thomas M. Dicken, Rem B.

Edwards, 2021-11-08 This book features two old philosophical friends engaged in lively personal and intellectual conversations Wary of any dogmatism their dialogues explore the Big Bang and the joy of grandchildren value theory and terrorism God and art metaphor and meaning while assessing the thought of Robert S Hartman Alfred North Whitehead Charles Hartshorne H Richard Niebuhr and others Theoretical Interpretations of the Holocaust, 2021-10-25 This book aims to show the many resources at our disposal for grappling with the Holocaust as the darkest occurrence of the twentieth century These wide ranging studies on philosophy history and literature address the way the Holocaust had led to the reconceptualization of the humanities The scholarly approaches of Pierre Klossowski Georges Bataille and Maurice Blanchot are examined critically and the volume explores such poignant topics as violence evil and monuments Health, Science, and Ordinary Language Lennart Nordenfelt, 2022-07-04 This book is a contribution to the current philosophical discussion on the nature of health and illness It contains a comparative analysis and reevaluation of four influential contemporary theories in this field These are the biostatistical theory of Christopher Boorse which represents the mainstream thinking in medicine and three versions of a holistic and normative understanding of health and illness which are the theories of Lawrie Reznek K W M Fulford and Lennart Nordenfelt In this unusual volume of assessment Nordenfelt critically reexamines his own theory and George Khushf and K W M Fulford contribute critical responses **Philosophy and Art in Gurdjieff's Beelzebub**

Anna T. Challenger, 2021-07-26 This book demonstrates that the most forceful contribution to George Gurdjieff's world view is Sufism understood as the tradition of seeking truth wherever it can be found especially at the meeting place of the world religions Gurdjieff's masterpiece Beelzebub's Tales to His Grandson is philosophically analyzed in its use of literary devices to jolt the reader into radical transformation *Max Scheler's Acting Persons*, 2021-12-13 This book gathers six trenchant new analyses of the idea of the person as raised by the German philosopher and social theorist Max Scheler 1874 1928 The issues raised in the volume are both timely and perennial from considerations of postmodernity phenomenology and

metaphysics to sharp edged comparisons with other thinkers including Immanuel Kant Martin Heidegger Emmanuel Levinas Eric Voegelin Richard Rorty and Hannah Arendt Local Insights, Global Ethics for Business Daryl Koehn, 2021-11-08 This book evaluates strategies for managing ethical conflict Macro approaches that attribute select values to entire peoples and claim supremacy for these values are suspect A micro approach focusing on the ethics of individual thinkers is better The study uses the ethics of Confucius and Tetsuro Watsuji to derive a process based universal ethic that respects local differences yet is not relativistic *A Pedagogy of Becoming* , 2021-07-26 This book advocates a return to the spirit of the Greek notion of paideia emphasizing a pedagogy of becoming The authors offer a holistic approach to education that aspires toward the inclusion promotion and nurturance of virtue and valuation Topics range from the purely conceptual to applied methodology Several key issues and contemporary trends in education are addressed philosophically including the values of wisdom morality compassion empathy interdependence authenticity and self understanding **Quantum Learning** Conrad P. Pritscher, 2021-11-08 This book shows quantum learning is the resource that unites parts into wholes and then wholes into continually larger wholes Just as quantum computers can regard sub atomic particles as a wave and as particles quantum learning can understand learners as simultaneously nondual whole and dual part The study includes a reconsideration of clarity in expression and thought Morality for Moderns Corbin Fowler, 2021-11-15 This book defends morality against the critiques of egoism subjectivism and relativism It argues that we can and should construe some moral standards as objective and that justice and self development are the cornerstones of healthy morality Opening with a dialogue meant to tease and provoke the reader the book s subsequent chapters treat misconceptions about morality the possibility of unselfish action the nature of free will and moral responsibility and the identity of moral right and wrong **The Art of Rhetoric** Giambattista Vico, 1996 Gustavo Costa reviewing the Italian edition of Vico s *Institutiones Oratoriae* in *New Vico Studies* 9 1991 has written that Rhetoric is the mainspring of an important trend of Vichian studies which initiated at the beginning of the twentieth century and had its manifestation in John D Schaeffer s *Sensus Communis Vico Rhetoric and the Limits of Relativism* Durham Duke University Press 1990 where Schaeffer aptly noted summing up a long exegetic tradition Vico was imbued with rhetoric and convinced of its centrality to Western civilization Unfortunately the editions of Vico s works published in English have not yet included the *Institutiones Oratoriae* which more or less reflects the lectures on rhetoric given by Vico at the University of Naples starting with the academic year 1699 1700 and going through 1739 1741 The manual on rhetoric was used in Italy up to the end of the nineteenth century and established the common curriculum in rhetoric to be followed in all Universities This English edition offers a text of the *Institutiones* complete on the base of the four known extant manuscripts It offers the marginal glosses made by Vico s students a collection of Vico s phrases and explanations of terms collected by some of the students a glossary of Latin words and rhetorical terms from the Latin text and a wealth of information in the commentary The Art of Rhetoric is the manual for everyone who wants to know what

rhetoric is how it was employed in the forum or the courts how it could be learned from the classic orators and how it can be used whenever we speak for convincing praising or motivating What Caused the Big Bang? Rem B. Edwards,2021-07-26 This book critically explores answers to the big question What produced our universe around fifteen billion years ago in a Big Bang It critiques contemporary atheistic cosmologies including Steady State Oscillationism Big Fizz Big Divide and Big Accident that affirm the eternity and self sufficiency of the universe without God This study defends and revises Process Theology and arguments for God s existence from the universe s life supporting order and contingent existence Formal Axiology and Its Critics ,2021-08-16 Formal Axiology and Its Critics consists of two parts both of which present criticisms of the formal theory of values developed by Robert S Hartman replies to these criticisms plus a short introduction to formal axiology Part I consists of articles published or made public during the lifetime of Hartman to which he personally replied It contains previously published replies to Hector Neri Casta eda William Eckhardt and Robert S Brumbaugh and previously unpublished replies to Charles Hartshorne Rem B Edwards Robert E Carter G R Grice Nicholas Rescher Robert W Mueller Gordon Welty Pete Gunter and George K Plochmann in an unfinished but now completed article on which Hartman was working at the time of his death in 1973 Part II consists of articles presented at recent annual meetings of the R S Hartman Institute for Formal and Applied Axiology that continue to criticize and further develop Hartman s formal axiology An article by Rem B Edwards raises serious unanswered questions about formal axiology and ethics Another by Frank G Forrest shows how the formal value calculus based on set theory might answer these questions and an article by Mark A Moore points out weaknesses in the Hartman Forrest value calculus and develops an alternative calculus based upon the mathematics of quantum mechanics While recognizing that unsolved problems remain the book intends to make the theoretical foundations and future promise of formal axiology much more secure Open Access funding for this volume has been provided by the Robert S Hartman Institute **The Deepest Questions You Can Ask About God** William Gerber,2021-11-15 William Gerber has matched his keen analysis of the key problems concerning God with a wealth of reflections from the wisdom of the ages Thus he has gotten the great thinkers of the world to work for him and for you This handy book has considerable value as a reference work while giving abundant thought to the reflective reader who wonders about God Philosophy as an art of wondering must face the God questions These are questions not only of God s existence but of what God might exist as of how we might know that and of what such a God s relationship to human beings may be Reading through this book is journeying through our humanity caught in a universe of wonder Gerber s comments critical gentle eminently reasonable are a consolation as well as guide to the reader Even if this work of erudition and inquiry doesn t answer all our questions about God we are better human beings for reading it and taking it to heart Maybe God could learn something about us from it too Robert Ginsberg Executive Editor *The Knowledge of Good* Robert S. Hartman,Arthur R. Ellis,Rem B. Edwards,2021-07-26 This book presents Robert S Hartman s formal theory of value and critically examines many other twentieth century value

theorists in its light including A J Ayer Kurt Baier Brand Blanshard Paul Edwards Albert Einstein William K Frankena R M Hare Nicolai Hartmann Martin Heidegger G E Moore P H Nowell Smith Jose Ortega y Gasset Charles Stevenson Paul W Taylor Stephen E Toulmin and J O Urmson Open Access funding for this volume has been provided by the Robert S Hartman Institute

Community, Diversity, and Difference ,2021-07-26 This book has its philosophical starting point in the idea that group based social movements have positive implications for peace politics It explores ways of imagining community nation and international systems through a political lens that is attentive to diversity and different lived experiences Contributors suggest how groups might work toward new nonviolent conceptions and experiences of diverse communities and global stability

From the Eye of the Storm ,2022-07-04 From the Eye of the Storm Regional Conflicts and the Philosophy of Peace presents to the reader a cross section of an emerging field of study the philosophy of peace The editors bring together articles that explore the philosophic implications of many recent regional conflicts Reflecting the diversity and vitality and any new field of study this volume contains five sections Conceptual Foundations America s Homefront Desert Storm Assessments Jihad Intifada and Other Mideast Concerns and Latin American Issues The topics of the articles include war militarism patriotism nationalism nonviolence conscientious objection feminist peace the media the ethics of the Gulf War the Israeli Palestinian conflict Islamic pacifism and Latin American resistance A concluding postscript assesses prospects for achieving peace and change within our fast changing international scene This volume has an extensive bibliography of writings concerning peace and conflict and is suited to professional and student audiences

What is Life? Josef Seifert,2021-11-15 This book makes four bold claims 1 life is an ultimate datum open to philosophical analysis and irreducible to physical reality hence all materialist reductionist explanations most current theories of life are false 2 All life presupposes soul entelechy without which a being would at best fake life 3 The concept of life is analogous and the most direct access to life in its irreducibility is gained through consciousness 4 All life possesses an objective and intrinsic value that needs to be respected human life possesses beyond this an inviolable dignity Life and personal life are pure perfections it being absolutely better to possess personal life than not to possess it Chapter 1 the metaphysical essence and the many meanings of life as well as its transcendental character Chapter 2 the irreducibility of biological life its amazing empirical and philosophically intelligible essential features and the ways of knowing them Chapter 3 the immediate evidence and indubitable givenness of mental conscious life as well as questions of brain death and immortality Chapter 4 the inviolable objective dignity of personal life and its self transcendence a new theory of the fourfold source of human dignity and rights Chapter 5 in dialogue form methods and results of philosophy versus those of empirical life sciences

Personalism Revisited ,2021-11-08 This book presents selected addresses presented before the Personalist Discussion Group meetings held in conjunction with the annual meetings of The American Philosophical Association Eastern Division It includes the central ideas of American Personalistic Idealism developed during the twentieth century its major criticisms and recent

developments by philosophers who are either Personalistic Idealists or sympathetic to the position Between Freedom and Necessity ,2021-11-08 This extended essay joins an old conversation at the intersection of freedom and necessity Though it takes place at the beginning of the twenty first century by the Christian reckoning that has become an integral part of European identity it will at times read like a conversation between classical Greece and nineteenth century Europe The cast consists of characters drawn from Aeschylus Sophocles Euripides and Plato as well as the authors themselves Plato Aristotle Locke Hume Kant Kierkegaard MacIntyre and Nussbaum Some of these writers have been associated with displaced displacing claims of universality but each is in place and in time in ways that are instructive for ethics Myth the matter of stories becomes also the matter of critical reflection which in turn is subjected to critical reflection Every fragment of philosophy is a contribution to the reflection and it is nothing if it is separated from the matter the stories the myths and the characters including us who both make them and live in them
