**My Psalm Has Turned into Weeping**

Will Kynes, 2012-10-30 Drawing inspiration from the widely recognized parody of Ps 8 5 in Job 7 17 18 this study inquires whether other allusions to the Psalms might likewise contribute to the dialogue between Job his friends and God An intertextual method that incorporates both diachronic and synchronic concerns is applied to the sections of Job and the Psalms in which the intertextual connections are the most pronounced the Job dialogue and six psalms that fall into three broad categories praise 8 107 supplication 39 139 and instruction 1 73 In each case Job s dependence on the Psalms is determined to be the more likely explanation of the parallel and in most allusions to the same psalm appear in the speeches of both Job and the friends The contrasting uses to which they put these psalms reflect conflicting interpretive approaches and uncover latent tensions within them by capitalizing on their ambiguities They also provide historical insight into the Psalms authority and developing views of retribution The dialogue created between Job and these psalms indicates the concern the book has with the proper response to suffering and the role the interpretation of authoritative texts may play in that reaction

*Sentence and Discourse* Jacqueline Guéron, 2015 This book looks at the relationship between the structure of the sentence and the organization of discourse While a sentence obeys specific grammatical rules the coherence of a discourse is instead dependent on the relations between the sentences it contains In this volume leading syntacticians semanticists and philosophers examine the nature of these relations where they come from and how they apply Chapters in Part I address points of sentence grammar in different languages including mood and tense in Spanish definite determiners in French and Bulgarian and the influence of aktionsart on the acquisition of tense by English French and Chinese children Part II looks at modes of discourse showing for example how discourse relations create implicatures and how Indirect Discourse differs from Free Indirect Discourse The studies conclude that the relations between sentences that make a discourse coherent are already encoded in sentence grammar and that once established these relations influence the meaning of individual sentences
