Flipka Jt Twissel,2013-07 JT Twissel artfully mixes mystery conspiracy theories the supernatural and Native American folklore with a sardonic wit and ambitious search for the truth to take the reader on a journey with a cast of colorful characters that begins and ends with a found Civil War journal The year is 1978 when former psychoanalyst Fiona Butters is sent to a notorious reformatory for girls in the middle of the Nevada desert by Mr Las Vegas her powerful and persuasive boss to check on his daughter s welfare after a counselor inexplicably disappears The reluctant Butters is suddenly thrust into the unintended role of private investigator in a search for answers to questions she doesn t yet know to ask A junk food junkie with a knack for rubbing people the wrong way Butters encounters evasion by the reformatory Head Mistress roadblocks by the authorities and a handler compliments of Mr Las Vegas a surly alcoholic who would rather spend his time in the local bars It isn t until Butters forms an unlikely alliance with a button down professor and an eccentric WWII veteran with a penchant for alliteration and sexual innuendo that she begins to learn the secrets of the desert An intriguing adventure with lots of plot twists Flipka will entertain and engage with the irreverent and quirky as well as raise provocative and timeless questions of what government doesn t tell and why

Towards a Sustainable Northern European Housing Stock L. Itard, F. Meijer, IOS Press, 2009-04-15 Never were energy use and security of energy supply as high on the international political agendas as they are now There seems to be a consensus that energy savings and sustainable energy production must have a high priority Because the energy use in the residential and non residential sectors account for a large part of the total energy use new programs are being developed in order to limit the consumption of energy in these sectors and a lot of attention is put into increasing the energy efficiency of the existing building stock *Towards a Sustainable Northern European Housing Stock* is based on a search and inventory of data on the existing Northern European building stock and related policy developments In this book the authors try to give a realistic image of what is really known about the current quality of the building stock the type of renovation activities that are undertaken and the policies being currently implemented Recommendations are also made on how to improve the present situation **Electroconvulsive and Neuromodulation Therapies** Conrad M. Swartz, 2009-03-02 Electroconvulsive therapy ECT is a psychiatric treatment involving the induction of a seizure through the transmission of electricity in the brain Because of exploitation movies and greatly heightened drug company promotional activities ECT was used less frequently in the 1980s and 1990s Eventually these movies were understood as unrealistic Now these drugs are increasingly recognized as dangers to body health Because of recent refinements and a far better scientific understanding of the clinical procedures and mechanisms underpinning ECT this treatment modality has seen a resurgence in use and widespread appreciation of its safety This book is the new definitive reference on electroconvulsive and neuromodulation therapies It comprehensively covers the scientific basis and clinical practice of ECT as well as comparisons between ECT and medication therapies including the new generation of antipsychotic drugs It also provides readers with administrative perspectives and specific details for the management of this modality in clinical practice The new forms of nonconvulsive electrical and magnetic brain stimulation therapy are also covered in detail in a separate section The chapter authors are leading scholars and clinicians
