

The background of the entire image is a painting. On the left, a man in a dark coat and hat is seen from the side, looking out of a window with a grid pattern. The room is dark, and the light from the window illuminates the man's face and the window frame. On the right, there is a dark, shadowy area that appears to be a doorway or a recessed part of the room.

**Russomania** Rebecca Beasley,2020-03-31 Russomania Russian Culture and the Creation of British Modernism

provides a new account of modernist literature's emergence in Britain. British writers played a central role in the dissemination of Russian literature and culture during the early twentieth century and their writing was transformed by the encounter. This study restores the thick history of that moment by analyzing networks of dissemination and reception to recover the role of neglected as well as canonical figures and institutions as well as individuals. The dominant account of British modernism privileges a Francophile genealogy but the turn of the century debate about the future of British writing was a triangular debate, a debate not only between French and English models but between French, English and Russian models. Francophile modernists associated Russian literature, especially the Tolstoyan novel, with an uncritical immersion in life at the expense of a mastery of style and while individual works might be admired, Russian literature as a whole was represented as a dangerous model for British writing. This supposed danger was closely bound up with the politics of the period and this book investigates how Russian culture was deployed in the close relationships between writers, editors and politicians who made up the early twentieth century intellectual class, the British intelligentsia. Russomania argues that the most significant impact of Russian culture is not to be found in stylistic borrowings between canonical authors but in the shaping of the major intellectual questions of the period: the relation between language and action, writer and audience, and the work of art and lived experience. The resulting account brings an occluded genealogy of early modernism to the fore with a different arrangement of protagonists, different critical values and stronger lines of connection to the realist experiments of the Victorian past and the anti-formalism and revived romanticism of the 1930s and 1940s future.

**D.S. Mirsky** Gerald Stanton Smith, 2000. This is the first biography in any language of Comrade Prince D. S. Mirsky who uniquely participated in three distinctive episodes of modern European culture. In late imperial St. Petersburg he was a poet, a student of Oriental languages and ancient history and also a Guards officer. After fighting in World War I and the Russian Civil War, Mirsky emigrated, taught at London University and became a literary critic and historian, writing prolifically in English and also in Russian as a leading member of the Eurasian movement centered in Paris. His closest literary relationships were with Marina Tsvetaeva and Aleksei Remizov and later with Maksim Gorky. In 1926-7 he published *A History of Russian Literature*, written in English which remains the standard introduction to the subject. While in London he lived in Bloomsbury and knew the Woolfs; he also knew T. S. Eliot and was the first Russian critic to write about him. Mirsky became a Communist in 1931 and returned to Stalin's Moscow the following year, becoming a prominent Soviet critic and in particular championing Boris Pasternak. In 1937 he was arrested and died in the Gulag. This biography draws on much unpublished material, including Mirsky's NKVD files.

**Shadow Lovers UK Edition** Andrea Lynn, 2019-12-06. Nearing 70 and in what would be the last decade of his life, H. G. Wells fell in love at least three times: once with the much younger Baroness Budberg and soon thereafter with two well-born Americans, Constance Coolidge and Martha Gelhorn, 25 and 40 years his junior respectively. These would constitute what Wells himself described as his last flounderings towards the wife idea and demonstrate in many

ways that Wells was driven less by his considerable intelligence than by his obsession to find his ideal lover what he called his lover shadow This study looks at this very personal side of H G Wells The self proclaimed Don Juan was said to have radiated energy intellectual emotional physical and sexual Drawing on papers made public by the Wells estate the author documents Wells relationship with each of these femme fatales and paints a vivid portrait of the early part of the 20th century in London Paris and the US

Faith of Our Fathers Joseph Pearce, 2022-03-01 The Catholic Church has been a part of English history since the arrival of Christian missionaries to Roman Britain in the first century after Christ England was evangelized in these early centuries to such an extent that by the time the Romans withdrew in the fifth century the Celtic population was largely Catholic Anglo Saxon England prior to the Norman Conquest was a land of saints From St Bede with his history of the early Church to the holy king St Edward the Confessor Saxon England was ablaze with the light of Christ During the reign of St Edward a vision of the Virgin at Walsingham placed the Mother of God on the throne as England's queen the land being considered her dowry Even following the Norman Conquest the Faith continued to flourish and prosper making its joyful presence felt in what would become known as Merrie England Then in the sixteenth century this Catholic heart was ripped from the people of England against their will and in spite of their spirited and heroic resistance by the reign of the Tudors This made England once again a land of saints that is of martyrs with Catholic priests and laity being put to death for practicing the Faith The martyrdoms would continue for 150 years followed by a further 150 years of legal and political persecution In the nineteenth century against all the odds there was a great Catholic revival heralded by the conversion of St John Henry Newman which would continue into the twentieth century Much of the greatest literature of the past century has been written by literary converts to the Church such as G K Chesterton Evelyn Waugh Graham Greene and J R R Tolkien This whole exciting faith filled story is told by Joseph Pearce within a single volume history of true England the England that remained true to the faith through thick and thin in times both merrie and perilous It is a story not only worth telling but worth celebrating

*Politics and Culture in Victorian Britain* Henry Colin Gray Matthew, 2006-03-09 In the last twenty years one of the classical arenas for British historical writing the politics of Victorian Britain has ceased to be an obvious or self evidently important subject Facing up to this challenge the historians who have contributed to this volume explore central aspects of that history They continue to uphold the centrality of politics to Victorian Britain but suggest that politics must be viewed more broadly as a concern pervading almost all spheres of life just as Victorians themselves would have done In this way politics penetrates into Victorian culture Politics can lead us into the ideas governing political action itself political ideas international relations the education of men and women the writing of history and of literature engagement with past political theorists and the ideas behind professionalization Such are some of the themes taken up here The specific occasion for these essays was as a tribute to the memory of the late Colin Matthew one of the most eminent recent historians of Victorian Britain who was himself determined to uphold the contemporary relevance of Victorian political tradition and to explore the interface between politics and culture Reflection on his intellectual achievement is a second distinctive component of this book
