Queen Who Flew 1st Edition:

The Queen Who Flew Ford Madox Ford,2016-09-27 Once upon a time a Queen sat in her garden She was quite a young young Queen but that was a long while ago so she would be older now But for all she was Queen over a great and powerful country she led a very quiet life and sat a great deal alone in her garden watching the roses grow and talking to a bat that hung head downwards with its wings folded for all the world like an umbrella beneath the shade of a rose tree overhanging her favourite marble seat She did not know much about the bat not even that it could fly for her servants and nurses would never allow her to be out at dusk and the bat was a great deal too weak eyed to fly about in the broad daylight But one summer day it happened that there was a revolution in the land and the Queen's servants not knowing who was likely to get the upper hand left the Queen all alone and went to look at the fight that was raging But you must understand that in those days a revolution was a thing very different from what it would be to day Instead of trying to get rid of the Queen altogether the great nobles of the kingdom merely fought violently with each other for possession of the Queen's person Then they would proclaim themselves Regents of the kingdom and would issue bills of attainder against all their rivals saying they were traitors against the Queen's Government In fact a revolution in those days was like what is called a change of Ministry now save for the fact that they were rather fond of indulging themselves by decapitating their rivals when they had the chance which of course one would never think of doing nowadays
