Quebec The Canada Series:

The History of Canada Series: Three Weeks in Quebec City Christopher Moore, 2015-05-05 In 1864 thirty three delegates from five provincial legislatures came to Quebec City to pursue the idea of uniting all the provinces of British North America. The American Civil War not yet over encouraged the small and barely defended provinces to consider uniting for mutual protection. But there were other factors: the rapid expansion of railways and steamships spurred visions of a continent spanning new nation. Federation in principle had been agreed on at the Charlottetown conference but now it was time to debate the difficult issues of how a new nation would be formed. The delegates included John A Macdonald, George Etienne Cartier and George Brown. Historian Christopher Moore demonstrates that Macdonald, the future prime minister, surprisingly was not the most significant player here and Canada could have become a very different place. The significance of this conference is played out in Canadian news each day. The main point of contention at the time was the issue of power: a strong federal body versus stronger provincial rights. Because of this conference we have an elected House of Commons, an appointed Senate, a federal Parliament and provincial legislatures. We have what amounts to a Canadian system of checks and balances. Did it work then and does it work now?

Canada and Quebec Robert Bothwell, 1998 Relations between Canada and Quebec have never been easy. Beginning with the Conquest and working through the many political permutations before Confederation and since, there has always been conflict between the two governments and in particular between two points of view. The rebellions of 1837-8, conscription, the Quiet Revolution, language laws, the FLQ crisis and endless constitutional wrangles such as Meech Lake are just a sampling of the issues that have divided the nation. The cast of characters has been fascinating too. Pierre Trudeau, Brian Mulroney, Robert Bourassa and Rene Levesque have all played centre stage. In the wake of a razor thin majority for federalist forces in the referendum of 1995, the issue of separation continues to be complicated by the division of the huge national debt, the possibility of further territorial partition within a separate Quebec, the rights of First Nations people and the spectre of separatist movements in Eastern Europe in recent years. Through interviews with a wide variety of politicians, journalists and academics, Robert Bothwell skilfully weaves together a coherent account of the relationship between Canada and Quebec. We hear from Jean Chretien, Sharon Carstairs and Ovide Mercredi, Lise Bissonnette and Graham Fraser, Michael Bliss and Ramsay Cook and many more. The text is an absorbing collage of personal accounts and considered opinions, one that acquaints us with the many different facets of this complicated yet crucial question: how did Canada and Quebec get to this impasse and where do we go from here?
