Rockefeller, Carnegie, and Canada Jeffrey David Brison, 2005

In the first half of the twentieth century the Rockefeller Foundation and the Carnegie Corporation helped to create and maintain a cultural and intellectual infrastructure in Canada that benefited key institutions such as University of Toronto, McGill University, the National Gallery, the Humanities Research Council of Canada and the Canadian Social Science Research Council. Jeffrey Brison documents how American philanthropy facilitated the transformation from a private localized system of cultural intellectual and academic patronage to a complex nation based system of incorporated patronage, a system in which the major patron was the federal state. His study calls into question our essentialistic notions of contrasting national identities and the now mythologized juxtaposition of an American culture fuelled by the free market with a Canadian one sustained by state support.

*The Routledge Handbook of Comparative Rural Policy* Matteo Vittuari, John Devlin, Marco Pagani, Thomas G. Johnson, 2019-10-16

This volume represents the result of almost two decades of trans Atlantic collaborative development of a policy research paradigm, the International Comparative Rural Policy Studies program. Over this period dozens of scientists from different disciplines but with a common interest in rural issues and policy have collaboratively

studied the policies in North America Europe and other parts of the world A core element of the book is the idea and practice of comparative research and analysis what can be learned from comparisons how and why policies vary in different contexts and what lessons might or might not be transferable across borders It provides skills for the use of comparative methods as important tools to analyze the functioning of strategies and specific policy interventions in different contexts and a holistic approach for the management of resources in rural regions It promotes innovation as a tool to valorize endogenous resources and empower local communities and offers case studies of rural policy in specific contexts The book largely adopts a territorial approach to rural policy This means the book is more interested in rural regions their people and economies and in the policies that affect them than in rural sectors and sectoral policies per se The audience of the book is by definition international and includes students attending courses in agricultural and rural policy rural and regional studies and natural resource management lecturers seeking course material and case studies to present to their students in any of the courses listed above professionals working in the field of rural policy policy makers and civil servants at different levels seeking tools to better understand rural policy both at the local and global scale and to better recognize and comprehend how to transfer best practices
