Hauser, 2021-05-11 How sugarcane monoculture decimated an island s water supply and people

Open access edition DOI 10.6069/9780295748733 *Dominica* a place once described as Nature's Island was rich in biodiversity and seemingly abundant water but in the eighteenth century a brief failed attempt by colonial administrators to replace cultivation of varied plant species with sugarcane caused widespread ecological and social disruption. Illustrating how deeply intertwined plantation slavery was with the environmental devastation it caused, *Mapping Water in Dominica* situates the social lives of eighteenth-century enslaved laborers in the natural history of two Dominican enclaves. Mark Hauser draws on archaeological and archival history from Dominica to reconstruct the changing ways that enslaved people interacted with water and exposes crucial pieces of Dominica's colonial history that have been omitted from official documents. The archaeological record, which preserves traces of slave households, waterways, boiling houses, mills, and vessels for storing water, reveals changes in political authority and in how social relations were mediated through the environment. Plantation monoculture, which depended on both slavery and an abundant supply of water, worked through the environment to create predicaments around scarcity, mobility, and belonging, whose resolution was a matter of life and death. In following the vestiges of these struggles, this investigation documents a valuable example of an environmental challenge centered around insufficient water. *Mapping Water in Dominica* is available in an open access edition through the Sustainable History Monograph Pilot. The Young Warriors Victor Stafford Reid, 2021-03-25 In 1735 five Maroon boys are ready to be initiated as warriors. They have prepared long and hard for this day and must now pass a sequence of tests. How the boys approach this, the most important day of their lives, says much about how they will respond to the challenges ahead. When they encounter a Redcoat troop in the forest near their village, the defence of the village and surrounding Maroon communities will depend on these boys, their training, courage, and intelligence. On this occasion, their community depends on them for its survival, but their initiation as warriors also teaches them lifelong lessons about loyalty, responsibility, trustworthiness, and friendship. **A**
