*Understanding Religious Experiences* J. Harold Ellens, 2007-11-30 Today most people feel less interested in religion and more interested in spirituality. If you ask what they mean they will tell you that organized religion tends to turn them off but nonetheless they feel a hunger in the heart that they cannot seem to fill. They do not mean that they would rather have disorganized religion; they mean that institutional religion does not seem to satisfy their spirits and feel there must be something more, some better way of experiencing whatever that is for which they are hungry. Much new experimentation is going on as a result. Some of it is a search for the meaning to fill the soul and satisfy the spirit; much of it is a search for meaning on the spiritual level itself. Spirituality reaches always toward the question about the meaning of God, the meaning of relationships with others, the meaning of intimacy and the meaning of soul-gratifying insights into truth. Here Ellens carefully and sensitively explores the full range of our spiritual natures and the variety of spiritual experiences of which we are capable, describing the way our souls and psyches work in our hunger and thirst for meaning. He explains in an enlightening and unconventional way why and how every human desires to reflect upon, learn and share a heartfelt experience of God and of others. Readers will find in this book a description of the meaning of the biblical stories about spiritual experiences in addition to descriptions of the kinds of spiritual experiences that ordinary people are having, how they are achieving them and the ways in which they are filling their lives with meaning that goes beyond the horizons of material life. The author paints this picture in such a way as to let us in on what biblically based authentic spirituality and spiritual experience really is and why it may or may not necessarily have anything to do with traditional institutionalized religion. He carefully and vividly explains the notion of spirituality as it is illustrated in the Bible and discusses spiritual experiences such as prayer, epiphany, visions and other experiences. He considers whether spirituality is mainly a connection with God, with others or with both. Readers hoping to get a better sense of what it means to be spiritual will have many of their questions answered in these pages.

**Spiritually and Developmentally Mature Leadership** Daniel E. Harris, Lori Holyfield, Linda Jones, Rhonda Ellis, Judi Neal, 2019-02-21 The book goes beyond theory to offer tools and suggestions for developing emerging leaders. Inspired by the pioneering work of leadership scholar Andre Delbecq, this book points towards an expanded model of leadership that incorporates an active inner life and posits that such fully human models of leadership will be essential to meet the profound challenges of the 21st Century. Without presuming to provide definitive answers, the text explores central questions such as: What is the added value of spiritual maturity to leadership? Would the integration of mature spirituality with well-developed intellectual and emotional capacities produce more beneficial leadership outcomes for organizations and individuals? What would a spiritually and developmentally mature emerging leader look like in 10 to 20 years? How do we prepare emerging leaders for the challenges they may face and how do we model spiritually and developmentally mature leadership in ways that resonate with them? Professor Andre Delbecq, 1936-2016 of the University of Santa Clara created the heuristic of spiritually and developmentally mature leaders to encapsulate his observation that outstanding leaders often

seemed to draw strength and wisdom from sources that are not typically studied or taught in leadership courses Thirty scholars and practitioners accepted Delbecq's heuristic as the starting point to explore spiritual components of leadership that do not easily lend themselves to quantification or clear causal links The analysis of their disciplined engagement with the heuristic forms the foundation of an exploratory fully human understanding of leadership This analysis is supported by literature reviews including an overview of Andre Delbecq's relevant work Ultimately the authors call for further collaboration across disciplines and between research and practice to build on the conceptual constructs offered here and especially to create pedagogies for the training of spiritually and developmentally mature leaders
