Questions Of Tradition

Questions Of Tradition:

Questions of Tradition Mark Salber Phillips, Mark Phillips, Gordon J. Schochet, 2004-01-01 Tradition is a central concern for a wide range of academic disciplines interested in problems of transmitting culture across generations Yet the concept itself has received remarkably little analysis A substantial literature has grown up around the notion of invented tradition but no clear concept of tradition is to be found in these writings since the very notion of invented tradition presupposes a prior concept of tradition and is empty without one this debunking usage has done as much to obscure the idea as to clarify it In the absence of a shared concept the various disciplines have created their own vocabularies to address the subject Useful as they are these specialized vocabularies of which the best known include hybridity canonicity diaspora paradigm and contact zones separate the disciplines and therefore necessarily create only a collection of parochial and disjointed approaches Until now there has been no concerted attempt to put the various disciplines in conversation with one another around the problem of tradition Combining discussions of the idea of tradition by major scholars from a variety of disciplines with synoptic synthesizing essays Questions of Tradition will initiate a renewal of interest in this vital subject **Mission-shaped**

Questions Steven Croft, 2010-09-01 Mission Shaped Church launched a movement Mission Shaped Questions addresses the big theological and practical queries that movement unleashed including What exactly is church Can we develop churches that can transform culture Can we be missionshaped and kingdom focused too **Question of Truth** Gareth

Moore, 2003-06-19 Many Christians accept that homosexual acts are wrong on the authority of the Church For many others such teaching contradicts what they know to be the obvious truth In this book Gareth Moore closely and dispassionately examines the bases of Christian anti gay arguments Moore critically explores the language that we use to describe and define human sexuality and what this means for what we think we know about sex identity and morality At the centre of this work is a thorough and revolutionary analysis of the Bible on homosexuality posing such questions as Is there a unified biblical teaching on sex or homosexuality Are we misreading the Bible by applying modern thinking and terms Must Christians accept Paul s supposed rejection of homosexuality when they do not follow all of his teaching for example his low estimation of marriage 1 Cor 7 For Moore the criticism that gay practice is remote from Christian values is just as true of straight life Gay Christians are often responsible and thoughtful moral agents and to propose otherwise is both unreasonable and deeply disrespectful It is a precondition of being heard that we listen and in the end the gospel can only be preached effectively by those who listen **Equality and Tradition** Samuel Scheffler, 2012-01-12 This collection of essays by noted philosopher

Samuel Scheffler combines discussion of abstract questions in moral and political theory with attention to the normative dimension of current social and political controversies In addition to chapters on more abstract issues such as the nature of human valuing the role of partiality in ethics and the significance of the distinction between doing and allowing the volume also includes essays on immigration terrorism toleration political equality and the normative significance of tradition Uniting

the essays is a shared preoccupation with questions about human value and values The volume opens with an essay that considers the general question of what it is to value something as opposed say to wanting it wanting to want it or thinking that it is valuable Other essays explore particular values such as equality whose meaning and content are contested Still others consider the tensions that arise both within and among individuals in consequence of the diversity of human values One of the overarching aims of the book is to illuminate the different ways in which liberal political theory attempts to resolve conflicts of both of these kinds

Tradition in the Frame Konstantinos Kalantzis, 2019-08-09 Sfakians on the island of Crete are known for their distinctive dress and appearance fierce ruggedness and devotion to traditional ways Konstantinos Kalantzis explores how Sfakians live with the burdens and pleasures of maintaining these expectations of exoticism for themselves for their fellow Greeks and for tourists Sfakian performance of masculine tradition has become even more meaningful for Greeks looking to reimagine their nation's global standing in the wake of stringent financial regulation and for non Greek tourists yearning for rootedness and escape from the post industrial north Through fine grained ethnography that pays special attention to photography *Tradition in the Frame* explores the ambivalence of a society expected to conform to outsiders perception of the traditional even as it strives to enact its own vision of tradition From the bodily reenactment of historical photographs to the unpredictable emotionally charged uses of postcards and commercial labels the book unpacks the question of power and asymmetry but also uncovers other political possibilities that are nested in visual culture and experiences of tradition and the past Kalantzis explores the crossroads of cultural performance and social imagination where

Trade Edition Bill W., 1953 Twelve Steps to recovery T&T Clark Handbook of Neo-Calvinism Nathaniel Gray

Sutanto, Cory Brock, 2024-01-25 Neo Calvinism critically advances Reformed orthodoxy for the sake of modern life. Birthed in the Netherlands at the turn to the twentieth century initiated by Abraham Kuyper 1837 1920 and Herman Bavinck 1854 1921 it argued that a life before God entailed the leavening of faith over all human existence. While the movement originated in the Netherlands the tradition now has a global reach with practitioners and thinkers applying its insights in diverse ways and in their own contexts. This handbook is a genealogical introduction to this lively and modern branch of the Reformed tradition with contributors that reflect its global reach. Its four sections chart the theological roots, important original figures, historical contours, and the contemporary influence of neo Calvinism across a diversity of fields. *Modernity, the Environment, and the Christian Just War Tradition*. Mark Douglas, 2022-05-26 In this volume Mark Douglas presents an environmental history of the Christian just war tradition. Focusing on the transition from its late medieval into its early modern form he explores the role the tradition has played in conditioning modernity and generating modernity's blindness to interactions between the natural and the political. Douglas criticizes problematic myths that have driven conventional narratives about the history of the tradition and suggests a revised approach that better accounts for the evolution of that tradition through time. Along the way he provides new interpretations of works by Francisco de Vitoria and Hugo Grotius and provocatively the Constitution of the United States of America. Sitting at the intersection of just war thinking, environmental history, and theological ethics Douglas's book serves as a timely guide for responses to wars in a warming world as they increasingly revolve around the flashpoints of religion, resources, and refugees.
