of view On the one hand the book provides an outline of Queer approaches to issues of language gender and sexual identity that is of interest to students and scholars new to the field On the other hand the empirical analyses of language data represent material that also appeals to experts in the field The book deals with repercussions of the discursive materialisation of heteronormativity and gender binarism in various kinds of linguistic data These include stereotypical genderlects structural linguistic gender categories especially from a contrastive linguistic point of view the discursive sedimentation of female and feminine generics linguistic constructions of the gendered body in advertising and the usage of personal reference forms to create characters in Queer Cinema Throughout the book readers become aware of the wounding potential that gendered linguistic forms may possess in certain contexts *Talking Gender and Sexuality* Paul McIlvenny, 2002-01-01 This edited volume brings together scholars from psychology linguistics sociology and communication science to investigate how performative notions of gender and sexuality can be fruitfully explored with the rich set of tools that have been developed by conversation analysis and discursive psychology for analyzing everyday practical language use agency and identity in talk Contributors re-examine the foundations of earlier research on gender in spoken interaction critically appraise this research to see if and how it translates successfully into the study of sexuality in talk and promote innovative alternatives that integrate the insights of recent feminist and queer theory with qualitative studies of talk and conversation Detailed empirical analyses of naturally occurring talk are used to uncover how gender and sexual identities agencies and desires are contingently accomplished in conversational practices Collectively they pose the important question of what a critical theory of talk gender and sexuality ought to look like if it is to be sensitive to a politics of conversation analysis **Pronoun Envy** Anna Livia, 2001 Controversy over gendered pronouns for example using the generic he has been a staple of feminist arguments about patriarchal language over the last 30 years and is certainly the most contested political issue in Western feminist linguistics Most accounts do not extend beyond policy issues like the official institution of non-sexist language In this volume Anna Livia reveals continuities both before and after the sexist language reform movement and shows how the creative practices of pronoun use on the part of feminist writers had both aesthetic and political ends Livia uses the term pronoun envy ironically to show that rather being a case of misguided envy battles over gendered language are central to feminist concerns Livia examines a broad corpus of written texts in English and French concentrating on those texts which problematize the traditional functioning of the linguistic gender system They range from novels and prose poems to film scripts and personal testimonies and in time from the 19th century to the present Some withhold any indication of gender others have non-gendered characters Livia's goal is two-fold to help bridge the divide between linguistic and literary analysis and to show how careful study of the manipulation of linguistic gender in these texts informs larger concerns This fresh and highly interdisciplinary work lies at the intersection of several vital areas including language and gender sociolinguistics and feminist literary analysis **Researching Language, Gender and Sexuality** Helen

Sauntson,2019-11-25 Researching Language Gender and Sexuality leads students through the process of undertaking research in order to explore how gender and sexuality are represented and constructed through language Drawing on international research Sauntson incorporates a fluid understanding of genders and sexualities and includes research on a diverse range of identities This accessible guidebook offers an outline of the practical steps and ethical guidelines involved when gathering linguistic data for the purpose of investigating gender and sexuality Each chapter contains up to date information and empirical case studies that relate to a range of topics within the field of language gender and sexuality as well as suggestions for how students could practically research the areas covered Student friendly this is essential reading for undergraduate and postgraduate students of English language linguistics and gender studies

Falling into the Lesbi World Evelyn Blackwood, 2010-09-13 *Falling into the Lesbi World* offers a compelling view of sexual and gender difference through the everyday lives of tombois and their girlfriends femmes in the city of Padang West Sumatra While likening themselves to heterosexual couples tombois and femmes contest and blur dominant constructions of gender and heterosexuality Tombois are masculine females who identify as men and desire women their girlfriends view themselves as normal women who desire men Through rich in depth and provocative stories author Evelyn Blackwood shows how these same sex Indonesian couples negotiate transgressive identities and desires and how their experiences speak to the struggles and desires of sexual and gender minorities everywhere Blackwood analyzes the complex and seemingly contradictory practices of tombois and their partners demonstrating how they make sense of Islamic transnational and modern state discourses in ways that seem to align with normative gender and sexual categories while at the same time subverting them The childhood and adolescent narratives of tombois and femmes offer bold new insights into a social process that is rarely

addressed in anthropological lesbian gay or transgender studies We see how tombois and femmes come to view themselves as boys and girls respectively through their interactions with family and community and how as teenagers tombois learn that masculinity needs its opposite feminine women By contrast femmes notice shifts in their desires as they develop long term relationships with tombois The book reveals the complexity of tomboi masculinity showing how tombois enact both masculine and feminine behaviors as they move between the anonymity and vulnerability of public spaces and the familiarity of family spaces *Falling into the Lesbi World* demonstrates how nationally and globally circulating queer discourses are received and reinterpreted by tombois and femmes in a city in Indonesia Though less educated than many internet savvy activists in major urban centers their identities are clearly both part of yet different than global gay models of sexuality In contrast to the international LGBT model of modern sexualities this work reveals a multiplicity of sexual and gender subjectivities in Indonesia arguing for the importance of recognizing and validating this diversity in the global gay ecumene
