AUTHORS OF JUMP START YOUR BRAIN

Ronald A. Knowles

The Maverick Mindset Doug Hall, David Wecker, 1997 Provides insights from the author's life and other mavericks lives to encourage readers to believe in themselves embrace the unknown and make connections with family and friends the Courage Connection Doug Hall, 1998-02-19 It takes courage to turn your dreams into reality It takes courage just to have a dream in the first place But where can you find courage And how can you use courage to draw true satisfaction from your life For each of us the journey to find courage is different But within the pages of Making the Courage Connection you ll find the wisdom and inspiration necessary to discover the courage to follow your own heart and lead a fulfilled life Through the inspiring stories of ordinary people who freed themselves from fear Doug Hall explains how to break free from fear one step at a time prune away doubts and live life on your own terms Whether you want to start a new career build new relationships teach your children discipline or even lead a multimillion dollar project you can find your own special brand of courage Making the Courage Connection is an essential tool for success in work and life Lifeblood Sam Frowine, 2006-05 There is excitement in the air A young couple is in love The wedding is exquisite Two large families meet and celebrate The festivities go on and on The future holds so much promise Oddly enough in the midst of all the pleasantries there is a cloud present Like oil and water there are two family members who do not easily mix They are the new bride and her mother in law Their mutual antagonism is a well known but infrequently spoken about syndrome Their clash with one another is classic Despite their lack of preparation for this the individuals find themselves in a real inner war with no easy solution in sight My Son What Have You Done attempts to analyze the many aspects of this conflict including history parents baggage expectations siblings and other surrounding influences The style is analytic objective and logical The book reads lightly and entertainingly The factors from the vantage point of both combatants are laid out allowing the reader to make his or her own evaluation and judgment and to relate to the situations presented Surprisingly My Son What Have You Done moves from its original neutral position and leads rather to strong upbeat and curative conclusions Hopefully its path will be helpful for everyone involved which is the purpose for which this book was written The book includes actual interviews with both mothers in law and daughters in law which run the gamut of feelings experiences and hopes Jump Start Your Business Brain Doug Hall,2011-01-22 Jump Start Your Business Brain details data proven methods that can make your sales marketing and business development measurably more effective What makes this book unique is that the methods detailed are backed up with hard data They re grounded in statistical analysis of the success and failures of more than 4 000 new products and services and more than 6 000 innovation teams The research quantifies the impact of a back to basic customer focused approach to sales marketing and business development The research also uncovers news regarding how you can measurably increase effectiveness in today s super competitive time compressed and overstressed marketplace It s the perfect book for today s up and coming executive **Driving Eureka!** Doug Hall,2018-11-13 Transform the art of innovation into a reliable

system System Driven Innovation enables you and everyone on your team to use innovation to work smarter faster and more creatively It transforms innovation from a random act to a reliable science This new mindset ignites confidence in the future It enables the creation of bigger and bolder ideas and turns them into reality faster smarter and more successfully With this new mindset innovation by everyone everywhere every day becomes the norm The rapidly changing world becomes a tremendous opportunity to achieve greatness Innovation Engineering defines innovation in two words Meaningfully Unique When a product service or job candidate is Meaningfully Unique customers are willing to pay more money for it This links to the two simple truths in today's marketplace If you re Meaningfully Unique life is great If you re NOT Meaningfully Unique you d better be cheap Innovation Engineering is a new field of academic study and leadership science It teaches how to apply the science of system thinking to strategy innovation and cooperation Research finds that it helps to increase innovation speed up to 6x and decrease risk by 30 to 80% Innovation Engineering accelerates the creation and development of more profitable products and services However the bigger benefit may well lie in its ability to transform organizational cultures by enabling everyone to work smarter every day What makes Innovation Engineering unique is that it's grounded in data backed by academic theory and validated in real world practice Collectively it s the number one documented innovation system on earth Over 35 000 people have been educated in Innovation Engineering classes and more than 15 billion in innovations are in active development In his book Driving Eureka best selling business author Doug Hall presents the System Driven Innovation scientific method for enabling innovation by everyone everywhere every day It s the essential resource you need to enable yourself and your team to innovate succeed and do amazing things that matter on a daily basis and Mavericks in the Muslim Mediterranean Odile Moreau, Stuart Schaar, 2016-12-13 Subaltern studies the study of non elite or underrepresented people have revolutionized the writing of Middle Eastern history Subversives and Mavericks in the Muslim Mediterranean represents the next step in this transformation. The book explores the lives of eleven nonconformists who became agents of political and social change actively organizing new forms of resistance against either colonial European regimes or the traditional societies in which they lived that disrupted the status quo in some cases with dramatic results These case studies highlight cross border connections in the Mediterranean world exploring how these channels were navigated Chapters in the book examine the lives of subversives and mavericks such as Tawhida ben Shaykh the first Arab woman to receive a medical degree Mokhtar al Ayari a radical Tunisian labor leader Nazli Hanem Kmar Bayya and Khiriya bin Ayyad three aristocractic women who resisted the patriarchal structures of their societies by organizing and participating in intellectual salons for men and women and advocating social reform Qaid Najim al Akhsassi an ex slave and military officer who fought against French and Spanish colonial expansion and Boubeker al Ghandjawi a nearly illiterate trader who succeeded though his diverse connections in establishing important relations between the Moroccan sultan and the representative of the British government Although based on individual and local perspectives Subversives and Mavericks in

the Muslim Mediterranean reveals new and unrecognized trans local connections across the Muslim world illuminating our understanding of these societies beyond narrow elite circles Learn and Grow Daily!
