Mauritius Seychelles And Reunion:

Africa in the Indian Ocean Tor Sellström, 2015-05-26 The four sovereign Indian Ocean states of Comoros Madagascar Mauritius and Seychelles the two French overseas departments of Mayotte and Reunion as well as the British colony of BIOT Chagos all form part of Africa As insular nations and territories in an increasingly globalized militarized and largely unregulated ocean they face particular challenges Commonly overlooked in the fields of African and international studies this text traces the islands history and explores their diverse contemporary social political and economic trajectories From human settlement and slavery to conflict resolution and piracy the relations with continental Africa and the African Union feature prominently Richly sourced this comprehensive and up to date introduction to Africa s Indian Ocean islands covers a significant lacuna

Birds of Madagascar and the Indian Ocean Islands Roger Safford, Adrian Skerrett, Frank Hawkins, 2015-12-17 The Malagasy region contains one of the most extraordinary concentrations of biodiversity in the world Its recognition as a zoogeographic region in its own right has recently been confirmed and all taxa combined the region was found to hold the second most distinct assemblage of vertebrates in the world after the Australian region despite being the smallest of them all This new field guide in the Helm Field Guides series covers the whole of the Malagasy region which comprises the unique island of Madagascar and the various islands and archipelagos of the Indian Ocean including the Seychelles Comoros and Mascarenes Mauritius Reunion and Rodrigues Every resident and migrant species is covered in full detail with a colour distribution map for each species Vagrants are also treated in detail but without maps All species are illustrated on a beautiful series of 124 colour plates with artwork from John Gale and Brian Small Conveniently the plates have been arranged so that all the key species of the various archipelagos are placed together in sections This is a major work of reference on the birds of the region and will remain the standard text for many years to come
