Quest For The Northeast Passage A Sea Adventure:

Quest for the Northeast Passage A. Richard Mansir, 1989 The Woodenboat , 1990 **Blackwood's Magazine** , 1925 **The Sea** Frederick Whympere, 1872 **Narrative of Discovery and Adventure in the Polar Seas and Regions** Sir John Leslie, Hugh Murray, Robert Jameson, 1845 **Narrative of Discovery and Adventure in the Polar Seas and Regions** John Leslie, 1845 **The Boundless Sea** David Abulafia, 2019 A sweeping history of the world through its oceans and seas and their interconnections **Vikings of the Pacific The Adventures of the Explorers who Came from the West, Eastward** Agnes Christina Laut, 2006-01-01 Peter the Great sends Bering on Two Voyages First to discover whether America and Asia are united Second to find what lies north of New Spain Terrible Hardships of Caravans crossing Siberia for Seven Thousand Miles Ships lost in the Mist Bering's Crew cast away on a Barren Isle We have become such slaves of shallow science in these days such firm believers in the fatalism which declares man the creature of circumstance that we have almost forgotten the supremest spectacle in life is when man becomes the Creator of Circumstance We forget that man can rise to be master of his destiny fighting unmaking re-creating not only his own environment but the environment of multitudinous lesser men There is something titanic in such lives They are the hero myths of every nation's legends We somehow feel that the man who flings off the handicaps of birth and station lifts the whole human race to a higher plane and has a bit of the God in him though the hero may have feet of clay and body of beast Such were the old Vikings of the North who spent their lives in elemental warfare and rode out to meet death in tempest lashed to the spar of their craft And such too were the New World Vikings of the Pacific who coasted the seas of two continents in cockle shell ships planks lashed with deer thongs calked with moss rapacious in their deep sea plunderings as beasts of prey fearless as the very spirit of the storm itself The adventures of the North Pacific Vikings read more like some old legend of the sea than sober truth and the wild strain had its fountain head in the most tempestuous hero and beastlike man that ever ascended the throne of the Russias When Peter the Great of Russia worked as a ship's carpenter at the docks of the East India Company in Amsterdam the sailors' tales of vast undiscovered lands beyond the seas of Japan must have acted on his imagination like a match to gunpowder Already he was dreaming those imperial conquests which Russia still dreams of pushing his realm to the southernmost edge of Europe to the easternmost verge of Asia to the doorway of the Arctic to the very threshold of the Chinese capital Already his Cossacks had scoured the two Siberias like birds of prey exacting tribute from the wandering tribes of Tartary of Kamchatka of the Pacific of the Siberian races in the northeasternmost corner of Asia And these Chukchee Indians of the Asiatic Pacific told the Russians of a land beyond the sea of driftwood floating across the ocean unlike any trees growing in Asia of dead whales washed ashore with the harpoons of strange hunters and most comical of all in the light of our modern knowledge about the Eskimo's tail shaped fur coats of men wrecked on the shores of Asia who might have qualified for Darwin's missing link inasmuch as they wore tails And now the sailors added yet more fabulous

things to Peter's knowledge There was an unknown continent east of Asia west of America called on the maps Gamaland Now Peter's consuming ambition was for new worlds to conquer What of this Gamaland But as the world knows Peter was called home to suppress an insurrection War domestic broils massacres that left a bloody stain on his glory busied his hands for the remaining years of his life and January of 1725 found the palaces of all the Russias hushed for the Hercules who had scrunched all opposition like a giant lay dying ashamed to consult a physician vanquished of his own vices calling on Heaven for pity with screams of pain that drove physicians and attendants from the room Perhaps remorse for those seven thousand wretches executed at one fell swoop after the revolt perhaps memories of those twenty kneeling supplicants whose heads he had struck off with his own hand drinking a bumper of quass to each stroke perhaps reproaches of the highway robbers whom he used to torture to slow death two hundred at a time by suspending them from hooks in their sides perhaps the first wife whom he repudiated the first son whom he had done to death either by poison or convulsions of fright came to haunt the darkness of his deathbed Catherine the peasant girl elevated to be empress of all the Russias could avail nothing Physicians and scientists and navigators Dane and English and Dutch whom he had brought to Russia from all parts of Europe were powerless Vows to Heaven in all the long hours he lay convulsed battling with Death were useless The sins of a lifetime could not be undone by the repentance of an hour Then as if the dauntless Spirit of the man must rise finally triumphant over Flesh the dying Hercules roused himself to one last supreme effort *THE SEA - Its Stirring Story of Adventure, Peril & Heroism* Frederick Whympers, 2022-01-04 The book *The Sea Its Stirring Story of Adventure Peril Heroism* is an exciting review of the history of sea travels from the earliest times to the XIX century It includes the first mentions of sea travel the history of shipbuilding mentions the greatest men who pursued geographical discoveries like Columbus and his contemporaries and the deeds of pirates like Sir Francis Drake The author revises the history of the most significant shipwrecks and concludes with poetry dedicated to sea and ship travel The author spent his life traveling on a steamship and collected numerous stories and illustrations of interesting distant places The book is the culmination of his lifetime interest in sea travel history and art

The Southern Colonies in the Seventeenth Century, 1607--1689 Wesley Frank Craven,2015-12-03 This book is Volume I of A HISTORY OF THE SOUTH a ten volume series designed to present a balanced history of all the complex aspects of the South s culture from 1607 to the present Like its companion volumes The Southern Colonies in the Seventeenth Century was written by an outstanding student of Southern history In the America of the sixteenth and seventeenth centuries just what was Southern The first colonists looked upon themselves as British and only gradually did those attitudes and traditions develop which were distinctively American To determine what was Southern in the early colonies Professor Craven has searched for those features of early American society which distinguished the South in later years and those features of early American history which help the Southerner to understand himself The Chesapeake colonies Virginia and Maryland formed the first Southern community These colonies grew out of the same interest which directed European imperialism toward Africa and the West Indies notably the production of sugar silk wine and tobacco Craven studies the social economic and political development of the Southern colonies as the product of continuing European rivalries that resulted in the colonization of Carolina and Florida Major emphasis however is placed upon British expansion since Anglo Saxon influence was dominant in the formation of the South as a region Craven sees as crucial the middle period of the seventeenth century Out of the political and social unrest which characterized these years emerged the points of view which gave shape to the American and the Southern tradition
