Introduction to Côte d'Ivoire Gilad James, PhD, C te d Ivoire or the Ivory Coast is a country located in West Africa that borders the Gulf of Guinea It is known for being the world s largest producer of cocoa beans as well as for its vibrant cultural heritage The country is home to over 25 million people with the majority of the population being of African descent The

official language of Côte d'Ivoire is French although local languages such as Baoulé, Dioula and Anyin are also spoken. Côte d'Ivoire has a rich history that dates back to pre-colonial times. The country was first colonized by the French in the late 19th century and gained independence in 1960. Since then it has experienced periods of political instability including a civil war that lasted from 2002 to 2011. Despite these challenges, Côte d'Ivoire has continued to develop its economy which is largely driven by agriculture including the production of coffee, cocoa and palm oil. The country has also made progress in areas such as education and healthcare although poverty and inequality persist in many parts of the country.

Musica Naturalis
Philipp Jeserich, 2013-11. A critical study of the relationship between poetics and music theory in medieval culture and aesthetics. *Musica Naturalis* delivers the first systematic account of speculative music theory as a discursive horizon for literary poetics. The title refers to the late medieval French poet Eustache Deschamps whose 1392 treatise on verse writing, *L'Art de Dictier*, famously casts verse as natural music in explicit distinction to song which Deschamps defines as artificial. Philipp Jeserich links the significance of the speculative branch of medieval musicology to literary theory and literary production, opening up a field of study that has been largely neglected. Beginning with Augustine and Boethius, he traces the discourse of speculative music theory to the late fifteenth century, giving attention to medieval Latin and vernacular sources. Ultimately, Jeserich calls for the conservatism of Deschamps's poetics and develops a new perspective on the poetics and poetry of the *Grands rhétoriciens*. Given Jeserich's reliance on the intellectual inheritance of late medieval French poetics and poetry, this book will appeal to English-speaking specialists of Old and Middle French as well as scholars of the French Renaissance. It will also interest English-language medievalists of several other disciplines, intellectual historians and specialists of English as well as scholars of Italian and Iberian literature.

The British Union Catalogue of Music Periodicals
John Wagstaff, 2019-07-23. First published in 1998, the aim of this catalogue is to help students, researchers and librarians determine the UK locations of over 2,000 music periodical titles held in public, academic and national libraries. Over 220 libraries in the UK have been surveyed from St Austell to Aberdeen, Aberystwyth to Brighton. Each catalogue entry provides detailed information on library holdings and full bibliographic details of periodical titles including ISSNs. The main catalogue is preceded by an address list and by a preface outlining the history of music periodicals in Britain together with statistical tables.

A Short Historical Account of the Degrees in Music at Oxford and Cambridge Charles Francis Abdy Williams, 1893

Music at the Aragonese Court of Naples Allan W. Atlas, 2008-10-30. This book deals with various aspects of musical life at the Aragonese court of Naples from its establishment in 1442 to its demise in the opening years of the sixteenth century. An opening chapter gives a general historical/cultural background of the court. The author then discusses the royal chapel and its most important members as well as other important musicians who were in Naples but who had no known ties with the court in an official sense. He goes on to describe the various types of secular music at the court and the music manuscripts compiled in and around Naples. The importance of the book lies in its attempt to synthesize all that is known.
