Maupassant The Semiotics Of Text Practical Exercises Semiotic Crossroads:

Paris School Semiotics Frank Collins,1989 **Maupassant: the Semiotics of Text** Algirdas Julien

Greimas,1988-01-01 Translated by Paul Perron Maupassant's short story Two Friends is examined in order to test methodological tools and to hone them for their application in the analysis of narrative discourse starting from the oral tale Propp and ending with the written tale instituted as literary genre Complex procedures of textual production are identified among which entire sequences as well as the eventual level of narrative fade away in favor of its cognitive dimension This semiotic investigation is accompanied by a challenge to certain conventions of literary criticism dialogue the locus of Realist stereotypes appears laden with paradoxical truths the description of nature inherited from the Romantics bristles with narrative intent and entire sections of a valorized figurative universe unfold before us Thematic readings are linked up with semantic analysis the figure of Water exerts its profound fascination A Christian symbolics is uncovered which traverses the text and invites us to read it as a new Gospel Parable New readings complement older ones and remain as so many suspended possibilities The tale appears somewhat as a sonnet that is to say as a fixed form genre where the closure of the text would be a necessary condition for transcending it **The Postmodern Bible** George Aichele,Fred W. Burnett,Robert M. Fowler,David Jobling,Tina Pippin,Wilhelm Wuellner,Bible and Culture Collective,1995-01-01 The burgeoning use of modern literary theory and cultural criticism in recent biblical studies has led to stimulating but often bewildering new readings of the Bible This book argued from a perspective shaped by postmodernism is at once an accessible guide to and an engagement with various methods theories and critical practices transforming biblical scholarship today Written by a collective of cutting edge scholars with each page the work of multiple hands The Postmodern Bible deliberately breaks with the individualist model of authorship that has traditionally dominated scholarship in the humanities and is itself an illustration of the postmodern transformation of biblical studies for which it argues The book introduces illustrates and critiques seven prominent strategies of reading Several of these interpretive strategies rhetorical criticism structuralism and narratology reader response criticism and feminist criticism have been instrumental in the transformation of biblical studies up to now Many feminist and womanist criticism ideological criticism poststructuralism and psychoanalytic criticism hold promise for the continued transformation of these studies in the future Focusing on readings from both the Hebrew Bible and the New Testament this volume illuminates the current multidisciplinary debates emerging from postmodernism by exposing the still highly contested epistemological political and ethical positions in the field of biblical studies Literature, Criticism, and the Theory of Signs Victorino Tejera,1995 Following Peirce in his non reductive understanding of the theory of signs as a branch of aesthetics this book reconceptualizes the processes of literary creation appreciation and reading in semiotic terms Here is a carefully developed theory of what sort of criteria serve to distinguish apposite from inapposite readings of literary works of art Given Peirce's triadic account of signification it enlarges Aristotle's view of mimesis as

expressive making into an understanding of literary works as deliberately designed sign systems belonging to Peirce's eighth class of signs. In parallel with Bakhtin's account of the dialogical nature of literary work and its success in exposing misreadings of Dostoyevsky, this work categorizes in precise theoretical terms what is wrong with the non-dialogical readings which treat Plato's dialogues as doctrinal tractates. As a study in literary theory, finally and on the basis of apt distinctions between exhibitiv, active and assertive judgments, this book re-demarcates and distinguishes the discipline of literary criticism from that of literary theory and both of these from the work of literary creation itself.

Von der Klage zum Lob
 Uwe Rechberger, 2012-07-24 Was bringt einen Menschen von der Klage zu neuem Vertrauen und zum Lob Gottes?
 Alttestamentlich ist dies die Frage nach dem Stimmungsumschwung in den Psalmen. Beispielhaft werden in der vorliegenden Studie die Gebetsprozesse der Psalmen 3, 6 und 22 interpretiert. Dabei wird deutlich, wie die Psalmen nicht nur einen Stimmungsumschwung, sondern im Verlauf des Gebets eine mehrfache Wende herbeiführen wollen: eine Wende in Gott, mit der sich Gott dem Beter neu zuwendet, um dann auch die Situation des Beters zu wenden. Die Sprechaktwende von der Klage zum Vertrauensbekenntnis und die intendierte Wende der Stimmung des Beters werden im Psalmgebet vom ersten Vers an vorbereitet.

Forthcoming Books Rose Army, 1989-09 **Forum der letteren**, 1987 **Books in Print Supplement**, 1988 Subject Guide to Books in Print, 1993 Books in Print, 1991 **Semiosis**, 1989 **The Organizing Property of Communication** François Cooren, 2000-03-15 What is an organization? What are the building blocks that ultimately constitute this social form so pervasive in our daily life? Like Augustine facing the problem of time, we all know what an organization is, but we seem unable to explain it. This book brings an original answer by mobilizing concepts traditionally reserved to linguistics, analytical philosophy and semiotics. Based on Algirdas Julien Greimas' semio-narrative model of action and Jacques Derrida's concept of *criture*, a reconceptualization of speech act theory is proposed in which communication is treated as an act of delegation where human and nonhuman agents are mobilized: texts, machines, employees, architectural elements, managers, etc. Perfectly congruent with the last development of the sociology of translation developed by Michel Callon and Bruno Latour, this perspective illustrates the organizing property of communication through a process called *interactoriality*. Jacques Lacan used to say that the unconscious is structured like a language. This book shows that a social organization is structured like a narrative.

Possible Worlds, Artificial Intelligence, and Narrative Theory
 Marie-Laure Ryan, 1991 In this important contribution to narrative theory, Marie-Laure Ryan applies insights from artificial intelligence and the theory of possible worlds to the study of narrative and fiction. For Ryan, the theory of possible worlds provides a more nuanced way of discussing the commonplace notion of a fictional world, while artificial intelligence contributes to narratology and the theory of fiction directly via its researches into the cognitive processes of texts and automatic story generation. Although Ryan applies exotic theories to the study of narrative and to fiction, her book maintains a solid basis in literary theory and makes the formal models developed by AI researchers accessible to the student of literature.

By combining the philosophical background of possible world theory with models inspired by AI the book fulfills a pressing need in narratology for new paradigms and an interdisciplinary perspective *Reading for Storyness* Susan

Lohafer,2003-12-22 *Reading for Storyness* combines cognitive science with literary theory to present a compelling argument for the uniqueness of the short story *Russian Formalism* Peter Steiner,2016-11 *Russian Formalism* one of the twentieth century s most important movements in literary criticism has received far less attention than most of its rivals Examining Formalism in light of more recent developments in literary theory Peter Steiner here offers the most comprehensive critique of Formalism to date Steiner studies the work of the Formalists in terms of the major tropes that characterized their thought He first considers those theorists who viewed a literary work as a mechanism an organism or a system He then turns to those who sought to reduce literature to its most basic element language and who consequently replaced poetics with linguistics Throughout Steiner elucidates the basic principles of the Formalists and explores their contributions to the study of poetics literary history the theory of literary genre and prosody *Russian Formalism* is an authoritative introduction to the movement that was a major precursor of contemporary critical thought **Memory, History, Forgetting** Paul Ricoeur,2009-01-01

Why do major historical events such as the Holocaust occupy the forefront of the collective consciousness while profound moments such as the Armenian genocide the McCarthy era and France s role in North Africa stand distantly behind Is it possible that history overly remembers some events at the expense of others A landmark work in philosophy Paul Ricoeur s *Memory History Forgetting* examines this reciprocal relationship between remembering and forgetting showing how it affects both the perception of historical experience and the production of historical narrative *Memory History Forgetting* like its title is divided into three major sections Ricoeur first takes a phenomenological approach to memory and mnemonical devices The underlying question here is how a memory of present can be of something absent the past The second section addresses recent work by historians by reopening the question of the nature and truth of historical knowledge Ricoeur explores whether historians who can write a history of memory can truly break with all dependence on memory including memories that resist representation The third and final section is a profound meditation on the necessity of forgetting as a condition for the possibility of remembering and whether there can be something like happy forgetting in parallel to happy memory Throughout the book there are careful and close readings of the texts of Aristotle and Plato of Descartes and Kant and of Halbwachs and Pierre Nora A momentous achievement in the career of one of the most significant philosophers of our age *Memory History Forgetting* provides the crucial link between Ricoeur s *Time and Narrative* and *Oneself as Another* and his recent reflections on ethics and the problems of responsibility and representation His success in revealing the internal relations between recalling and forgetting and how this dynamic becomes problematic in light of events once present but now past will inspire academic dialogue and response but also holds great appeal to educated general readers in search of both method for and insight from considering the ethical ramifications of modern events It is indeed a master work not only

in Ricoeur's own vita but also in contemporary European philosophy Library Journal Ricoeur writes the best kind of philosophy critical economical and clear New York Times Book Review
