translated in its entirety and is provided with exhaustive commentaries and textual notes another pioneering feature of this book for this is the first English translation of a Jabirian text to emerge in print after a whole century An outstanding contribution is that it announces and presents an exciting textual discovery the author has found in the Stones a hitherto unknown Arabic translation of part of Aristotle's Categories Given that we have so far known of only one other and possibly later classical Arabic translation of the Greek text Haq's discovery gives this book an historical importance
