Queens People A Study Of Hegemony Coercion And Accommodation Among The Okanagan Of Canada:

The Queen's People Peter Carstens,1991 Carstens applies the peasant model to the study of reserve systems and finds significant correlations

The O'Keefes of O'Kanagan Ken Mather,2025-05-06 The tumultuous rags to riches story of the famed O Keefe ranching family Founded in 1867 the Historic O Keefe Ranch offers a fascinating glimpse into the life of an early farming community in the heart of the Okanagan Valley The O Keefes of O kanagan a welcome resource for any visitor to the site is an in depth look into the multiple branches and generations of the family that gave the ranch its name When Michael O Keefe arrived in Canada a penniless Irish immigrant in 1819 he had no idea the impact his descendants would leave on the Canadian West Michael s son Cornelius arrived in British Columbia also penniless in 1862 and over the course of fifty years became a prosperous rancher farmer and developer marrying three times and fathering seventeen children Indeed the story of Cornelius O Keefe ranching magnate is as much the story of the five strong women who lived and worked alongside him persevering through the economic downturns and years when the family s very survival was a struggle

A Common Hunger Joan G. Fairweather,2006 The impact of colonial dispossession and the subsequent social and political ramifications places a unique burden on governments having to establish equitable means of addressing previous injustices This book considers the efforts by both Canada and South Africa to reconcile the damage left by colonial expansion in part looking back with a critical eye but also pointing the way towards a solution that will satisfy the common need for human dignity

Contact and Conflict Robin Fisher,2011-11-01 Originally published in 1977 Contact and Conflict has remained an important book which has inspired numerous scholars to examine further the relationships between the Indians and the Europeans fur traders as well as settlers For this edition Robin Fisher has written a new introduction in which he surveys the literature since 1977 and comments on any new insights into these relationships Fisher contends that the fur trade had originally brought minimal cultural change to the Indians In 1858 it essentially came to an end and with the beginning of white settlement there was a fundamental change in the relationship between Indians and Europeans What had been a reciprocal system between the two civilizations became a pattern of white dominance He shows that while the Indians had been able to adjust gradually to the changes introduced by the traders in the contact period they lost control of their culture under the impact of colonization

Let Right Be Done Hamar Foster,Heather Raven,Jeremy Webber,2011-11-01 In 1973 the Supreme Court of Canada issued a landmark decision in the Calder case confirming that Aboriginal title constituted a right within Canadian law Let Right Be Done examines the doctrine of Aboriginal title thirty years later and puts the Calder case in its legal historical and political context both nationally and internationally With its innovative blend of scholarly analysis and input from many of those intimately involved in the case this book should be essential reading for anyone interested in Aboriginal law treaty negotiations and the history of the BC Indian land question

Discourses That Matter Maria José Canelo, 2013-10-03 How can English and American Studies be instrumental to conceptualizing the deep instability we are presently facing How can they address the coordinates of this instability such as war terrorism the current economic and financial crisis and the consequent myriad forms of deprivation and fear How can they tackle the strategies of dehumanization invisibility and the naturalization of inequality and injustice entailed in contemporary discourses This anthology grew out of an awareness of the need to debate the role of English and American Studies both in the present context and in relation to the so called demise of the Humanities Drawing on Judith Butler's rethinking of materiality as the effect of power in her study Bodies That Matter 1993 we locate this collection of essays at the crossroads of discourse and power while we expect the work collected here to highlight the ability of discourses to materialize in or as truth and as such to support or decry particular constituencies Discourses therefore matter to us as products and vehicles of power relations that can be subject to the analytical and interpretative tools of English and American Studies Our idea was to challenge especially young scholars to position their research concerning the ability of their fields to be discourses that matter in the case in point to be critical practices that make an active intervention in current debates By focusing on matters such as language as witness to the world representations of gender race and ethnicity performative discourses exceptionalism and power and interculturality these essays pursue the chance to deepen enlarge and question both literary and cultural phenomena their established critical readings and the strategies deployed in representations Finally English and American Studies in the present collection demonstrate their affiliation to the Humanities by exploring the numerous possibilities offered by their

discourses their ability to foster critical thought allowing us to think for and outside ourselves their capacity to test argue and question and their profound imaginative potential *Makúk* John Sutton Lutz, 2009-01-01 John Lutz traces Aboriginal people's involvement in the new economy and their displacement from it from the arrival of the first Europeans to the 1970s Drawing on an extensive array of oral histories manuscripts newspaper accounts biographies and statistical analysis Lutz shows that Aboriginal people flocked to the workforce and prospered in the late nineteenth century He argues that the roots of today's widespread unemployment and welfare dependency date only from the 1950s when deliberate and inadvertent policy choices what Lutz terms the white problem drove Aboriginal people out of the capitalist wage and subsistence economies offering them welfare as compensation *Truth and Power in American Archaeology* Alice Beck Kehoe,

Legends of Our Times Morgan Baillargeon, Leslie Tepper, 2011-11-01 Throughout the world the cowboy is an instantly recognized symbol of the North American West *Legends of Our Times* breaks the stereotype of cowboys and Indians to show an almost unknown side of the West It tells the story of some of the first cowboys Native peoples of the northern Plains and Plateau Through stories poetry art and reminiscences in this lavishly illustrated work Native people invite the reader on a fascinating journey into the world of ranching and rodeo The book also presents the special relationship between Native people and animals such as the horse buffalo deer and dog which have always played an important role in Native spiritual and economic life By the mid nineteenth century Native people were highly valued for their skills in horse breeding and herding and could take advantage of new economic opportunities in the emerging ranching industry Faced with limited resources competition for land and control by governments and Indian agents many Native people still managed to develop their own herds or to find work as cowboys As the ways of the Old West changed new forms of entertainment and sport evolved Impresarios such as Buffalo Bill Cody invented the Wild West show employing Native actors and stunt performers to dramatize scenes from the history of the West and to demonstrate the friendly competitions that cowboys enjoyed at the end of a long round up or cattle drive The popularity of rodeos also grew within Native communities and arenas were built on many reserves Native rodeos are still held while many Native competitors ride in professional rodeos as well Today Plains and Plateau peoples proudly continue a long tradition of cowboying *Legends of Our Times* is a celebration of their rich contribution to ranching and rodeo life *In the Belly of a Laughing God* Jennifer Andrews, 2011-12-15 How can humour and irony in writing both create and destroy boundaries *In the Belly of a Laughing God* examines how eight contemporary Native women poets in Canada and the United States Joy Harjo Louise Halfe Kimberly Blaeser Marilyn Dumont Diane Glancy Jeannette Armstrong Wendy Rose and Marie Annharte Baker employ humour and irony to address the intricacies of race gender and nationality While recognizing that humour and irony are often employed as methods of resistance this careful analysis also acknowledges the ways that they can be used to assert or restore order Using the framework of humour and irony five themes emerge from the words of these poets religious transformations generic transformations history memory

and the nation photography and representational visibility and land and the significance of home Through the double voice discourse of irony and the textual surprises of humour these poets challenge hegemonic renderings of themselves and their cultures even as they enforce their own cultural norms **Anthropology** Stanley R. Barrett,1996 The second phase centred around the 1960s as new theories sprang up and methods were refined in order to cope with doubts that a scientific study of culture had been established and with the recognition that change and conflict were as prevalent as stability and harmony The third phase began in the 1970s and continues today dominated by postmodernism and feminist anthropology One of my central arguments will be that beginning in phase two and growing rapidly during phase three a gap has emerged between our theories and our methods For most of the history of anthropology our methods have talked the language of science
