Ambiguous Women in Medieval Art Monica Ann Walker Vadillo, 2019-12-31 Ambiguous Women in Medieval Art brings together the work of seven researchers who coming from different perspectives and in some cases different disciplines approach the question of ambiguity in relation to different case studies where the represented women do not follow the ever present dichotomy exemplified by Eve and Mary In doing so they demonstrate the complexities of a topic that is as contemporary as it is ancient Through them we can get valuable insights on the understanding and experience of gender in the past and the ways in which these experiences have shaped our own understanding of this topic

Lester, Laura K. Morreale, 2025-05-15 A Crusader's Death and Life in Acre uses five parchment rolls that inventoried the possessions of Eudes of Nevers son of the duke of Burgundy at his death in Acre in 1266 to open out a panorama of Christian crusader life The contents of the rolls or rouleaux span from the pay rendered to knights and servants to the numerous possessions of a crusading nobleman The inventory provides insight into the medieval Outremer even as it provokes questions about trade diplomacy remembrance and the methodological challenges of evoking material objects in texts Anne E Lester and Laura K Morreale present the first complete modern French edition and English translation of the rouleaux along with seven crusade poems by Rutebeuf In addition A Crusader's Death and Life in Acre contains a wealth of scholarly commentary that addresses the composition of the rouleaux the life and relationships of Eudes and the culture of crusading in its material written devotional and poetic forms Contributors Sharon Farmer Andrew Jotischky Anne Latowsky Richard A Leson Maureen C Miller Jonathan Rubin Uri Zvi Shachar and Caroline Smith **Born to Write** Neil Kenny, 2020-02-27 It is easy to forget how deeply embedded in social hierarchy was the literature and learning that has come down to us from the early modern European world From fiction to philosophy from poetry to history works of all kinds emerged from and through the social hierarchy that was a fundamental fact of everyday life Paying attention to it changes how we might understand and interpret the works themselves whether canonical and familiar or largely forgotten But a second related fact is much overlooked too works also often emanated from families not just from individuals Families were driving forces in the production that is in the composing editing translating or publishing of countless works Relatives collaborated with each other edited each other or continued the unfinished works of deceased family members some imitated or were inspired by the works of long dead relatives The reason why this second fact about families is connected to the first about social hierarchy is that families were in the period a basic social medium through which social status was claimed maintained threatened or lost So producing literary works was one of the many ways in which families claimed their place in the social world The process was however often fraught difficult or disappointing If families created works as a form of socio cultural legacy that might continue to benefit their future members not all members benefited equally women sometimes produced or claimed the legacy for themselves but they were often

sidelined from it Relatives sometimes disagreed bitterly about family history identity not least religious and so about the picture of themselves and their family that they wished to project more widely in society through their written works whether printed or manuscript So although family was a fundamental social medium out of which so many works emerged that process could be conflictual as well as harmonious The intertwined role of family and social hierarchy within literary production is explored in this book through the case of France from the late fifteenth to the mid seventeenth century Some families are studied here in detail such as that of the most widely read French poet of the age Clément Marot But the extent of this phenomenon is quantified too some two hundred families are identified as each containing more than one literary producer and in the case of one family an extraordinary twenty seven

The North Transept of Reims Cathedral

Jennifer M. Feltman, 2016-07-15 This interdisciplinary volume in the AVISTA series is the first book to focus solely on the north transept of Reims Cathedral the portion of the gothic building that served as the canons primary entrance to the cathedral from their adjoining cloister in the thirteenth century Despite the importance of its sculpture and stained glass as well as its ritual use by the canons the north transept remains one of the least understood portions of the cathedral in part because its sequence of construction is so complex even improvised Until recently important archaeological evidence of the transept's substructures was unavailable This is however no longer the case The current volume presents this new subterranean evidence alongside careful studies of the stones above ground analysis of the geometry used in the transept's design iconographic and stylistic studies of its sculpture and glass and extant medieval documents which record events bearing upon its construction Essays by international specialists of the cathedral's archaeology architecture sculpture and stained glass address issues of the north transept's evolving design and visual programs thereby significantly clarifying and revising the building's chronology Essays also consider the meaning of its visual programs in light of architectural adaptation and contemporary socio historical events whether royal coronations or the infamous revolts of the local burghers In addition to presenting a readily accessible state of the research on the north transept the volume also provides a model for interdisciplinary and international collaboration in the study of medieval buildings

zu den wichtigsten Einrichtungen privater und öffentlicher caritas. Durch unterschiedliche methodische Ansätze und aus verschiedenen Quellengattungen wird hier die Heterogenität und institutionelle Vielfalt mittelalterlicher Hospitaller in den Blick genommen. Dies führt zu einem Themenspektrum, das von der inneren Verfassung dieser Einrichtungen von den für sie geltenden Normen über die Finanzierung und die Memoria bis hin zu ernährungsgeschichtlichen und medizinhistorischen Fragen reicht. Dabei lassen sich die Autoren von der Erkenntnis leiten, dass es das mittelalterliche Hospital nicht gab, sondern dass jede einzelne Einrichtung ihr eigenes Gesicht besaß.
