## **Question Of Numbers High Migration Low Fertility And The Politics Of National Identity Since 196:**

*Handbook on Migration and Security* Philippe Bourbeau, 2017-04-28 This Handbook provides a state of the art analysis of the critically important links between migration and security in a globalising world and presents original contributions suggesting innovative and emerging frontiers in the study of the securitization of migration Experts from different fields reflect on their respective conceptualisations of the migration security nexus and consider how an interdisciplinary and multifaceted dialogue can stimulate and enrich our understanding of the securitisation of migration in the contemporary world The Social Contract, 1999 **World Migration Report 2000** International Organization for Migration, United Nations, 2000-01 The purpose of the World Migration Report is to provide an authoritative account of contemporary trends issues and problems in the field of international migration The book is divided into two parts The first examines the scale of migration and characteristics of international migrants the types of movements now underway the factors that contribute to migration the global context in which these movements occur and the policy issues associated with these trends The second part reviews migration trends and recent policy developments in major migration regions of the world In nine separate regional chapters trends in immigration and emigration are examined along with such key issues as the integration of migrants the consequences of irregular migration and the extent of interregional cooperation between states **Global Political Demography** Achim Goerres, Pieter Vanhuysse, 2021-08-10 This open access book draws the big picture of how population change interplays with politics across the world from 1990 to 2040 Leading social scientists from a wide range of disciplines discuss for the first time all major political and policy aspects of population change as they play out differently in each major world region North and South America Sub Saharan Africa and the MENA region Western and East Central Europe Russia Belarus and Ukraine East Asia Southeast Asia subcontinental India Pakistan and Bangladesh Australia and New Zealand These macro regional analyses are completed by cross cutting global analyses of migration religion and poverty and age profiles and intra state conflicts From all angles this book shows how strongly contextualized the political management and the political consequences of population change are While long term population ageing and short term migration fluctuations present structural conditions political actors play a key role in mis managing manipulating and under planning population change which in turn determines how citizens in different groups react *Statistics and Reality* Heinz Fassmann, Ursula Reeger, Wiebke Sievers, 2009 Worldwide harmonisation of migration statistics is something international bodies dream of And yet attempts by organisations needing comparative data have not proven very successful thus far More than just problematising the incomparability of migrati **Sociological Abstracts** Leo P. Chall, 2004 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers **The Emigrant**

**Communities of Latvia** Rita Kaša,Inta Mieriņa,2019-05-08 This open access volume examines experiences of contemporary Latvian migrants thereby focusing on reasons for emigration processes of integration in their host countries and in the case of return migration re integration in their home country In the context of European migration the book describes the case of Latvia which is interesting due to the multiple waves of excessive emigration continuously high migration potential among European Union member states and diverse migrant characteristics It provides a fascinating insight into the social and psychological aspects linked to migration in a comparative context The data in this volume is rich in providing individual level perspectives of contemporary Latvian migrants by addressing issues such as emigrants economic social and cultural inclusion in the host country ties with the home country and culture interaction with public authorities both in the host and home country political views and perspectives on the permanent settlement in migration or return Through topics such as assimilation of children relationships between emigrants representing different emigration waves the complex identities and attachments of minority emigrants and the role of culture and media in identity formation and presentation this book addresses topics that any contemporary emigrant community is faced with

**The Economic and Fiscal Consequences of Immigration** National Academies of Sciences, Engineering, and Medicine,Division of Behavioral and Social Sciences and Education,Committee on National Statistics,Panel on the Economic and Fiscal Consequences of Immigration,2017-07-13 The Economic and Fiscal Consequences of Immigration finds that the long term impact of immigration on the wages and employment of native born workers overall is very small and that any negative impacts are most likely to be found for prior immigrants or native born high school dropouts First generation immigrants are more costly to governments than are the native born but the second generation are among the strongest fiscal and economic contributors in the U S This report concludes that immigration has an overall positive impact on long run economic growth in the U S More than 40 million people living in the United States were born in other countries and almost an equal number have at least one foreign born parent Together the first generation foreign born and second generation children of the foreign born comprise almost one in four Americans It comes as little surprise then that many U S residents view immigration as a major policy issue facing the nation Not only does immigration affect the environment in which everyone lives learns and works but it also interacts with nearly every policy area of concern from jobs and the economy education and health care to federal state and local government budgets The changing patterns of immigration and the evolving consequences for American society institutions and the economy continue to fuel public policy debate that plays out at the national state and local levels The Economic and Fiscal Consequences of Immigration assesses the impact of dynamic immigration processes on economic and fiscal outcomes for the United States a major destination of world population movements This report will be a fundamental resource for policy makers and law makers at the federal state and

local levels but extends to the general public nongovernmental organizations the business community educational institutions and the research community

**The Age of Migration** Hein de Haas, Stephen Castles, Mark J. Miller, 2019-11-21 Long established as the leading textbook on migration and used by students and scholars alike all over the world this fully revised and updated sixth edition continues to offer an authoritative and cutting edge account of migration flows why they occur and their consequences for both origin and destination societies International migration is one of the most emotive issues of our times reforging societies around the world and shaping debates on security national identity and sovereignty in profound ways The expert authors of this book provide a truly global and interdisciplinary introduction to this perennially important topic with chapters covering all of the world's regions and spanning the nineteenth century to the present day Exploring the significance of migration in relation to recent events and emerging trends from the policies of the European Union to the Great Recession this text helps to shed light on the often large gap between the rhetoric and realities of migration For students of migration studies in disciplines as wide ranging as politics sociology geography area studies anthropology and history this is an indispensable guide whether already familiar with the subject matter or approaching the topic for the first time New to this Edition Charts the contemporary politics of migration including the latest statistical data summary of policy developments and shifts toward anti immigrant politics and Islamophobia A brand new chapter on Categories of Migration used to describe migrants and analyse migration including a discussion on the topical issue of climate refugees Extended discussion of the impacts of migration and development in origin countries in a new separate chapter at the end of the book Improved coverage of migration trends in the former Soviet Union and Eastern Europe and Central Asia Offers a better balance between Western and non Western regions and perspectives on migration Draws on up to date global data on migration and migration policies A Migration Policy Toolbox providing a comprehensive overview of different types of migration policies A new glossary with definitions of key terms in migration which are also highlighted throughout the text The Age of Migration is published by Bloomsbury Academic In the United States and its dependencies Canada Mexico and the Philippines it is distributed under licence by Guildford Press [https://www.guilford.com/books/The\\_Age\\_of\\_Migration/Castles\\_Haas\\_Miller/9781462513116](https://www.guilford.com/books/The_Age_of_Migration/Castles_Haas_Miller/9781462513116)

**Whiteshift** Eric Kaufmann, 2019-02-05 This ambitious and provocative work delves into white anxiety about the demographic decline of white populations in Western nations Publishers Weekly Whiteshift is defined as the turbulent journey from a world of racially homogeneous white majorities to one of racially hybrid majorities In this data driven study political scientist Eric Kaufmann explores how these demographic changes across Western societies are transforming their politics The early stages of this transformation have led to a populist disruption tearing a path through the usual politics of left and right If we want to avoid more radical political divisions Kaufmann argues we have to enable white conservatives as well as cosmopolitans to view whiteshift as a positive development Kaufmann examines the evidence to explore ethnic change in North American and Western Europe Tracing four ways of dealing with this transformation fight

repress flight and join he makes a persuasive call to move beyond empty talk about national identity Deeply thought provoking enriched with illustrative stories and drawing on detailed and extraordinary survey demographic and electoral data Whiteshift will redefine the way we discuss race in the twenty first century **U.S. Immigration Policy Council on Foreign Relations. Independent Task Force on U.S. Immigration Policy, Jeb Bush, Thomas F. McLarty, Edward H. Alden, 2009** Few issues on the American political agenda are more complex or divisive than immigration There is no shortage of problems with current policies and practices from the difficulties and delays that confront many legal immigrants to the large number of illegal immigrants living in the country Moreover few issues touch as many areas of U S domestic life and foreign policy Immigration is a matter of homeland security and international competitiveness as well as a deeply human issue central to the lives of millions of individuals and families It cuts to the heart of questions of citizenship and American identity and plays a large role in shaping both America s reality and its image in the world Immigration s emergence as a foreign policy issue coincides with the increasing reach of globalization Not only must countries today compete to attract and retain talented people from around the world but the view of the United States as a place of unparalleled openness and opportunity is also crucial to the maintenance of American leadership There is a consensus that current policy is not serving the United States well on any of these fronts Yet agreement on reform has proved elusive The goal of the Independent Task Force on U S Immigration Policy was to examine this complex issue and craft a nuanced strategy for reforming immigration policies and practices Multiculturalism and Integration Michael Clyne, James Jupp, 2011-07-01 Multiculturalism has been the official policy of all Australian governments Commonwealth and State since the 1970s It has recently been criticised both in Australia and elsewhere Integration has been suggested as a better term and policy Critics suggest it is a reversion to assimilation However integration has not been rigorously defined and may simply be another form of multiculturalism which the authors believe to have been vital in sustaining social harmony Migration from the Middle East and North Africa to Europe Michael Bommers, Wiebke Sievers, Heinz Fassmann, 2014-08-05 One of the most important challenges concerning the future of the European Union is the demographic reproduction of the European population Decreasing birth rates and the retirement of the baby boomers will dramatically reduce the labour force in the EU which will entail not only a lack of manpower but also lower contributions to European social systems It seems clear that the EU will have to counterbalance this population decrease by immigration in the coming years Migration Between the Middle East North Africa and Europe takes this challenge as a point of departure for analysing the MENA region in particular Morocco Egypt and Turkey as a possible source of future migration to the European Union At the same time it illustrates the uncertainties implied in such calculations especially at a time of radical political changes such as those brought about by the Arab Uprising Europe and Its Immigrants in the 21st Century Demetrios G. Papademetriou, 2006 European policymakers are attempting to develop immigration policies that meet economic needs and promote greater competitiveness and growth without undermining the

social models so valued by their electorates To succeed they must take into account aging populations high and persistent levels of overall unemployment even higher levels of unemployment among immigrants and ethnic minorities and sector and location specific labor mismatches and shortfalls Europe and Its Immigrants in the 21st Century examines many of the critical issues facing European economies and societies with regard to immigration The authors juxtapose these issues with those facing the traditional countries of immigration Australia Canada New Zealand and the United States and offers policy recommendations to address them Among other topics this book examines options for immigrant selection and managing all forms of migration better including irregular migration and offers recommendations for immigrant and minority integration policies at the EU national and local levels where most integration work takes place Contributors include Wolfgang Lutz Vienna Institute for Demography Klaus Zimmermann Institute for the Study of Labor DIW Berlin Louka Katseli OECD Grete Brochman Institute for Social Research University of Oslo Heaven Crawley AMRE Consulting Demetrios G Papademetriou Migration Policy Institute Sarah Spencer COMPAS University of Oxford Brian Ray University of Ottawa Rinus Pennix University of Amsterdam Jorge Gaspar University of Lisbon Lucinda Fonseca Centro de Estudos Geograficos Kathleen Newland Migration Policy Institute Doris Meissner Migration Policy Institute T Alexander Aleinikoff Georgetown University Law Center and Patrick Weil CEPIC Centre d histoire sociale du 20e siecle

**Migration, Environment and Climate Change** Frank Laczko, Christine Aghazarm, 2009 Gradual and sudden environmental changes are resulting in substantial human movement and displacement and the scale of such flows both internal and cross border is expected to rise with unprecedented impacts on lives and livelihoods Despite the potential challenge there has been a lack of strategic thinking about this policy area partly due to a lack of data and empirical research on this topic Adequately planning for and managing environmentally induced migration will be critical for human security The papers in this volume were first presented at the Research Workshop on Migration and the Environment Developing a Global Research Agenda held in Munich Germany in April 2008 One of the key objectives on the Munich workshop was to address the need for more sound empirical research and identify priority areas of research for policy makers in the field of migration and the environment

*The Politics of Insecurity* Jef Huysmans, 2006-09-27 The act of violence of 9 11 changed the global security agenda catapulting terrorism to the top of the agenda Weapons of mass destruction grabbed public interest and controlling the free movement of people became a national security priority In this volume Jef Huysmans critically engages with theoretical developments in international relations and security studies to develop a conceptual framework for studying security He argues that security policies and responses do not appear out of the blue but are part of a continuous and gradual process pre structured by previous developments He examines this process of securitization and explores how an issue on the basis of the distribution and administration of fear becomes a security policy Huysmans then applies this theory to provide a detailed analysis of migration asylum and refuge in the European Union This theoretically sophisticated yet accessible volume makes an

important contribution to the study of security migration and European politics

**National Identity, Popular Culture and Everyday Life** Tim Edensor, 2020-06-15 The Millennium Dome Braveheart and Rolls Royce cars How do cultural icons reproduce and transform a sense of national identity How does national identity vary across time and space how is it contested and what has been the impact of globalization upon national identity and culture This book examines how national identity is represented performed spatialized and materialized through popular culture and in everyday life National identity is revealed to be inherent in the things we often take for granted from landscapes and eating habits to tourism cinema and music Our specific experience of car ownership and motoring can enhance a sense of belonging whilst Hollywood blockbusters and national exhibitions provide contexts for the ongoing and often contested process of national identity formation These and a wealth of other cultural forms and practices are explored with examples drawn from Scotland the UK as a whole India and Mauritius This book addresses the considerable neglect of popular cultures in recent studies of nationalism and contributes to debates on the relationship between high and low culture

**Crossing National Borders** □□ □□, Anna Vassilieva, 2005 International migration and other types of cross border movement of people are becoming an important part of international relations in Northeast Asia In this particular study experts on China Japan Korea Mongolia and Russia examine the political economic social and cultural dimensions of the interaction between border crossing individuals and host communities highlighting the challenges that face national and local leaders in each country and suggesting needed changes in national and international policies The authors analyze population trends and migration patterns in each country Chinese migration to the Russian Far East Chinese Koreans and Russians in Japan North Koreans in China and migration issues in South Korea and Mongolia The book introduces a wealth of empirical material and insight to both international migration studies and Northeast Asian area studies

*Global Trends* National Intelligence Council and Office, 2017-02-17 This edition of Global Trends revolves around a core argument about how the changing nature of power is increasing stress both within countries and between countries and bearing on vexing transnational issues The main section lays out the key trends explores their implications and offers up three scenarios to help readers imagine how different choices and developments could play out in very different ways over the next several decades Two annexes lay out more detail The first lays out five year forecasts for each region of the world The second provides more context on the key global trends in train
