The Weird and the Eerie Mark Fisher, 2016-12-15 What exactly are the Weird and the Eerie In this new essay Mark Fisher argues that some of the most haunting and anomalous fiction of the 20th century belongs to these two modes The Weird and the Eerie are closely related but distinct modes each possessing its own distinct properties Both have often been associated with Horror yet this emphasis overlooks the aching fascination that such texts can exercise The Weird and the Eerie both fundamentally concern the outside and the unknown which are not intrinsically horrifying even if they are always unsettling Perhaps a proper understanding of the human condition requires examination of liminal concepts such as the weird and the eerie These two modes will be analysed with reference to the work of authors such as H P Lovecraft H G Wells M R James Christopher Priest Joan Lindsay Nigel Kneale Daphne Du Maurier Alan Garner and Margaret Atwood and films by Stanley Kubrick Jonathan Glazer and Christopher Nolan

The Golden Age of Science Fiction John Wade, 2019 John Wade grew up in the 1950s a decade that has since been dubbed the golden age of science fiction It was a wonderful decade for science fiction but not so great for young fans With early television broadcasts being advertised for the first time as unsuitable for children and the inescapable barrier of the X certificate in the cinema barring anyone under the age of sixteen the author had only the radio to fall back on and that turned out to be more fertile for the budding SF fan than might otherwise have been thought Which is probably why as he grew older rediscovering those old TV broadcasts and films that had been out of bounds when he was a kid took on a lure that soon became an obsession For him the super accuracy and amazing technical quality of today s science fiction films pale into insignificance beside the radio early TV and B picture films

about people who built rockets in their back gardens and flew them to lost planets or tales of aliens who wanted to take over if not our entire world then at least our bodies This book is a personal account of John Wade s fascination with the genre across all the entertainment media in which it appeared the sort of stuff he revelled in as a young boy and still enjoys today
