Question Of God

Question Of God:

The Question of God Michael Palmer, 2001 This invaluable text introduces the six great arguments for the existence of God It requires no specialist knowledge of philosophy and includes a wealth of primary sources from classic and contemporary texts

Questions God Asks Us Trevor Hudson, 2010-12-15 Instead of always looking for answers in the Bible Trevor Hudson suggests that we start thinking more carefully about the questions that God asks God desires a conversational relationship with us and He shows this desire by asking questions God also gives greater dignity to us by allowing us to wrestle with the questions rather than if we are simply given answers Questions God Asks Us presents ten questions five from the Old and five from the New Testament which God had asked and is still asking us as well They include Where Are You Where Is Your Brother What Are You Doing Here Who Do You Say I Am Do You Want to Get Well Why Are You Crying There is a much greater power to transform us in a question than there is in a straightforward answer each chapter includes a section with practical suggestions to answer God's question and discover this for yourself It also includes discussion questions for study groups Questions God Asks Us is bound in a handy gift format with beautiful full colour images printed on gloss art paper

The God Confusion Gary Cox, 2013-09-12 What is God Does he exist Can we know The God Confusion offers a down to earth beginner's guide for anyone interested in these questions It does not evangelize for God and religion or indeed for atheism secularism and science Instead it explores in a witty yet objective and balanced way the idea of God and the strengths and weaknesses of the standard arguments for his existence Gary Cox shows that the philosophical reasoning at the heart of these arguments is logically incapable of moving beyond speculation to any kind of proof The only credible philosophical position is therefore agnosticism The God Confusion defends science generally and the theory of evolution in particular It argues that if religion is not to appear increasingly outdated and ridiculous in the eyes of free thinking educated people it must accommodate science and accept that science has replaced the old God of the gaps as an explanation of natural phenomena Concluding that God may or may not exist on the grounds that science philosophy and theology are inherently incapable of proving or disproving his existence The God Confusion acknowledges that religious faith based on a deliberate commitment to live as though there is a moral God is a coherent notion and a worthwhile even prudent enterprise At the same time it rejects the idea of inner certainty as mere wishful thinking arguing that it is not a coherent basis for belief and is simply bad faith
