ebook version of this title is available through Luminos University of California Press s Open Access publishing program Visit www.luminosoa.org to learn more At the beginning of the common era the two major imperial powers of the ancient Mediterranean and Near East were Rome and Parthia In this book Jake Nabel analyzes Roman Parthian interstate politics by focusing on a group of princes from the Arsacid family the ruling dynasty of Parthia who were sent to live at the Roman court Although Roman authors called these figures hostages and scholars have studied them as such Nabel draws on Iranian and Armenian sources to argue that the Parthians would have seen them as the emperor s foster children These divergent perspectives allowed each empire to perceive itself as superior to the other since the two sides interpreted the exchange of royal children through conflicting cultural frameworks Moving beyond the paradigm of great powers in conflict *The Arsacids*

of Rome advances a new vision of interstate relations with misunderstanding at its center **The Oxford Handbook of the Hellenistic and Roman Near East** Rubina Raja, 2025 The Near East during the Hellenistic and Roman periods has been studied for centuries This Handbook includes fifty chapters written by experts from a variety of disciplines archaeology including classical near eastern and Islamic ancient history anthropology art history data and network science epigraphy and historiography Together these chapters shed a fresh light on the vast regions that made up Hellenistic and later Roman Syria and the Near East The material and written evidence from the region is considered side by side with historical sources as well as scientific data coming out of archaeological science and network science and shows how new knowledge about the region can be brought to the forefront of current literature on the subject The dynamic volatile diverse and culturally rich regions that this volume focuses on have left an abundant cultural heritage and in many places these regions are under constant threat In this Handbook knowledge about the newest research on a myriad of these regions sites and locations is highlighted together with overviews of the centuries long history of research The Handbook is essential for students scholars and the archaeologically inclined reader and constitutes the definitive collection of current research in the field

Handbook of Ancient Afro-Eurasian Economies Sitta von Reden, 2023-10-24 The Handbook of Ancient Afro Eurasian Economies offers in three volumes the first comprehensive discussion of economic development in the empires of the Afro Eurasian world region to elucidate the conditions under which large quantities of goods and people moved across continents and between empires Volume 3 Frontier Zone Processes and Transimperial Exchange analyzes frontier zones as particular landscapes of encounter economic development and transimperial network formation The chapters offer problematizing approaches to frontier zone processes as part of and in between empires with the goal of better understanding how and why goods and resources moved across the Afro Eurasian region Key frontiers in mountains and steppes along coasts rivers and deserts are investigated in depth demonstrating how local landscapes politics and pathways explain network practices and participation in long distance trade The chapters seek to retrieve local knowledge ignored in popular Silk Road models and to show the potential of frontier zone research for understanding the Afro Eurasian region as a connected space Babatha's Orchard Philip F. Esler, 2017-02-09 In 1961 archaeologists discovered a family archive of legal papyri in a cave near the Dead Sea where their owner the Jewish woman Babatha had hidden them in 135 CE at the end of the Bar Kokhba revolt Babatha s Orchard analyzes the oldest four of these papyri to argue that underlying them is a hitherto undetected and surprising train of events concerning how Babatha s father Shim on purchased a date palm orchard in Maoza on the southern shore of the Dead Sea in 99 CE that he later gave to Babatha The central features of the story untold for two millennia relate to how a high Nabatean official had purchased the orchard only a month before but suddenly rescinded the purchase and how Shim on then acquired it in enlarged form from the vendor Teasing out the details involves deploying the new methodology of archival ethnography combined with a fresh scrutiny of the papyri written in Nabatean Aramaic to investigate the Nabatean and

Jewish individuals mentioned and their relationships within the social ethnic economic and political realities of Nabatea at that time Aspects of this context which are thrown into sharp relief by Babatha's Orchard include the prominence of wealthy Nabatean women and their husbands financial reliance on them the high returns and steep losses possible in date cultivation the sophistication of Nabatean law and lawyers the lingering effect of the Nabateans nomadic past in lessening the social distance between elite and non elite and the good ethnic relations between Nabateans and Jews

Aramaic Inscriptions and Documents of the Roman Period John F. Healey, 2009-10-29 In the first centuries AD although much of the Near East was ruled by Rome the main local language was Aramaic and the people who lived inside or on the fringes of the area controlled by the Romans frequently wrote their inscriptions and legal documents in their own local dialects of this language This book introduces these fascinating early texts to a wider audience by presenting a representative sample comprising eighty inscriptions and documents in the following dialects Nabataean Jewish Palmyrene Syriac and Hatran Detailed commentaries on the texts are preceded by chapters on history and culture and on epigraphy and language The linguistic commentaries will help readers who have a knowledge of Hebrew or Arabic or one of the Aramaic dialects to understand the difficulties involved in interpreting such materials The translations and more general comments will be of great interest to classicists and ancient historians

Pre-Islamic Arabia Valentina A. Grasso, 2023-02-23 This book delves into the political and cultural developments of pre Islamic Arabia focusing on the religious attitudes of the inhabitants of the Arabian Peninsula and its northern extension into the Syrian desert Between the third and the seventh century Arabia was on the edge of three great empires Iran Rome and Aksum and at the centre of a lucrative network of trade routes Valentina Grasso offers an interpretative framework which contextualizes the choice of Arabian elites to become Jewish sympathisers and or convert to Christianity and Islam by probing the mobilization of faith in the shaping of Arabian identities For the first time the Arabians of the period are granted autonomy from marginalizing mostly Western narratives framing them as barbarians inhabiting the fringes of Rome and Iran and or deterministic analyses in which they are depicted retrospectively as exemplified by the Muslims definition of the period as Jahiliyyah ignorance

A Cultural History of Aramaic Holger Gzella, 2015-01-08 Aramaic is a constant thread running through the various civilizations of the Near East ancient and modern from 1000 BCE to the present and has been the language of small principalities world empires and a fair share of the Jewish Christian tradition Holger Gzella describes its cultural and linguistic history as a continuous evolution from its beginnings to the advent of Islam For the first time the individual phases of the language their socio historical underpinnings and the textual sources are discussed comprehensively in light of the latest linguistic and historical research and with ample attention to scribal traditions multilingualism and language as a marker of cultural self awareness Many new observations on Aramaic are thereby integrated into a coherent historical framework

A History of the Jews and Judaism in the Second Temple Period, Volume 3 Lester L. Grabbe, 2020-02-20 This is the third volume of the projected four volume history of the

Second Temple period collecting all that is known about the Jews from the period of the Maccabaeen revolt to Hasmonean rule and Herod the Great Based directly on primary sources the study addresses aspects such as Jewish literary sources economy Qumran and the Dead Sea Scrolls the Diaspora causes of the Maccabaen revolt and the beginning and end of the Hasmonean kingdom and the reign of Herod the Great Discussed in the context of the wider Hellenistic world and its history and with an extensive up to date secondary bibliography this volume is an invaluable addition to Lester Grabbe s in depth study of the history of Judaism *The Eerdmans Dictionary of Early Judaism* John J. Collins, Daniel C. Harlow, 2010-11-11

The Dictionary of Early Judaism is the first reference work devoted exclusively to Second Temple Judaism fourth century b c e through second century c e The first section of this substantive and incredible work contains thirteen major essays that attempt to synthesize major aspects of Judaism in the period between Alexander and Hadrian The second and significantly longer section offers 520 entries arranged alphabetically Many of these entries have cross references and all have select bibliographies Equal attention is given to literary and nonliterary i e archaeological and epigraphic evidence and New Testament writings are included as evidence for Judaism in the first century c e Several entries also give pertinent information on the Hebrew Bible The Dictionary of Early Judaism is intended to not only meet the needs of scholars and students at which it succeeds admirably but also to provide accessible information for the general reader It is ecumenical and international in character bringing together nearly 270 authors from as many as twenty countries and including Jews Christians and scholars of no religious affiliation *Visions of Community in the Post-Roman World* Walter Pohl, Clemens Gantner, Richard Payne, 2016-03-03

This volume looks at visions of community in a comparative perspective from Late Antiquity to the dawning of the age of crusades It addresses the question of why and how distinctive new political cultures developed after the disintegration of the Roman World and to what degree their differences had already emerged in the first post Roman centuries The Latin West Orthodox Byzantium and its Slavic periphery and the Islamic world each retained different parts of the Graeco Roman heritage while introducing new elements For instance ethnicity became a legitimizing element of rulership in the West remained a structural element of the imperial periphery in Byzantium and contributed to the inner dynamic of Islamic states without becoming a resource of political integration Similarly the political role of religion also differed between the emerging post Roman worlds It is surprising that little systematic research has been done in these fields so far The 32 contributions to the volume explore this new line of research and look at different aspects of the process with leading western Medievalists Byzantinists and Islamicists covering a wide range of pertinent topics At a closer look some of the apparent differences between the West and the Islamic world seem less distinctive and the inner variety of all post Roman societies becomes more marked At the same time new variations in the discourse of community and the practice of power emerge Anybody interested in the development of the post Roman Mediterranean but also in the relationship between the Islamic World and the West will gain new insights from these studies on the political role of ethnicity and

religion in the post Roman Mediterranean Israel Numismatic Research Volume 19 (2024) Israel Numismatic Society, 2024-12-31 *Aramaic Inscriptions and Documents of the Roman Period* John C. L. Gibson, John F. Healey, 2009-10-29 A representative sample of 80 inscriptions and documents in various local Aramaic dialects dating from the first centuries BC when the Near East was under Roman rule Detailed commentaries on the texts chapters on history and culture and on epigraphy and language and English translations are also provided **Epigraphic Culture in the Eastern Mediterranean in Antiquity** Krzysztof Nawotka, 2020-09-21 This book investigates the epigraphic habit of the Eastern Mediterranean in antiquity from the inception of alphabetic writing to the seventh c CE aiming to identify whether there was one universal epigraphic culture in this area or a number of discrete epigraphic cultures Chapters examine epigraphic culture s through quantitative analysis of 32 062 inscriptions sampled from ten areas in the Eastern Mediterranean from the Black Sea coast to Greece western to central Asia Minor Phoenicia to Egypt They show that the shapes of the epigraphic curves are due to different factors occurring in different geographical areas and in various epochs including the pre Greek epigraphic habit the moment of urbanization and Hellenization and the organized Roman presence Two epigraphic maxima are identified in the Eastern Mediterranean in the third c BCE and in the second c CE This book differs from previous studies of ancient epigraphic culture by taking into account all categories of inscriptions not just epitaphs and in investigating a much broader area over the broadly defined classical antiquity This volume is a valuable resource for anyone working on ancient epigraphy history or the cultures of the Eastern Mediterranean Men on the Rocks Michel Mouton, Stephan Gerhard Schmid, Stephan G. Schmid, 2013 Petra in modern southern Jordan is universally known as one of the most frequented touristic sites in the Near East inscribed on the UNESCO world heritage list Modern visitors are attracted by the romantic aspect of the rock cut tomb fa ades heavily contrasting in their baroque stile with the desert like surrounding of the rocky and arid landscape These monuments were the result of the long time presence of the Arab tribe of the Nabataeans who made Petra their capital when they became at least partially sedentarised during the Hellenistic period i e between the late 4th to late 1st centuries BCE How exactly this process of sedentarisation happened how the site of Petra changed from a temporary dwelling place of a small Bedouin tribe to one of the blinking capitals of the ancient Near East that attracted as it is the case today visitors from all over the world was the subject of a three years research program jointly sponsored by the French Agence Nationale de la Recherche ANR and the German Research Foundation DFG At the end of the program an international conference held in Berlin in December 2011 brought together several dozen of scholars from all over the world in order to pinpoint the state of research on the Formation of the Nabataean capital The contributions of the present volume focus on questions related to the natural environment of the site on the geology and geography as well as on architecture small finds and social dynamics probably the clue for a better understanding of the functioning of the Nabataean kingdom and its capital Petra **Aksum and Nubia** George Hatke, 2013-01-07 Aksum and Nubia assembles and analyzes the textual

and archaeological evidence of interaction between Nubia and the Ethiopian kingdom of Aksum focusing primarily on the fourth century CE. Although ancient Nubia and Ethiopia have been the subject of a growing number of studies in recent years, little attention has been given to contact between these two regions. Hatke argues that ancient Northeast Africa cannot be treated as a unified area politically, economically, or culturally. Rather, Nubia and Ethiopia developed within very different regional spheres of interaction as a result of which the Nubian kingdom of Kush came to focus its energies on the Nile Valley, relying on this as its main route of contact with the outside world, while Aksum was oriented towards the Red Sea and Arabia. In this way, Aksum and Kush coexisted in peace for most of their history, and such contact as they maintained with each other was limited to small-scale commerce. Only in the fourth century CE did Aksum take up arms against Kush, and even then the conflict seems to have been related mainly to security issues on Aksum's western frontier. Although Aksum never managed to hold onto Kush for long, much less dealt the final death blow to the Nubian kingdom as is often believed, claims to Kush continued to play a role in Aksumite royal ideology as late as the sixth century. Aksum and Nubia critically examines the extent to which relations between two ancient African states were influenced by warfare, commerce, and political fictions.
