Visual Time Keith Moxey, 2013-06-17 Visual Time offers a rare consideration of the idea of time in art history Non Western art histories currently have an unprecedented prominence in the discipline To what extent are their artistic narratives commensurate with those told about Western art Does time run at the same speed in all places Keith Moxey argues that the discipline of art history has been too attached to interpreting works of art based on a teleological categorization demonstrating how each work influences the next as part of a linear sequence which he sees as tied to Western notions of modernity In contrast he emphasizes how the experience of viewing art creates its own aesthetic time where the viewer is entranced by the work itself rather than what it represents about the historical moment when it was created Moxey discusses the art and writing about the art of modern and contemporary artists such as Gerard Sekoto Thomas Demand Hiroshi Sugimoto and Cindy Sherman as well as the sixteenth century figures Pieter Bruegel the Elder Albrecht D rer Matthias Gr newald and Hans Holbein In the process he addresses the phenomenological turn in the study of the image its application to the understanding of particular artists the ways verisimilitude eludes time in both the past and the present and the role of time in nationalist accounts of the past

The Ascetic Imperative in Culture and Criticism Geoffrey Galt Harpham, 2011-01-15 In this bold interdisciplinary

work Geoffrey Galt Harpham argues that asceticism has played a major role in shaping Western ideas of the body writing ethics and aesthetics He suggests that we consider the ascetic as the cultural element in culture and presents a close analysis of works by Athanasius Augustine Matthias Gr newald Nietzsche Foucault and other thinkers as proof of the extent of asceticism s resources Harpham demonstrates the usefulness of his findings by deriving from asceticism a discourse of resistance a code of interpretation ultimately more generous and humane than those currently available to us

Images and Relics John Dillenberger,1999 John Dillenberger has written the first comprehensive account of the relation between the visual arts and theological currents in Europe during the first half of the sixteenth century With an astute knowledge of the theology of the period and a keen interest in the lives and work of prominent artists Dillenberger makes incisive connections that illuminate the cultural movements of the time Images and Relics considers both popular and professional art within distinct religious contexts It examines the works of Matthias Grunewald Albrecht Durer Lucas Cranach the Elder Michelangelo Hans Holbein the Younger Hans Baldung Grien and Albrecht Altdorfer and demonstrates how these artists expressed and transformed the reigning theological ideas of their day The book also addresses the range of iconoclastic movements from the 1520s to the 1570s particularly in northern Europe Finally Dillenberger reflects on the ambiguity of the history of this period and its continuing impact on modern day life

The Guide to Gethsemane Emmanuel Falque,2018-11-06 Anxiety suffering and death are not simply the ills of our society nor are they uniquely the product of a sick and sinful humanity We must all some day confront them and we continually face their implications long before we do In that sense the Garden of Gethsemane is not merely a garden outside the walls of Jerusalem but also the essential horizon for all of us whether we are believers or not Emmanuel Falque explores with no small measure of doubt Heidegger s famous statement that by virtue of Christianity s claims of salvation and the afterlife its believers cannot authentically experience anxiety in the face of death In this theological development of the Passion already widely debated upon its publication in French Falque places a radical emphasis on the physicality and corporeality of Christ s suffering and death marking the continuities between Christ s Passion and our own orientation to the mortality of our bodies Beginning with an elaborate reading of the divine and human bodies whose suffering is masterfully depicted in the Isenheim Altarpiece and written in the wake of the death of a close friend Falques s study is both theologically rigorous and marked by deeply human concerns Falque is at unusual pains to elaborate the question of death in terms not merely of faith but of a

credible Christianity that remains meaningful to non Christians holding with Maurice Blondel that the important thing is not to address believers but to say something which counts in the eyes of unbelievers His account is therefore as much a work of philosophy as of theology and of philosophy explicated not through abstractions but through familiar and ordinary experience Theology s task for Falque is to understand that human problems of the meaning of existence apply even to Christ at least insofar as he lives in and shares our finitude In Falque s remarkable account Christ takes upon himself the burden of suffering finitude so that he can undertake a passage through it or a transformation of it This book a key text from one the most remarkable of a younger generation of philosophers and theologians will be widely read and debated by all who hold that theology and philosophy has the most to offer when it eschews easy answers and takes seriously our most anguishing human experiences

On Drawing Roger Winter,2002-06 This book is for the beginning art major or for the general student who wants to learn more about drawing Drawing teachers and advanced art students may also find it useful While this book is about underlying visual principles and not naturalistic styles it relies heavily on the study of objects as mutual experiences in that world heighten communication between student and teacher and student and student Through the study of objects the student of drawing discovers how to see more intensely compose use the materials of drawing work intuitively and criticize The chapters as arranged provide a coherent system of study But regardless of any particular approach all the ideas presented are meant to help gain an intimate working knowledge of what the verb to draw actually means A Collegiate Press book

Catholic Citizens in the Third Reich Donald J. Dietrich,1988-01-01 Why did some German Catholics support and others oppose the police state that was the Third Reich In this insightful analysis Donald Dietrich explores the social psychological dynamics behind the religious reactions of German Catholics to political and moral issues during the late Weimar and Third Reich eras Along with many other Germans Catholics were enmeshed in a cruel dilemma Assenting to Nazi ideals would mean a loss of moral credibility opposing them would result in persecution Dietrich shows how Catholics accommodated and sometimes resisted totalitarianism and the Final Solution Three groups of Catholics are examined the hierarchy the theologians and the laity The literature on Nazi Germany is enormous But this is the first analysis of the dynamics shaping individual motivations and group response to Nazi ideals This comprehensive work fuses results derived from social science research with the massive amount of historical data available It is an interdisciplinary study relating religious values to patterns of behavior an issue that retains its significance today

Hitler's Priests Kevin Spicer,2008-04-14 Shaken by military defeat and economic depression after War World I Germans sought to restore their nation s dignity and power In this context the National Socialist Party with its promise of a revived Germany drew supporters Among the most zealous were a number of Catholic clergymen known as brown priests who volunteered as Nazi propagandists In this insightful study Spicer unearths a dark subchapter in Roman Catholic history introduces the principal clergymen who participated in the Nazi movement examines their motives details their advocacy of National Socialism and

explores the consequences of their political activism Some brown priests particularly war veterans advocated National Socialism because it appealed to their patriotic ardor Others had less laudatory motives disaffection with clerical life conflicts with Church superiors or ambition for personal power and fame Whatever their individual motives they employed their skills as orators writers and teachers to proclaim the message of Nazism Especially during the early 1930s when the Church forbade membership in the party these clergymen strove to prove that Catholicism was compatible with National Socialism thereby justifying their support of Nazi ideology Father Dr Philipp Haeuser a scholar and pastor went so far as to promote antisemitism while deifying Adolf Hitler The F hrer s antisemitism Spicer argues did not deter clergymen such as Haeuser because although the Church officially rejected the Nazis extreme racism Catholic teachings tolerated hostility toward Jews by blaming them for Christ s crucifixion While a handful of brown priests enjoyed the forbearance of their bishops others endured reprimand or even dismissal a few found new vocations with the Third Reich After the fall of the Reich the most visible brown priests faced trial for their part in the crimes of National Socialism a movement they had once so earnestly supported In addition to this intriguing history about clergymen trying to reconcile faith and politics Spicer provides a master list verified by extensive research in Church and government archives of Catholic clergy who publicly supported National Socialism

Imagining Jewish Art Aaron Rosen, 2009 What does Jewish art look like Where many scholars critics and curators have gone searching for the essence of Jewish art in Biblical illustrations and portraits of rabbis Rosen sets out to discover Jewishness in unlikely places How he asks have modern Jewish painters explored their Jewish identity using an artistic past which is by and large non Jewish In this new book we encounter some of the great works of Western art history through Jewish eyes We see Matthias Grunewald s Isenheim Altarpiece re imagined by Marc Chagall 1887 1985 traces of Paolo Uccello and Piero della Francesca in Philip Guston 1913 1980 and images by Diego Velazquez and Paul Cezanne studiously reworked by R B Kitaj 1932 2007 This highly comparative study draws on theological philosophical and literary sources from Franz Rosenzweig to Franz Kafka and Philip Roth Rosen deepens our understanding not only of these three modern painters but also of how art might serve as a key resource for rethinking such fundamental Jewish concepts as family tradition and homeland

Dennis, 2015-05-14 Inhumanities is an unprecedented account of the ways Nazi Germany manipulated and mobilized European literature philosophy painting sculpture and music in support of its ideological ends David B Dennis shows how based on belief that the Third Reich represented the culmination of Western civilization culture became a key propaganda tool in the regime s program of national renewal and its campaign against political national and racial enemies Focusing on the daily output of the V lkischer Beobachter the party s official organ and the most widely circulating German newspaper of the day he reveals how activists twisted history biography and aesthetics to fit Nazism s authoritarian militaristic and anti Semitic world views Ranging from National Socialist coverage of Germans such as Luther D rer Goethe Beethoven Wagner and Nietzsche to great men of the Nordic West such as Socrates Leonardo
