Cha, 2009 The Beijing Olympics will be remembered as the largest most expensive and most widely watched event of the modern Olympic era But did China present itself as a responsible host and an emergent international power much like Japan during the 1964 Tokyo Games and South Korea during the 1988 Seoul Games Or was Beijing in 2008 more like Berlin in 1936 when Germany took advantage of the global spotlight to promote its political ideology at home and abroad Beyond the Final Score takes an original look at the 2008 Beijing games within the context of the politics of sport in Asia Asian athletics are bound up with notions of national identity and nationalism refracting political intent and the processes of globalization For China the Beijing Games introduced a liberalizing ethos that its authoritative regime could ignore only at its peril Victor D Cha former director of Asian affairs for the White House evaluates Beijing s contention with this pressure considering the intense scrutiny China already faced on issues of counterproliferation global warming and free trade **Daya Krishna and Twentieth-Century Indian**

Gómez, 2000 Until World War II the Four Corners Region where New Mexico Colorado Utah and Arizona meet was a collection of isolated rural towns In the postwar baby boom era however small communities like Farmington New Mexico became bustling municipalities with rapidly expanding economies In Quest for the Golden Circle Arthur Gomez traces the development of the Four Corners two industries mining and tourism to discover how each contributed to the economic and urban transformation of this region during the 1950s and 1960s Focusing on four cities Durango Colorado Moab Utah Flagstaff Arizona and Farmington New Mexico Gomez chronicles how these towns played key roles in the West s dramatic postwar expansion Cities such as Denver Albuquerque Phoenix Tucson El Paso and Salt Lake City all grew through use of the abundant petroleum uranium natural gas timber and other natural resources extracted from the Four Corners region But the energy boom in these towns was not to last With the arrival of foreign oil bringing economic growth to a halt in the early 1970s town leaders turned again to the land to stimulate their economy This time the resource was a seemingly inexhaustible one tourism Gomez examines how business minded

citizens marketed the area's scenic wonders and established the entire region as a tourist destination. Their efforts were further assisted by the selection of stunning federal lands, Mesa Verde Grand Canyon and Arches National Parks, as treasures protected and promoted by the National Park Service. Both mining and tourism, however, were beset by complex new problems and issues. Extensive highways, for instance, were planned to bisect a Navajo reservation. As Gomez illustrates, the growing cities in the Four Corners region felt tremendous competing pressures between outside business powers and local needs as their extractive economy boomed and busted and as they then struggled to attract tourism dollars. In addition, he highlights the prominent roles played by federal agencies like the Atomic Energy Commission and the National Park Service in shaping regional destiny. An outstanding analysis of the complexities of postwar development, *Quest for the Golden Circle* successfully illuminates the history of one region within the larger story of the modern American West.

Quest for Decisive Victory Robert Michael Citino, 2002 Since the earliest days of warfare, military operations have followed a predictable formula: after a decisive battle, an army must pursue the enemy and destroy its organization in order to achieve a victorious campaign. But by the mid-19th century, the emergence of massive armies and advanced weaponry and the concomitant decline in the effectiveness of cavalry had diminished the practicality of pursuit, producing campaigns that bogged down short of decisive victory. Great battles had become curiously indecisive; decisive campaigns virtually impossible.

model Jeffery Lefebvre attempts to explain what the United States has paid for its relations with two weak and vulnerable arms recipients in the Horn of Africa Through massive documentation and extensive interviewing Lefebvre sorts through the confusions and shifts of the United States post World War II relations with Ethiopia and Somalia two primary antagonists in the Horn of Africa He consulted State Department Pentagon and AID officials congressional staffers current and former ambassadors and Ethiopian and Somali government advisers The story of U S arms transfers to northeast Africa is tangled and complex In 1953 1960 and 1964 66 the United States entered into various arms provision deals with Ethiopia spurred by the Soviet sponsored buildup in the region Policy changed in the 1970s Nixon refused a large aid request in 1973 and in 1977 Carter ended Ethiopia s military aid on human rights grounds and denied aid to Somalia during the 1977 78 Ogaden War Reversing this policy the Reagan administration extended military aid to Somalia despite its aggressive moves against Ethiopia Changes in U S relations and the revolution in Somalia have altered the picture once more Jeffery Lefebvre concludes that U S diplomacy in northeast Africa has been overly influenced by a cold war mentality In their obsession with countering Soviet pressure in the Third World Washington decision makers exposed U S interests to unnecessary risks and given far too much for value received during four decades of vacillating and misguided foreign policy Arms for the Horn should interest all concerned with arms transfer issues and security studies as well as specialist in Africa and the Middle East
