Question De Lebenze:

The Origins of the Lebanese National Idea Carol Hakim, 2013-01-19 In this fascinating study Carol Hakim presents a new and original narrative on the origins of the Lebanese national idea Hakim's study reconsiders conventional accounts that locate the origins of Lebanese nationalism in a distant legendary past and then trace its evolution in a linear and gradual manner She argues that while some of the ideas and historical myths at the core of Lebanese nationalism appeared by the mid nineteenth century a coherent popular nationalist ideology and movement emerged only with the establishment of the Lebanese state in 1920 Hakim reconstructs the complex process that led to the appearance of fluid national ideals among members of the clerical and secular Lebanese elite and follows the fluctuations and variations of these ideals up until the establishment of a Lebanese state The book is an essential read for anyone interested in the evolution of nationalism in the Middle East and beyond

Haitian History Alyssa Goldstein Sepinwall, 2013 Despite Haiti's proximity to the United States and its considerable importance to our own history Haiti barely registered in the historic consciousness of most Americans until recently Those who struggled to understand Haiti's suffering in the earthquake of

2010 often spoke of it as the poorest country in the Western hemisphere but could not explain how it came to be so In recent years the amount of scholarship about the island has increased dramatically Whereas once this scholarship was focused on Haiti's political or military leaders now the historiography of Haiti features lively debates and different schools of thought Even as this body of knowledge has developed it has been hard for students to grasp its various strands Haitian History presents the best of the recent articles on Haitian history by both Haitian and foreign scholars moving from colonial Saint Domingue to the aftermath of the 2010 earthquake It will be the go to one volume introduction to the field of Haitian history helping to explain how the promise of the Haitian Revolution dissipated and presenting the major debates and questions in the field today **The Arab State and Neo-Liberal Globalization** Laura Guazzone, Daniela Pioppi, 2022-07-01 Now

available in paperback this collection of essays offers an alternative approach to the study of today's Arab states by focusing on their participation in neo liberal globalization rather than on authoritarianism or Islam The effects of the restructuring of traditional state power engendered by globalization are analyzed separately through updated empirical research into the political economic and security processes of each country considered Egypt Lebanon Morocco and Saudi Arabia are the case studies selected to represent different paths towards a shared model of a new Arab state which far from representing an exceptional case of resilience against global trends may be seen in many instances as typifying their effects The book offers both an overall conceptualization of change affecting the Arab states domestically and internationally and a series of in depth case studies by country and functional areas It is extremely timely when viewed within the context of the current political unrest and unprecedented change within the Middle East This paperback edition includes a new preface which links the author's research to the current Arab Spring crisis *Kindred Spirits* Brenna Moore, 2021-07-02 *Kindred Spirits* takes us

Unacknowledged Legislators Roger Pearson,2016-04-21 What is the public value of poetry How do poets envisage their own role and function within society How do we Do poets seek to shape public opinion and behaviour Should they Or do they offer alternatives perhaps sacred alternatives to political and religious ideologies Are they what Shelley in 1821 called the unacknowledged legislators of the World And what might that mean During the decades immediately preceding the Revolution of 1789 the status of contemporary poetry in France was at its lowest ebb At the same time the perceived power of the writer to influence public events reached a high water mark with Voltaire s triumphant return to Paris in 1778 In the course of the next century French poetry enjoyed an extraordinary renaissance and flowering perhaps its greatest But what of the poet s public influence In 1881 the people of Paris processed for six hours past the home of Victor Hugo on the occasion of his 79th birthday and in 1885 an estimated two million people witnessed his state funeral But who or what were they acknowledging Poetry or republicanism Or perhaps their own power For with each Revolution that passed 1789 1830 1848 French poets themselves felt increasingly marginalised This study addresses the first part of this story and focuses on the role and function of the poet during the so called Romantic Period Beginning with an account of the literary climate in pre revolutionary France it then maps the changes in that climate wrought by the events of the 1789 Revolution It describes the new politico literary agendas set by Chateaubriand and others on the monarchist Right and by Sta l and others on the liberal Left Against this background it then analyses in detail the poetic output and public exploits of the three major French poets of the period Lamartine Hugo and Vigny The Romantic figure of the poet as prophet and magus is habitually dismissed as a clich But by focusing on the role of the poet as lawgiver this book reveals the rich and complex terms in which the public function of poetry was debated in post revolutionary France and how amidst the centenary celebrations of 1889 as Romanticism gave way to Symbolism the poet as lawgiver continued to play a central part in that debate **The Arab**

Christ Mouchir Basile Aoun,2022-11-15 A reflection on Christianity in Arab society This work explores the Christian faith in the current intercultural context of Arab societies It argues that Arab Christianity seeks to express the Christian faith through openness to Muslim otherness existential conviviality and fraternal solidarity In order to safeguard not only the physical existence of these communities but also and above all the relevance and richness of their message of life the

theological reflection presented here takes on a three part task First it faithfully describes the sociopolitical and sociocultural reality of the historical integration of Arab Christian communities Second it reinterprets the content of the Christ event with reference to the challenge of Muslim otherness And finally it offers a path for conversion that involves a form not only of evangelical practice designed to foster bonds of fraternal solidarity between the inhabitants of the Arab world but also of shared spiritual quest for moral and political commitment

Stability and the Lebanese State in the 20th Century Tarek Abou Jaoude, 2022-08-25 Explaining state building failures in Lebanon during the 20th century this book looks at the relationship between legitimacy and stability in the country since the creation of the state in 1920 The presence of legitimacy is considered necessary to any successful state building endeavour This book argues that the Lebanese state failed to achieve any meaningful form of legitimacy from its inception in 1920 to its near collapse during the civil war However by analysing different eras of Lebanese history throughout the different presidential terms the author challenges the general understanding of stability and governance to show that the absence of legitimacy and society support actually contributed to the persistence of the Lebanese state More than this the evidence shows that Lebanese state was at its most stable when it was regarded as illegitimate The wider implicit question thus asked in the book revolves around a case where illegitimacy within the state is what ensures its stability and survival Based on primary sources including national archives and collections institutional documents personal memoirs newspapers and journals this book provides a rich survey on the development and functioning of Lebanese political institutions

Native Tongue, Stranger Talk Michelle Hartman, 2014-06-30 Can a reality lived in Arabic be expressed in French Can a French language literary work speak Arabic In *Native Tongue Stranger Talk* Hartman shows how Lebanese women authors use spoken Arabic to disrupt literary French with sometimes surprising results Challenging the common claim that these writers express a Francophile or colonized consciousness this book demonstrates how Lebanese women writers actively question the political and cultural meaning of writing in French in Lebanon Hartman argues that their innovative language inscribes messages about society into their novels by disrupting class status hierarchies narrow ethno religious identities and rigid gender roles Because the languages of these texts reflect the crucial issues of their times *Native Tongue Stranger Talk* guides the reader through three key periods of Lebanese history the French Mandate and Early Independence the Civil War and the postwar period Three novels are discussed in each time period exposing the contours of how the authors write Arabic in French to invent new literary languages
