este análisis como debate de cinco parámetros fundamentales: las formas, el espacio, la materia, el espíritu y el tiempo. Si el método iconológico se interesa por el significado literario del arte y el sociológico por las relaciones de dependencia entre el arte y su contexto con la escultura romana, Focillon propone llegar a la propia esencia de lo artístico resaltando los valores que son propios y exclusivos de las artes plásticas. Con ello, la historia del arte deja de ser una ciencia auxiliar de la historia de la literatura o de la sociología para convertirse en una verdadera ciencia de las formas.
