Martirosyan,2009 Obama and Kenya Matthew Carotenuto,Katherine Luongo,2016-07-29 Barack Obama s political ascendancy has focused considerable global attention on the history of Kenya generally and the history of the Luo community particularly From politicians populating the blogosphere and bookshelves in the U S and Kenya to tourists traipsing through Obama s ancestral home a variety of groups have mobilized new readings of Kenya s past in service of their own ends Through narratives placing Obama into a simplified sweeping narrative of anticolonial barbarism and postcolonial tribal violence the story of the United States president s nuanced relationship to Kenya has been lost amid stereotypical portrayals of Africa At the same time Kenyan state officials have aimed to weave Obama into the contested narrative of Kenyan nationhood Matthew Carotenuto and Katherine Luongo argue that efforts to cast Obama as a son of the soil of the Lake Victoria basin invite insights into the politicized uses of Kenya s past Ideal for classroom use and directed at a general readership interested in global affairs Obama and Kenya offers an important counterpoint to the many popular but inaccurate texts about Kenya s history and Obama s place in it as well as focused thematic analyses of contemporary debates about ethnic politics tribal identities postcolonial governance and U S African relations *Annual Update in Intensive Care and Emergency Medicine 2017* Jean-Louis Vincent,2017-03-31 The

Holocaust Representation Berel Lang, 2003-05-01 Since Theodor Adorno's attack on the writing of poetry after Auschwitz artists and theorists have faced the problem of reconciling the moral enormity of the Nazi genocide with the artist's search for creative freedom In Holocaust Representation Berel Lang addresses the relation between ethics and art in the context of contemporary discussions of the Holocaust Are certain aesthetic means or genres out of bounds for the Holocaust To what extent should artists be constrained by the actuality of history and is the Holocaust unique in raising these problems of representation The dynamics between artistic form and content generally hold even more intensely Lang argues when art's subject has the moral weight of an event like the Holocaust As authors reach beyond the standard conventions for more adequate means of representation Holocaust writings frequently display a blurring of genres The same impulse manifests itself in repeated claims of historical as well as artistic authenticity Informing Lang's discussion are the recent conflicts about the truth status of Benjamin Wilkomirski's memoir Fragments and the comic fantasy of Roberto Benigni's film Life Is Beautiful Lang views Holocaust representation as limited by a combination of ethical and historical constraints As art that violates such constraints often lapses into sentimentality or melodrama cliché or kitsch this becomes all the more objectionable when its subject is moral enormity At an extreme all Holocaust representation must face the test of whether its referent would not be more authentically expressed by silence that is by the absence of representation

AWARD Great Circles Emily Rolfe Grosholz, 2018-11-23 This volume explores the interaction of poetry and mathematics by looking at analogies that link them The form that distinguishes poetry from prose has mathematical structure lifting language above the flow of time as do the thoughtful ways in which poets bring the infinite into relation with the finite The history of mathematics exhibits a dramatic narrative inspired by a kind of troping as metaphor opens metonymy and synecdoche elaborate and irony closes off or shifts the growth of mathematical knowledge The first part of the book is autobiographical following the author through her discovery of these analogies revealed by music architecture science fiction philosophy and the study of mathematics and poetry The second part focuses on geometry the circle and square launching us from Shakespeare to Housman from Euclid to Leibniz The third part explores the study of dynamics inertial motion and transcendental functions from Descartes to Newton and in 20th c poetry The final part contemplates infinity as it emerges in modern set theory and topology and in contemporary poems including narrative poems about modern cosmology Current Concepts in Forensic Entomology Jens Amendt, M. Lee Goff, Carlo P. Campobasso, Martin Grassberger, 2014-09-02 Forensic Entomology deals with the use of insects and other arthropods in medico legal investigations We are sure that many people know this or a similar definition maybe even already read a scientific or popular book dealing with this topic So do we really need another book on Forensic Entomology The answer is 13 29 31 38 and 61 These are not some golden bingo numbers but an excerpt of the increasing amount of annual publications in the current decade dealing with Forensic Entomology Comparing them with 89 articles which were published during the 1990s it illustrates the growing interest in this very special intersection of Forensic Science and Entomology and clearly underlines the statement Yes we need this book because Forensic Entomology is on the move with so many new things happening every year One of the most attractive features of Forensic Entomology is that it is multidisciplinary There is almost no branch in natural science which cannot find its field of activity here The chapters included in this book highlight this variety of researches and would like to give the impetus for future work improving the development of Forensic Entomology which is clearly needed by the scientific community On its way to the courtrooms of the world this discipline needs a sound and serious scientific background to receive the acceptance it deserves **The Canvas** Benjamin Stein, 2012 Loosely based on the true story of Benjamin Wilkomirski whose fabricated 1995 Holocaust memoir transfixed the reading public The Canvas has a singular construction its two interrelated narratives begin at either end and meet in the middle Amnon Zichroni a psychoanalyst in Zurich encourages Minsky to write a book about his traumatic childhood experience in a Nazi death camp a memoir which the journalist Jan Wechsler claims is a fiction Years later a suitcase arrives on Wechsler's doorstep allegedly lost in Israel a trip he has no memory of **Maus: a Survivor's Tale: Vol. II: And Here My Troubles Began** Art Spiegelman, 1986
