- 'Queer' Theory is the academic term for any analysis of texts / films which uncovers a homosexual or lesbian interpretation of that text / film.
- It challenges the position that 'heterosexual' is the only 'normal' sexuality
- Queer = positioned away from the norm
- It's a school of criticism that grew partly out of the decriminalisation of homosexuality in the 1960s

*Queer Theories: An Introduction* Lorenzo Bernini, 2020-08-04 This is a short and accessible introduction to the complex and evolving debates around queer theories advocating for their critical role in academia and society The book traces the roots of queer theories and argues that Foucault owed an important debt to other European authors including the feminist and homosexual liberation movements of the 1960 1970s and the anticolonial movements of the 1950s Going beyond a simple introduction to queer theories this book situates them firmly in a European and Italian context to offer a crucial set of arguments in defence of LGBTQI rights in defence of the freedom of teaching and research and in defence of a radical idea of democracy The narrative of the book is divided into three short chapters which can be read independently or in sequence The first chapter argues that queer theories are rooted in the critical philosophical tradition the second presents a critique of heterosexism and the binary inherent to the gender sex sexual orientation system and the third chapter sketches a history of the queer debate The book offers a useful typology of queer theories by sorting them into three basic paradigms Freudian Marxism radical constructivism and antisocial and affective theories clarifying the complexities of the nature of the debates for undergraduates The book is both accessible and original and is suitable for both specialist researchers and undergraduate students new to queer studies It will be essential reading for those studying philosophy sexuality studies and gender studies

*Queer Ancient Ways* Zairong Xiang, 2018 *Queer Ancient Ways* advocates a profound unlearning of colonial modern

categories as a pathway to the discovery of new forms and theories of queerness in the most ancient of sources In this radically unconventional work Zairong Xiang investigates scholarly receptions of mythological figures in Babylonian and Nahua creation myths exposing the ways they have consistently been gendered as feminine in a manner that is not supported and in some cases actively discouraged by the texts themselves An exercise in decolonial learning to learn from non Western and non modern cosmologies Xiang s work uncovers a rich queer imaginary that had been all but lost to modern thought in the process critically revealing the operations of modern colonial systems of gender sexuality and knowledge formation that have functioned from the Conquista de America in the sixteenth century to the present to keep these systems in obscurity At the heart of Xiang s argument is an account of the way the unfounded feminization of figures such as the Babylonian co creatrix Tiamat and the Nahua creator figures Tlaltecuhltli and Coatlicue is complicit with their monstification This complicity tells us less about the mythologies themselves than about the dualistic system of gender and sexuality within which they have been studied underpinned by a consistent tendency in modern colonial thought to insist on unbridgeable categorical differences By contextualizing these deities in their respective mythological linguistic and cultural environments through a unique combination of methodologies and critical traditions in English Spanish French Chinese and Nahuatl Xiang departs from the over reliance of much contemporary queer theory on European post modern thought Much more than a queering of the non Western and non modern Queer Ancient Ways thus constitutes a decolonial and transdisciplinary engagement with ancient cosmologies and ways of thought which are in the process themselves revealed as theoretical sources of and for the queer imagination

**Postcolonial and Queer Theories** John Charles Hawley, 2001-02-28 Since the 1960s American and Western European gays have set the agenda for sexual liberation and defined its emergence Western models of homosexuality often provide the only globally recognizable frameworks for discussing gay and lesbian cultures around the world and thus Western

interpretive schemes are imposed on non Western societies At the same time gay and lesbian lifestyles in emerging countries do not always neatly fit Western paradigms and data from those countries often clash with dominant Western models So too the literature of emerging countries often depicts homosexuality in ways which challenge the existing tools of Western literary critics The thirteen contributors to this book examine the implied imposition of a heavily capitalistic white and generally male model of homosexuality on the emerging world By combining postcolonial and queer theoretical approaches this volume suggests alternative frameworks for describing sexuality around the world and for exploring non Western literary representations of gay and lesbian lifestyles The volume concludes with a chapter assessing new questions in both postcolonial and queer theorizing that suggest common concerns and many avenues for future research

**Anthropological Explorations in Queer Theory** Dr Mark Graham, 2014-09-28 Anthropological Explorations in Queer Theory offers a wide ranging fusion of queer theory with anthropological theory shifting away from the discussion of gender categories and identities that have often constituted a central concern of queer theory and instead exploring the queer elements of contexts in which they are not normally apparent Engaging with a number of apparently non sexual topics including embodiment and fieldwork regimes of value gifts and commodities diversity discourses biological essentialisms intersectionality the philosophy of Bergson and Deleuze and the representation of heterosexuality in popular culture this book moves to discuss central concerns of contemporary anthropology drawing on both the latest anthropological research as well as classic theories In broadening the field of queer anthropology and opening queer theory to a number of new themes both empirical and theoretical Anthropological Explorations in Queer Theory will appeal not only to anthropologists and queer theorists but also to geographers and sociologists concerned with questions of ontology materiality and gender and sexuality
