Questions For The Soul An Introduction To Philosophy:

Questions for the Soul Keith W. Krasemann, 2000-03-01 Soul and Form Georg Lukács, 2010-01-12 György Lukács was a Hungarian Marxist philosopher, writer, and literary critic who shaped mainstream European Communist thought. *Soul and Form* was his first book, published in 1910, and it established his reputation treating questions of linguistic expressivity and literary style in the works of Plato, Kierkegaard, Novalis, Schlegel, and others. By isolating the formal techniques these thinkers developed, Lukács laid the groundwork for his later work in Marxist aesthetics, a field that introduced the historical and political implications of text. For this centennial edition, John T. Sanders and Katie Terezakis add a dialogue entitled *On Poverty of Spirit*, which Lukács wrote at the time of *Soul and Form*, and an introduction by Judith Butler which compares Lukács's key claims to his later work and subsequent movements in literary theory and criticism. In an afterword, Terezakis continues to trace the Lukácsian system within his writing and other fields. These essays explore problems of alienation and isolation and the curative quality of aesthetic form, which communicates both individuality and a shared human condition. They investigate the elements that give rise to form, the history that form implies, and the historicity that form embodies. Taken together, they showcase the breakdown in modern times of an objective aesthetics and the rise of a new art born from lived experience. *A Handbook to Questions for the Soul* Keith Krasemann, Thomas Kulanjiyil, 2015-03-30 **Questions on the Soul by John Buridan and Others** Gyula Klima, 2017-03-30 This volume features essays that explore the insights of the 14th-century Parisian nominalist philosopher John Buridan. It serves as a companion to the Latin text edition and annotated English translation of his question commentary on Aristotle's *On the Soul*. The contributors survey Buridan's work both in its own historical theoretical context and in relation to contemporary issues. The essays come in three main sections, which correspond to the three books of Buridan's *Questions*. Coverage first deals with the classification of the science of the soul within the system of Aristotelian sciences and surveys the main issues within it. The next section examines the metaphysics of the soul. It considers Buridan's peculiar version of Aristotelian hylomorphism in dealing with the problem of what kind of entity the soul, in particular the human soul, is and what powers and actions it has on the basis of which we can approach the question of its essence. The volume concludes with a look at Buridan's doctrine of the nature and functions of the human intellect. Coverage in this section includes the problem of self-knowledge in Buridan's theory, Buridan's answer to the traditional medieval problem concerning the primary object of the intellect, and his unique treatment of logical problems in psychological contexts. **The Soul of Nietzsche's Beyond Good and Evil** Maudemarie Clark, David Dudrick, 2012-07-09 This book presents a provocative new interpretation of *Beyond Good and Evil*, arguably Nietzsche's most important work. The problem is that it appears to express merely a loosely connected set of often questionable opinions. Can Nietzsche really be an important philosopher if this is his most important book? Maudemarie Clark and David Dudrick address this question with a close reading that emphasizes how Nietzsche writes. They argue that the first part of *Beyond Good and Evil* presents

coherent and interconnected arguments for subtle and well thought out positions on traditional issues Nietzsche's infamous doctrine of the will to power turns out to be a compelling account of the structure and origin of the human soul And although he rejects some aspects of traditional philosophy Nietzsche's aim is to show how philosophy's traditional aspirations to seek both the true and the good can be fulfilled Beyond Good and Evil turns out to be a major work of philosophy and Nietzsche's masterpiece
