## Quest For Common Learning:

**A Quest for Common Learning** Ernest L. Boyer, Arthur Levine, 1988      **A Quest for Common Learning**, 1983      **A quest for common learning** Ernest L. Boyer, Arthur Levine, 1986      In Search of Deeper Learning Jal Mehta, Sarah Fine, 2019-04-22 The best book on high school dynamics I have ever read Jay Mathews Washington Post An award winning professor and an accomplished educator take us beyond the hype of reform and inside some of America's most innovative classrooms to show what is working and what isn't in our schools What would it take to transform industrial era schools into modern organizations capable of supporting deep learning for all Jal Mehta and Sarah Fine's quest to answer this question took them inside some of America's most innovative schools and classrooms places where educators are rethinking both what and how students should learn The story they tell is alternately discouraging and hopeful Drawing on hundreds of hours of observations and interviews at thirty different schools Mehta and Fine reveal that deeper learning is more often the exception than the rule And yet they find pockets of powerful learning at almost every school often in electives and extracurriculars as well as in a few mold breaking academic courses These spaces achieve depth the authors argue because they emphasize purpose and choice cultivate community and draw on powerful traditions of apprenticeship These outliers suggest that it is difficult but possible for schools and classrooms to achieve the integrations that support deep learning rigor with joy precision with play mastery with identity and creativity This boldly humanistic book offers a rich account of what education can be The first panoramic study of American public high schools since the 1980s In Search of Deeper Learning lays out a new vision for American education one that will set the agenda for schools of the future      Common Sense, the Turing Test, and the Quest for Real AI Hector J. Levesque, 2017 What kind of AI The big puzzle Knowledge and behavior Making it and faking it Learning with and without experience Book smarts and street smarts The long tail and the limits to training Symbols and symbol processing Knowledge based systems AI technology      Identity Excellence Perry L. Glanzer, 2022-07-18 While pursuing agreement in a pluralistic society American higher education has reduced the human identities necessary for the moral formation it inherently provides Consequently it fails to supply moral expertise for living the good life Identity Excellence addresses this problem by proposing an interdisciplinary theory of identity excellence

**Integrated General Education** Catherine M. Wehlburg, 2010-04-19 General education has been an essential part of American higher education for a long time Unfortunately it is often seen as something to get out of the way so that the student can go on to take the more important courses within a chosen major This volume changes that perception Topics discussed include Integrated General Education A Brief Look Back Why are Outcomes So Difficult to Achieve Making General Education Matter Structures and Strategies Unifying the Undergraduate Curriculum Through Inquiry Guided Learning University of the Pacific's Bookend Seminars on a Good Society Core Curriculum Revision at TCU How Faculty Created and Are Maintaining the TCU Core Curriculum Creating an Integrative General Education The Bates Experience Building an

Integrated Student Learning Outcomes Assessment for General Education Three Case Studies Meaningful General Education Assessment That is Integrated and Transformative Institutions of higher education have a responsibility to develop a meaningful general education curriculum that cultivates qualities of thinking communication and problem solving to name a few of the general education goals that many institutions share What is missing from many institutions though is the concept of integrating general education with the overall educational curriculum If this is done general education courses are no longer something to take quickly so they can be checked off instead they become part of the educational development of the student This integration benefits the student certainly but also the larger society baccalaureate graduates steeped in the liberal arts will become future leaders Having been prepared with a broad knowledge base our current students will be able to think more critically and make good use of information to solve problems that have not yet even been identified This is the 121st volume of the Jossey Bass higher education quarterly report series New Directions for Teaching and Learning which offers a comprehensive range of ideas and techniques for improving college teaching based on the experience of seasoned instructors and the latest findings of educational and psychological researchers

**General Education and the Development of Global Citizenship in Hong Kong, Taiwan and Mainland China** Jun Xing, 2013 General Education has taken center stage in the greater China area Hong Kong Taiwan and mainland China because of a number of important developments First globalization has created both opportunities and challenges for college students When they graduate and enter the real world they must have the cultural sensitivities and social skills in addition to their professional training to compete in a knowledge based global economy Equally significant for institutions of higher education pressing global problems challenge traditional disciplines and demand new forms of learning that reshapes the boundaries of knowledge In response to those rapidly changing dynamics general education has taken an increasingly important role in undergraduate education As the first English publication on the subject this anthology brings together a distinguished group of General Education scholars and teachers from Hong Kong Taiwan and mainland China

The Quest for Security Joseph Stiglitz, Mary Kaldor, 2013-04-30 Some have suggested that the turmoil in the eurozone proves the deficiencies in the welfare state This book argues that the superior performance of the Scandinavian countries arises from their superior systems of social protection which allow their citizens to undertake greater risk and

more actively participate in globalization Others suggest that we can address terrorism or transnational crimes through the strengthening of borders or long distance wars This book develops the proposition that such approaches have the opposite effect and that only through spreading the kind of human security experienced in well ordered societies can these dangers be managed This book also examines how these global changes play out not only in the relations among countries and the management of globalization but at every level of our society *Strategic Curriculum Change* Paul Blackmore, Camille Kandiko, 2012 First Published in 2012 Routledge is an imprint of Taylor Francis an informa company **General Education in the Social Sciences** John J. MacAloon, 1992-06 Higher education s most vibrant and contentious issues common and specialized learning in the curriculum conceptions of general and liberal education the design of common core sequences the merits of classic texts and contemporary research Western and non Western course materials the place of undergraduate teaching in scholarly careers have for decades been debated by the faculty of the College of the University of Chicago At the College they have become embodied in educational programs of sufficient historical depth to reveal patterns of intellectual and pedagogical continuity amidst changing social and institutional circumstances Social Science 2 holds the place of honor among these educational projects For more than half a century Soc 2 has been one of the most influential courses in American undergraduate education This unique year long course the oldest and most distinguished of its kind at any American university has served as an ongoing experiment in how the social sciences can be taught and learned in the general education context In this collection John MacAloon has gathered essays by fourteen eminent social scientists such as David Riesman Michael Schudson and F Champion Ward who as either teachers or students were profoundly shaped by Soc 2 Their multifarious and selective memories full of dissonances and harmonies of recollection judgment and voice create a compelling biography of a course and a college that have survived tumultuous change through sustained and committed argument This book will be of great interest to anyone interested not only in the theory but the practice of higher education

**Realizing General Education: Reconsidering Conceptions and Renewing Practice** Cynthia A. Wells, 2016-01-11 General education is widely touted as an enduring distinctive of higher education but what do we actually mean by general education Differing perspectives not only make it challenging to consider its significance but also open it up to a wide range of determinations regarding its effectiveness This volume aims to sharpen understanding of the complex picture of general education by describing how various conceptions of general education evolved historically identifying various functions expected of general education in the contemporary context and pointing out the educational practices that fulfill general education s aims in the current context The conceptions of and aspirations for general education are consequential This volume disentangles the divergent conceptions that hinder its renewal and considers the range of avenues for realizing its effectiveness This is the second issue of the 42nd volume of the Jossey Bass series ASHE Higher Education Report Each monograph is the definitive analysis of a tough higher education issue based on thorough research of pertinent literature and

institutional experiences Topics are identified by a national survey Noted practitioners and scholars are then commissioned to write the reports with experts providing critical reviews of each manuscript before publication *Bold Moves for Schools* Heidi Hayes Jacobs, Marie Hubley Alcock, 2017-03-10 What will it take to create truly contemporary learning environments that meet the demands of 21st century society engage learners and produce graduates who are prepared to succeed in the world What skills and capacities do teachers and leaders need to create and sustain such schools What actions are necessary Bold Moves for Schools offers a compelling vision that answers these questions and action steps to make the vision a reality Looking through the lenses of three pedagogies antiquated classical and contemporary authors Heidi Hayes Jacobs and Marie Hubley Alcock examine every aspect of K 12 education including curriculum instruction assessment and the program structures of space both physical and virtual time and grouping of learners and professionals In a new job description for teachers Jacobs and Alcock highlight and expound on the following roles self navigating professional learner social contractor media critic and media maker innovative designer globally connected citizen and advocate for learners and learning With thought provoking proposals and practical strategies for change Bold Moves for Schools sets educators on the path to redefining their profession and creating exciting new learning environments The challenge is unprecedented The possibilities are unlimited Campus Life Carnegie Foundation for the Advancement of Teaching, 2019-06-18 In 1990 the Carnegie Foundation for the Advancement of Teaching published a classic report on the loss of a meaningful basis for true community on college campuses and in the nation Now this expanded edition of Campus Life reintroduces educational leaders to the report s proposals while offering up to date analysis and recommendations for Christian campuses today **Crisis in the Academy** Christopher J. Lucas, 1998-03-15 Not since student turmoil and unrest wreaked havoc on the nation s campuses three decades ago has American higher education been the subject of so much controversy and popular criticism Countless indictments compete for the public s attention as critics explore vital issues confronting today s institutions of higher learning curricular fragmentation declining academic standards the apparent erosion of liberal learning within academe widespread neglect of undergraduate education in favour of academic research and unprecedented financial woes Confusion over fundamental priorities and purposes the author argues lies at the heart of the dilemma facing end of the century higher education Thoughtful and timely Crisis in the Academy offers a wide ranging analysis of contemporary higher education while making an important contribution to the ongoing public debate over the future of America s beleaguered and diverse institutions of higher learning **Great Books, Honors Programs, and Hidden Origins** William Haarlow, 2003-12-16 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company Learning from Change Deborah DeZure, 2023-07-03 Since its inception in 1969 Change magazine has been the bellwether of higher education It has framed the key issues confronting the academy attracted the best minds and shaped the debate In this important collection Deborah DeZure and a panel of contributing editors have selected landmark articles on teaching and learning in higher education

published in *Change* from its launch to the present Through the articles and incisive commentaries we follow the controversies witness the reception of innovations and trace the threads of continuity of the past thirty years What emerges is both an indispensable set of perspectives and a rich resource of models and ideas The book spans a period that began in the turmoil of student unrest in the 60s and concludes at the close of 1999 with higher education grappling with the issues of purpose accountability technology and changing demographics What is striking about these articles is the vitality and relevance of the voices from the past They offer valuable insights and inspiration as we plan for the future and consider how to foster effective teaching and learning environments Organized by topic the articles in each section are introduced by a recognized authority in the field Deborah DeZure's Introduction and Conclusion offer both the context and an analysis of trends Learning from *Change* constitutes both fascinating reading and an important compass for administrators in higher education directors of faculty development and deans department chairs and faculty engaged in leadership roles in the academy It is an invaluable introduction and survey for anyone who wants to familiarize him or herself with the issues and trends

*Ernest L. Boyer* Todd C. Ream, John M. Braxton, 2015-03-17 Assesses the challenges plaguing our higher education system through selections of Ernest L Boyer's writings Having served as chancellor of the State University of New York the United States commissioner of education and president of the Carnegie Foundation for the Advancement of Teaching Ernest L Boyer 1928 1995 was one of the most prominent leaders in the history of American higher education Arguably more aware of the challenges facing colleges and universities than any of his peers the administrative decisions and the writings he left behind provide a wealth of possibilities for subsequent generations of administrators and faculty members In this book noted higher education scholars examine some of the most pressing crises in higher education today pairing their thoughts with relevant selections from Boyer's important writings some published here for the first time The volume provides answers to questions perceived to be plaguing academe while reintroducing readers to the optimistic and insightful wisdom of Ernest L Boyer Such a marvelous tribute to Ernest Boyer is richly deserved and a long time coming I can think of no one more instrumental in the advancement of education in our era and the State University of New York was profoundly shaped by his leadership This volume and its lessons will go a long way toward guiding and inspiring generations of teachers and administrators Nancy L Zimpher Chancellor The State University of New York *Resources in Education* ,1999-10
