Sandra Goldsworthy, RN, MSc, PhD(c), CNCC(C), CMSN(C), Leslie Graham, RN, MN, CNCC(C), CHSE, 2013-12-10 This book
offers easy to use quick tips that will benefit a great number of nurses Critical care nurses often need help with ventilator
modes and types of usage and this book is a great resource Score 96 4 Stars Doody's Medical Reviews The only book written
about mechanical ventilation by nurses for nurses this text fills a void in addressing high level patient care and management
specific to critical care nurses Designed for use by practicing nurses nursing students and nursing educators it provides a
detailed step by step approach to developing expertise in this challenging area of practice The guide is grounded in evidence
based research and explains complex concepts in a user friendly format along with useful tips for daily practice It has been
written based on the authors many years of teaching students at all levels of critical care as well as their experience in
mentoring novice and experienced nurses in the critical care arena Emphasizing the nurse's role in mechanical ventilation
the book offers many features that facilitate in depth learning These include bulleted points to simplify complex ideas
learning objectives key points summarized for speedy reference learning activities a case study in each chapter with
questions for reflection clinical pearls references for additional study and a glossary A digital companion includes cue cards
summarizing challenging practice concepts and how to procedural videos The book addresses the needs of both adult critical
care patients and geriatric critical care patients A chapter on International Perspectives addresses the similarities and
differences in critical care throughout the globe Also covered are pharmacology protocols for the mechanically ventilated
patient Additionally the book serves as a valuable resource for nurses preparing for national certification in critical care Key
Features Written by nurses for nurses Provides theoretical and practical step by step information about mechanical
ventilation for practicing nurses students and educators Comprises a valuable resource for the orientation of nurses new to
critical care Contains chapters on international perspectives in critical care and pharmacology protocols for the mechanically
ventilated patient *AACN Essentials of Critical Care Nursing, Second Edition* Marianne Chulay, Suzanne Burns, American
Association of Critical-Care Nurses (AACN), 2010-05-24 The authoritative evidence based coverage you need to safely and
competently care for adult critically ill patients and their families or prepare for the critical care nursing certification exam
Endorsed by the American Association of Critical Care Nurses and written by top clinical experts in acute care nursing this
textbook thoroughly covers all the need to know details on the care of adult critically ill patients and their families Supported
by helpful tables and algorithms the book's practical building block organization starts with the basics before proceeding to
more complex concepts paralleling the blueprint for the critical care nursing CCRN certification examination AACN
Essentials of Critical Care Nursing is divided into four logical sections which taken as a whole will give you complete
understanding of this challenging area of nursing practice The Essentials provides fundamental information that new

clinicians must understand to provide safe competent nursing care to all critically ill patients regardless of their underlying medical diagnosis Pathological Conditions covers pathologic conditions and management strategies commonly encountered in all adult critical care units Advanced Concepts in Caring for the Critically Ill Patient presents advanced critical care concepts or pathologic conditions that are less common or more specialized than those generally found in adult critical care units Key Reference Information includes reference information that you will find helpful in a clinical environment such as normal laboratory and diagnostic values algorithms for advanced cardiac life support and summary tables of critical care drugs and cardiac rhythms Each chapter begins with Knowledge Competencies that can be used to gauge your progress This edition is compatible with ECCO Essentials of Critical Care Orientation the online program offered by the American Association of Critical Care Nurses

Priorities in Critical Care Nursing Linda Diann Urden, Kathleen M. Stacy, Mary E. Lough, 2008 This publication addresses all the topics crucial to students or newly qualified critical care nurses Designed for 9 13 week critical care classes this new edition prepares readers to integrate the technology of critical care with psychosocial concerns in order to provide high quality nursing care
