

# THE MATURE LAUREL

The background of the cover is a painting of a landscape. It shows a path or road that curves through a field of tall, golden-brown grass or reeds. In the distance, there is a body of water, possibly a lake or a wide river, under a pale, hazy sky. The overall style is impressionistic, with soft colors and visible brushstrokes.

**George and Lizzie** Nancy Pearl, 2017-09-05 A n homage to true love painful childhood experiences and emotional scars that last a lifetime It s a story of forgiveness especially for one s self Extraordinary The Washington Post From America s librarian and NPR books commentator Nancy Pearl comes an emotionally riveting debut novel about an unlikely marriage at a crossroads George and Lizzie have radically different understandings of what love and marriage should be George grew up in a warm and loving family his father an orthodontist his mother a stay at home mom while Lizzie grew up as the only child of two famous psychologists who viewed her more as an in house experiment than a child to love Over the course of their marriage nothing has changed George is happy Lizzie remains unfulfilled When a shameful secret from Lizzie s past resurfaces she ll need to face her fears in order to accept the true nature of the relationship she and George have built over a decade together With pitch perfect prose and compassion and humor to spare George and Lizzie is an intimate story of new and past loves the scars of childhood and an imperfect marriage at its defining moments

### **Words Without Pictures**

Charlotte Cotton, Alex Klein, 2010 Words Without Pictures was originally conceived of by curator Charlotte Cotton as a means of creating spaces for thoughtful and urgent discourse around current issues in photography Every month for a year beginning in November 2007 an artist educator critic art historian or curator was invited to contribute a short un illustrated and opinionated essay about an aspect of photography that in his or her view was either emerging or in the process of being rephrased Each piece was available on the Words Without Pictures website for one month and was accompanied by a discussion forum focused on its specific topic Over the course of its month long life each essay received both invited and unsolicited responses from a wide range of interested parties students photographers active in the commercial sector bloggers critics historians artists of all kinds educators publishers and photography enthusiasts alike all coming together to consider the issues at hand All of these essays responses and other provocations are gathered together in a volume designed by David Reinfurt of Dexter Sinister Previously issued as a print on demand title Aperture is pleased to present Words Without Pictures to the trade for this first time as part of the Aperture Ideas series

Kenneth L. Untiedt, 2012 The Texas Folklore Society has been alive and kicking for over one hundred years now and I don t really think there s any mystery as to what keeps the organization going strong The secret to our longevity is simply the constant replenishment of our body of contributors We are especially fortunate in recent years to have had papers given at our annual meetings by new members young members many of whom are college or even high school students These presentations are oftentimes given during sessions right alongside some of our oldest members We ve also had long time members who ve been around for years but had never yet given papers thankfully they finally took the opportunity to present their research fulfilling the mission of the TFS to collect preserve and present the lore of Texas and the Southwest You ll find in this book some of the best articles from those presentations The first fruits of our youngest or newest members include

Acayla Haile on the folklore of plants Familiar and well respected names like J Rhett Rushing and Kenneth W Davis discuss folklore about monsters and the classic widow s revenge tale These works and the people who produced them represent the secret behind the history of the Texas Folklore Society as well as its future Kenneth L Untiedt *A History of Appalachia* Richard Drake,2003-09-01 Richard Drake has skillfully woven together the various strands of the Appalachian experience into a sweeping whole Touching upon folk traditions health care the environment higher education the role of blacks and women and much more Drake offers a compelling social history of a unique American region The Appalachian region extending from Alabama in the South up to the Allegheny highlands of Pennsylvania has historically been characterized by its largely rural populations rich natural resources that have fueled industry in other parts of the country and the strong and wild undeveloped land The rugged geography of the region allowed Native American societies especially the Cherokee to flourish Early white settlers tended to favor a self sufficient approach to farming contrary to the land grabbing and plantation building going on elsewhere in the South The growth of a market economy and competition from other agricultural areas of the country sparked an economic decline of the region s rural population at least as early as 1830 The Civil War and the sometimes hostile legislation of Reconstruction made life even more difficult for rural Appalachians Recent history of the region is marked by the corporate exploitation of resources Regional oil gas and coal had attracted some industry even before the Civil War but the postwar years saw an immense expansion of American industry nearly all of which relied heavily on Appalachian fossil fuels particularly coal What was initially a boon to the region eventually brought financial disaster to many mountain people as unsafe working conditions and strip mining ravaged the land and its inhabitants *A History of Appalachia* also examines pockets of urbanization in Appalachia Chemical textile and other industries have encouraged the development of urban areas At the same time radio television and the internet provide residents direct links to cultures from all over the world The author looks at the process of urbanization as it belies commonly held notions about the region s rural character The Last Foundling Tom H. Mackenzie,2014-03-13 When she fell pregnant in London in 1938 Jean knew that she couldn t keep her baby The unmarried daughter of an elder in the Church of Scotland she would shame her family if she returned to the north in such a condition Scared and alone in a city on the brink of war she begged the Foundling Hospital to give her baby the start in life that she could not The institution which had been providing care for deserted infants since the eighteenth century allowed Jean to nurse her son for nine weeks leaving her heartbroken when the time came to let him go But little Tom knew nothing of her love as he grew up in the Foundling Hospital which during years of the Second World War was more like a prison than a children s home Locked in and subject to public canings and the sadistic whims of the older boys there was no one to give him a hug no one to wipe away his tears A true story of desertion and neglect this is also a moving account of survival from one of the very last foundlings It stands as a testament to the love that ultimately led a family back together **Made to Break** Giles Slade,2009-06-30 *Made to Break* is a history of twentieth century technology

as seen through the prism of obsolescence Giles Slade explains how disposability was a necessary condition for America's rejection of tradition and our acceptance of change and impermanence This book gives us a detailed and harrowing picture of how by choosing to support ever shorter product lives we may well be shortening the future of our way of life as well

Revision Alice Horning, Anne Becker, 2006-05-22 Explores the wide range of scholarship on revision while bringing new light to bear on enduring questions in composition and rhetoric      *The Mature Laurel* Adam Czerniawski, 1991 Traces the course of Polish poetry from Norwid to the New Wave virtually the whole of this century Polish Heritage Informative and engaging Composed of three distinctly structured sections The first the most ambitious consists of two essays by Czerniawski that together attempt to provide a background for the rest of the contributions In Part 2 seven English writers comment on a single Polish poem that is particularly meaningful to them These are light but intriguing The third section is composed of ten solid essays in literary criticism by English writers who know Polish poetry only in translation and by emigre Polish writers and scholars The blend of interests and perspectives is particularly effective and fascinating Recommended for the general reader of poetry graduate and upper division undergraduate levels Choice      **Advances in the Sociology of Trust and Cooperation** Vincent Buskens, Rense Corten, Chris Snijders, 2020-10-26 The problem of cooperation is one of the core issues in sociology and social science more in general The key question is how humans groups organizations institutions and countries can avoid or overcome the collective good dilemmas that could lead to a Hobbesian war of all against all The chapters in this book provide state of the art examples of research on this crucial topic These include theoretical laboratory and field studies on trust and cooperation thereby approaching the issue in three complementary and synergetic ways The theoretical work covers articles on trust and control reputation formation and paradigmatic articles on the benefits and caveats of abstracting reality into models The laboratory studies test the implications of different models of trust and reputation such as the effects of social and institutional embeddedness and the potentially emerging inequalities this may cause The field studies test these implications in applied settings such as business purchasing and supply informal care and different kinds of collaboration networks This book is exemplary for rigorous social science The focus is on effects of social conditions in particular different forms of social and institutional embeddedness on social outcomes at the macro level Modelling efforts are applied to connect social conditions to social outcomes through micro level behavior in ways that are easily overlooked when argumentation is intuitive and impressionistic The book sets forth a mixed method approach by applying different empirical methods to test hypotheses about similar questions Several contributions re evaluate the theoretical strengths and weaknesses following from the laboratory and field studies Improving the theory in light of these findings facilitates pushing the boundaries of social science      Dolls Behaving Badly Cinthia Ritchie, 2012-10-23 A hilarious and heartwarming debut novel about a single mom living in Alaska trying to make a life for herself and her young son Carla Richards is a lot of things She's a waitress at Anchorage's premier dining establishment Mexico in an Igloo an artist who

secretly makes erotic dolls for extra income a divorcee who can't quite detach from her ex husband and a single mom trying to support her gifted eight year old son her pregnant sister and her babysitter turned resident teenager She's one overdue bill away from completely losing control when inspiration strikes in the form of a TV personality Now she's scribbling away in a diary flirting with an anthropologist and making appointments with a credit counselor Still getting her life and dreams back on track is difficult Is perfection really within reach Or will she wind up with something even better

**The Making of Prince of Persia** Jordan Mechner, 2011-12-22 Before Prince of Persia was a best selling video game franchise and a Jerry Bruckheimer movie it was an Apple II computer game created and programmed by one person Jordan Mechner Also available as an ebook Mechner's candid journals from the time capture his journey from his parents basement to the forefront of the fast growing 1980s video game industry and the creative technical and personal struggles that brought the prince into being and ultimately into the homes of millions of people worldwide

*In the Bubble* John Thackara, 2006-02-17 How to design a world in which we rely less on stuff and more on people We're filling up the world with technology and devices but we've lost sight of an important question What is this stuff for What value does it add to our lives So asks author John Thackara in his new book In the Bubble Designing for a Complex World These are tough questions for the pushers of technology to answer Our economic system is centered on technology so it would be no small matter if tech ceased to be an end in itself in our daily lives Technology is not going to go away but the time to discuss the end it will serve is before we deploy it not after We need to ask what purpose will be served by the broadband communications smart materials wearable computing and connected appliances that we're unleashing upon the world We need to ask what impact all this stuff will have on our daily lives Who will look after it and how In the Bubble is about a world based less on stuff and more on people Thackara describes a transformation that is taking place now not in a remote science fiction future it's not about as he puts it the schlock of the new but about radical innovation already emerging in daily life We are regaining respect for what people can do that technology can't In the Bubble describes services designed to help people carry out daily activities in new ways Many of these services involve technology ranging from body implants to wide bodied jets But objects and systems play a supporting role in a people centered world The design focus is on services not things And new principles above all lightness inform the way these services are designed and used At the heart of In the Bubble is a belief informed by a wealth of real world examples that ethics and responsibility can inform design decisions without impeding social and technical innovation

*Clarks in Jamaica* Al Fingers, 2021-06 In Jamaica Clarks are loved like no other brand They are the island s ruling name in footwear the champion shoes and it has been that way for as long as anybody can remember This book celebrates the rich history of Clarks in Jamaica with a focus on the Jamaican reggae and dancehall musicians who have worn and sung about Clarks shoes through the years Documenting the origins of the Clarks brand in 1825 through to the introduction of their shoes into Jamaica in the 1920s and the impact of styles such as the Desert Boot Wallabee and Desert Trek on the island Clarks in Jamaica explores how footwear made by a Quaker firm in the quiet English village of Street Somerset became the baddest shoes in Jamaica and an essential part of the island s culture Building on the success of the first release in 2011 this updated second edition includes new interviews previously unseen photographs insights into Jamaica s favourite styles of Clarks from former company employees and an expanded chapter on Jamaican fashion detailing the histories of island fashion staples such as the mesh marina string vest Arrow shirt knits ganzie and beaver hat Beautifully presented and thoroughly researched Clarks in Jamaica is a wonderful document of Clarks deep roots in Jamaican culture a fitting tribute to the rich cultural exchange that has taken place between Jamaica and the UK that will appeal as much to Jamaicaphiles and lovers of Clarks shoes as to musicologists fashion stylists and cultural historians

**“The” Illustrated London News**, 1856 The Art of Doing Science and Engineering Richard W. Hamming , 2020-05-26 A groundbreaking treatise by one of the great mathematicians of our age who outlines a style of thinking by which great ideas are conceived What inspires and spurs on a great idea Can we train ourselves to think in a way that will enable world changing understandings and insights to emerge Richard Hamming said we can He first inspired a generation of engineers scientists and researchers in 1986 with *You and Your Research* an electrifying sermon on why some scientists do great work why most don t why he did and why you can and should too The Art of Doing Science and Engineering is the full expression of what *You and Your Research* outlined It s a book about thinking more specifically a style of thinking by which great ideas are conceived The book is filled with stories of great people performing mighty deeds but they are not meant simply to be admired Instead they are to be aspired to learned from and surpassed Hamming consistently returns to Shannon s information theory Einstein s theory of relativity Grace Hopper s work on high level programming Kaiser s work on digital filters and his own work on error correcting codes He also recounts a number of his spectacular failures as clear examples of what to avoid Originally published in 1996 and adapted

from a course that Hamming taught at the US Naval Postgraduate School this edition includes an all new foreword by designer engineer and founder of Dynamicland Bret Victor plus more than 70 redrawn graphs and charts The Art of Doing Science and Engineering is a reminder that a capacity for learning and creativity are accessible to everyone Hamming was as much a teacher as a scientist and having spent a lifetime forming and confirming a theory of great people and great ideas he prepares the next generation for even greater distinction

**Empire of Illusion** Chris Hedges, 2009-07-28 Pulitzer prize winner Chris Hedges charts the dramatic and disturbing rise of a post literate society that craves fantasy ecstasy and illusion Chris Hedges argues that we now live in two societies One the minority functions in a print based literate world that can cope with complexity and can separate illusion from truth The other a growing majority is retreating from a reality based world into one of false certainty and magic In this other society serious film and theatre as well as newspapers and books are being pushed to the margins In the tradition of Christopher Lasch's The Culture of Narcissism and Neil Postman's Amusing Ourselves to Death Hedges navigates this culture attending WWF contests as well as Ivy League graduation ceremonies exposing an age of terrifying decline and heightened self delusion
