Japh and Jool are film extras who with the help of a couple of very gutsy women survived being anonymous players in a live action film in which getting killed on screen meant getting killed for real. Surviving the shoot made them rich enough to escape the post apocalyptic Hell that L A has become. But their survival was not what Panoply Studios CEO Val Margolian had in mind especially since it cost his company millions. Now he's taking his revenge. After several plainclothes police are found dead in the former extras' new home, the bucolic peaceful town of Sunrise, California, the entire town is subjected to Margolian's invidious plan to punish the entire town and make a fortune doing it. Margolian has created toxic, murderous, wasp-like mechanical creatures to set upon the people of Sunrise while his film crew captures the carnage in what promises to be the bloodiest live action film yet. With their haven from L A besieged by the deadly assault, the former extras and their fellow townspeople are faced with a grim task to defeat the creatures and take back their town and their freedom from publisher's web site *Against the New Gods and Other Essays on Writers of Imaginative Fiction* Brian

Stableford, 2009-10-01. Eight highly readable essays on science fiction and fantasy writers including David Brin, Jonathan Carroll, Samuel R Delany, Joe Haldeman, Robert Irwin, Graham Joyce, Michael Shea, plus a major piece **The Extra** Michael Shea, 2010-02-02. Books and films have skewered Hollywood's excesses but none has ever portrayed one man's crazy vision of the future of big action adventure films as Michael Shea's *The Extra* does. As over the top as Mel Brooks's *Blazing Saddles* as savagely dark as Robert Altman's *The Player* and more violent than *Rollerball*, this is the story of the ultimate, so insane it could only happen in Hollywood formula for success: a brave new way to bring the ultimate in excitement to the silver screen. Producer Val Margolian has found the motherlode of box office gold with his new live death films whose villains are extremely sophisticated electronically controlled mechanical monsters. To give these live action disaster films greater realism he employs huge casts of extras in addition to the stars. The large number of extras is important because very few of them will survive the shoot. It's all perfectly legal with training for the extras and long detailed contracts indemnifying the film company against liability for the extras' injury or death. But why would anyone be crazy enough to risk his or her life to be an extra in such a potentially deadly situation? The extras do it because if they survive they'll be paid handsomely and they can make even more if they destroy any of the animatronic monsters trying to stomp, chew, fry or otherwise kill them. If they earn enough they can move out of the Zoo, the vast slum that most of L A has become. They're fighting for a chance at a reasonable life. But first they have to survive. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. *Polyphemus* Michael Shea, 2023-10-03. In *Polyphemus*, an exploration team on a desert planet encounters a terrifying alien monstrosity. *The Angel of Death* is the story of a serial killer hunting innocent women who turns out to be a visitor from another world. In the blackly humorous horror story *Uncle Tuggs*, a series of grisly and bizarre deaths may be connected to the mysterious disappearance of old Uncle Tuggs. *The Horror on the 33* tells of the strange and horrific

monster one man encounters on a city bus And the highlight of the collection the classic story The Autopsy which Algis Budrys called one of the most successful meldings of science fiction with horror that I have ever encountered and which was filmed for Guillermo Del Toro s Netflix series Cabinet of Curiosities tells of an aging pathologist called in to perform an autopsy but what he discovers during his examination is chilling and unthinkable Michael Shea 1946 2014 was one of the finest American authors of speculative fiction of modern times and Polyphemus 1987 originally published as a limited edition hardcover by Arkham House features the best of his short fiction in which he deftly blends the genres of horror fantasy and science fiction A landmark collection of modern speculative fiction returns to print at long last in this edition which features a new introduction by Laird Barron      **Encyclopedia of Fantasy and Horror Fiction** Don D'Amassa, 2015-04-22 Presents articles on the horror and fantasy genres of fiction including authors themes significant works and awards      **The Moon Moth** Jack Vance, 2012-05-22 Edwer Thissell is having trouble adjusting to life on the planet Sirene The Sirenese all wear masks to indicate their social status They also communicate by playing instruments that are carefully selected for any social situation To make matters worse errors of musical etiquette often prove fatal Shortly after Thissell arrives on Sirene he finds himself embroiled in an unsolved murder made all the more mysterious by the fact that since everyone must always wear a mask you can never be sure who you are dealing with      Future and Fantastic Worlds Sheldon Jaffery, 1987-01-01 Future and Fantastic Worlds embodies an unusual approach to the field of bibliographic research including over 700 annotations of every DAW book published through mid 1987 with indexes by author artist and title providing a massive guide to modern SF writers and their works with much background data Interspersed throughout the book are numerous wry irreverent and amusing observations offered by the late and highly respected researcher in this extremely valuable genre tool
