Kenny,2011-04-12 This encyclopedia provides detailed information about the historical cultural social religious economic and scientific significance of gold across the globe and throughout history Gold has been an intrinsic part of human culture and society throughout the world both in ancient times and in the modern era This precious metal has also played a central role in economics and politics throughout history In fact the value of gold remains a topic of debate amid the current upheavals of economic conditions and attendant reevaluations of modern financial principles Gold A Cultural Encyclopedia consists of more than 130 entries that encompass every aspect of gold ranging from the ancient metallurgical arts to contemporary economies The connections between these interdisciplinary subjects are explored and analyzed to highlight the many ways humankind s fascination with gold reflects historical cultural economic and geographic developments While the majority of the works related to gold focus on economic theory this text goes beyond that to take a more sociocultural approach to the subject

**Travels in the West** David Turnbull,1840 *The Cuba Review and Bulletin* ,1906 **Overland Monthly and The Out West Magazine** ,1929 *The History of the American West* Harry Montgomery, The early history of the American West

began with the quest for new territories by European powers Spanish explorers were among the first to push into the unknown lands driven by the desire for gold and religious expansion Their expeditions opened the doors for future exploration and set the stage for centuries of change These early journeys laid down rough maps and vague ideas of the land s potential As explorers moved westward they encountered a wide range of Native American tribes who had lived in these regions for thousands of years These first encounters varied greatly from moments of peaceful exchange to violent conflict The cultural differences between the Europeans and the tribes often led to misunderstandings Despite this trade and communication developed in many areas The land itself was a mystery filled with mountains deserts rivers and plains that no European had seen before Explorers had to navigate through harsh conditions with little knowledge or support Many expeditions failed or were forced to turn back Still the promise of new territory continued to attract more efforts Mapping the unknown became a major goal for explorers and governments As more ground was covered cartographers began drawing more accurate maps of the continent s interior These maps helped shape future journeys and were valuable tools for settlers and soldiers alike Every new trail marked progress toward claiming and controlling the land

A Book of Discovery  
Margaret Synge, 2024-11-24 A BOOK OF DISCOVERY The History of the World s Exploration From the Earliest Times to the Finding of the South Pole A LITTLE OLD WORLD No story is complete unless it begins at the very beginning But where is the beginning Where is the dawn of geography the knowledge of our earth What was it like before the first explorers made their way into distant lands Every day that passes we are gaining fresh knowledge of the dim and silent past Every day men are patiently digging in the old heaps that were once the sites of busy cities and as a result of their unwearying toil they are revealing to us the life stories of those who dwelt therein they are disclosing secrets writ on weather worn stones and tablets bricks and cylinders never before even guessed at Thus we read the wondrous story of ancient days and breathlessly wonder what marvellous discovery will thrill us next For the earliest account of the old world a world made up apparently of a little land and a little water we turn to an old papyrus the oldest in existence which tells us in familiar words unsurpassed for their exquisite poetry and wondrous simplicity of that great dateless time so full of mystery and awe In the beginning God created the heaven and the earth And the earth was waste and void and darkness was upon the face of the deep and the spirit of God moved upon the face of the waters And God said Let there be a firmament in the midst of the waters and let it divide the waters from the waters And God divided the waters which were under the firmament from the waters which were above the firmament And God said Let the waters under the heaven be gathered into one place and let the dry land appear And God called the dry land Earth and the gathering together of the waters called he Seas Thus beautifully did the children of men express their earliest idea of the world s distribution of land and water
