## Quest For Charisma:

Charismatic Leadership in Organizations Iga Maria Lehman, 2024-09-04 History is full of examples of how the skilful use of language is a fundamental aspect of charismatic leadership. Traditionally this phenomenon has been studied focusing on oratory skills. The book argues that the relationship between a leader and a follower has points of similarity to that which exists between a writer and a reader and that in each case former party is the agenda setter but satisfactory outcomes require a mutual endeavor. Given that scholarly writing about management and organizations is inevitably a mix of the presentation of empirical truths and value judgements the ability to engage the reader intellectually and emotionally is critical in the successful dissemination of disciplinary knowledge and belief claims. The book proposes a multi faceted construct of textual charisma which is created through the use of metaphors stories and personal accounts as well as the ancient construct of *pistis* and the contemporary notion of metadiscourse. The proposed framework provides guidance for management and organization studies authors seeking to present themselves as convincing and engaging writers.

*Searching for a Corporate Savior* Rakesh Khurana, 2004-07-26 Corporate CEOs are headline news. Stock prices rise and fall at word of their hiring and firing. Yet we know surprisingly little about how CEOs are selected and dismissed or about their true power. This text takes us into the often secretive world of the CEO selection process. **Charismatic Leadership**

Elesa Zehndorfer, 2015-08-11 Why is charisma so crucially important to today's corporations? And how might its misuse have been responsible for bringing the world's financial system crashing to its knees? *Charismatic Leadership: The role of charisma in the global financial crisis* provides a theory driven and intuitively appealing analysis of the role that charisma played in the global financial crisis of 2008. It looks at how charismatic leadership can contribute to organizational effectiveness but also considers the destructive potential of its darker side. It examines the role of charisma in fuelling investor irrationality and the endogenous instability and boom and bust cycles that characterize the markets. This book unites both academic and practitioner led approaches to produce a text that is at once stimulating and informative. Expert insights written by financial sector leaders in the View from the Markets sections alongside mini case studies and end of chapter questions enable the reader to consolidate key theoretical points covered in each chapter. It will be of interest to advanced students and scholars in the fields of leadership and organizational studies as well as professionals with a keen interest in this area. New Sacred Writing and Charisma

Claudia Jetter, 2025-03-10 Mid nineteenth century America was a vibrant period marked by charismatic leaders who produced new sacred writing. This book explores the lives and works of Mormon founder Joseph Smith Jr, Methodist revivalist Phoebe Palmer and Transcendentalist Ralph Waldo Emerson focusing on how their textual productions contributed to a diverse discourse community grappling with a perceived loss of religious authority. It identifies shared motifs and practices these modern prophets employed to establish new carriers of religious authority. Claudia Jetter examines the concept of religious authority highlighting the dynamic ascription processes between charismatic leaders and

interactive social communities within the historical context of nineteenth century America      **Charismatic Leadership**

*Quest for Decisive Victory* Robert Michael Citino,2002 Since the earliest days of warfare military operations have followed a predictable formula after a decisive battle an army must pursue the enemy and destroy its organization in order to achieve a victorious campaign But by the mid 19th century the emergence of massive armies and advanced weaponry and the concomitant decline in the effectiveness of cavalry had diminished the practicality of pursuit producing campaigns that bogged down short of decisive victory Great battles had become curiously indecisive decisive campaigns virtually impossible

Constructing Charisma Edward Berenson,Eva Giloi,2013 Railroads telegraphs lithographs photographs and mass periodicals the major technological advances of the 19th century seemed to diminish the space separating people from one another creating new and apparently closer albeit highly mediated social relationships Nowhere was this phenomenon more evident than in the relationship between celebrity and fan leader and follower the famous and the unknown By mid century heroes and celebrities constituted a new and powerful social force as innovations in print and visual media made it possible for ordinary people to identify with the famous to feel they knew the hero leader or star to imagine that public figures belonged to their private lives This volume examines the origins and nature of modern mass media and the culture of celebrity and fame they helped to create Crossing disciplines and national boundaries the book focuses on arts celebrities Sarah Bernhardt Byron and Liszt charismatic political figures Napoleon and Wilhelm II famous explorers Stanley and Brazza and celebrated fictional characters Cyrano de Bergerac      **Quests** Jeff Howard,2022-04-24 Combining theory and practice

*Reinventing Khomeini* Daniel Brumberg, 2001-04-15 *Reinventing Khomeini* offers a new interpretation of the political battles that paved the way for reform in Iran Brumberg argues that these conflicts did not result from a sudden ideological shift nor did the election of President Mohammad Khatami in 1997 really defy the core principles of the Islamic Revolution To the contrary the struggle for a more democratic Iran can be traced to the revolution itself and to the contradictory agendas of the revolution's founding father Ayatollah Ruhollah Khomeini A complex figure Khomeini was a fervent champion of Islam but while he sought a Shi'ite vision of clerical rule under one Supreme Leader he also strove to mesh that vision with an implicitly Western view of mass participatory politics The intense magnetism and charisma of the ayatollah obscured this paradox But reformers in Iran today while rejecting his autocratic vision are reviving the constitutional notions of government that he considered and even casting themselves as the bearers of his legacy In *Reinventing Khomeini* Brumberg

Smith, 2000-03-30 Smith examines the major canons of classical rhetorical theory by demonstrating their influence on Christian speakers He begins by explaining why charisma has become a misused term He then explores why writing about charisma has been so difficult in terms of the academic prejudice in favor of objectivity and reason He then constructs a three level definition of charisma to replace the current one After analyzing the charisma of Jesus in terms of the three personae he developed as teacher human and messiah Smith argues that his power arose from this rich development of character The textual charisma of the Gospel narrators is explored in terms of their narrative techniques and Smith then examines the concept of ethos the use of emotion in persuasion and explicates the theories of leading existential thinkers to develop advanced notions of human responsibility and transcendent spirituality These two notions are used to refine and improve previous definitions of charisma Smith then establishes a matrix that crosses levels of charisma with different types of identification This work will be of particular interest to scholars students and researchers involved with Christianity philosophy and persuasion
