Questions Of The Heart:

Heart: A History Sandeep Jauhar, 2018-09-18 The bestselling author of *Intern and Doctored* tells the story of the thing that makes us tick For centuries the human heart seemed beyond our understanding an inscrutable shuddering mass that was somehow the driver of emotion and the seat of the soul As the cardiologist and bestselling author Sandeep Jauhar shows in *Heart A History* it was only recently that we demolished age old taboos and devised the transformative procedures that have changed the way we live Deftly alternating between key historical episodes and his own work Jauhar tells the colorful and little known story of the doctors who risked their careers and the patients who risked their lives to know and heal our most vital organ He introduces us to Daniel Hale Williams the African American doctor who performed the world's first open heart surgery in Gilded Age Chicago We meet C Walton Lillehei who connected a patient's circulatory system to a healthy donor's paving the way for the heart lung machine And we encounter Wilson Greatbatch who saved millions by inventing the pacemaker by accident Jauhar deftly braids these tales of discovery hubris and sorrow with moving accounts of his family's history of heart ailments and the patients he's treated over many years He also confronts the limits of medical technology arguing that future progress will depend more on how we choose to live than on the devices we invent Affecting engaging and beautifully written *Heart A History* takes the full measure of the only organ that can move itself
