Ordering Lives Ross Fergusson,Gordon Hughes,2000 Taking as its focus three familiar and profoundly influential social institutions the family work and welfare this accessible and exciting text looks at their role in maintaining social order and promoting social change in Britain from the 1950 s to the beginning of the twenty first century It shows how everyday life within these institutions is marked by the exercise of power and resistance and it charts the ways in which wider social change has affected these processes Ordering Lives Family Work and Welfare engages with some of the most pressing issues affecting our society in a lively yet academically rigorous manner At the same time it offers students of the social sciences a crucial first introduction to the way that theory is used in social science explanations of social relations and institutional arrangements This is a key introductory text for all students beginning study in sociology social policy or general social sciences Does it any longer make sense to talk about a welfare state in today s UK

Italians in Wales and their Cultural Representations, 1920s-2010s Bruna Chezzi,2015-11-25 Italian immigrants began to settle in Wales at the turn of the 19th century opening hundreds of coffee shops particularly in the South Wales Valleys Despite this such immigrants remain a largely unexplored case study in the history of Italian immigration to the UK This book uses a variety of unexplored sources and engages with the broader academic debate on migration identity and the trans generational transmission of memory to describe the emergence of Welsh Italian narratives and the formation of a distinctive yet complex Welsh Italian identity It

follows a chronological journey moving from the interwar period a time in which Italians in Wales were generally regarded as fully established and integrated through to the Second World War a time when Italian identity became problematic and resulted in nearly seventy years of silencing up until the first decade of the 21st century where a mixture of commemorative events and cultural initiatives prompted the emergence of Welsh Italian narratives The book begins by studying photographic representations of Italians in Wales during the interwar period using photographs available in local history books private collections and history books The analysis of the photographic material draws from the work of scholars such as Sontag Noble Hirsh and Bate on photo textual analysis to show how photographs can reveal understudied yet important aspects of Italian migrant identity and of the relationship with the host community in the period that preceded the Second World War The book then examines how the events of the Second World War destabilised the images of family sociability and integration suggested by these photographs and how such events aggravated tensions between host and migrant cultures It continues by investigating recent Welsh Italian texts where in revisiting the past and the experience of their ancestors the authors bring different circumstances and personal factors into play determining the degree to which they reconcile their dual identity It concludes with a comparison between these narratives of belonging and the representation of the Italian migrant experience in Anglo Welsh literature

Diversity's Promise for Higher Education Daryl G. Smith, 2015-06 Daryl G Smith's career has been devoted to studying and fostering diversity in higher education She has witnessed and encouraged the evolution of diversity from an issue addressed sporadically on college campuses to an imperative if institutions want to succeed In this second edition of Diversity's Promise for Higher Education Smith emphasizes a transdisciplinary approach to the topic of diversity drawing on an updated list of sources from a wealth of literatures and fields She claims with optimism when the conclusions from a wide variety of studies using different methodologies begin to converge we may apply the results with some confidence Smith responds to recent criticism of diversity efforts on campuses as a convoluted list of grievances without focus on the historic issue of inequity by making explicit the central relationship between diversity and equity To become more relevant to society the nation and the world while remaining true to their core mission higher education institutions must begin to see diversity as central to teaching and research She argues that institutions can pursue diversity efforts that are inclusive of the varied and growing issues apparent on campuses without losing focus This thoughtful volume draws on 50 years of diversity studies It offers students researchers and administrators an innovative approach to developing and instituting effective and sustainable diversity strategies
