## **Maverick Voices Conversations With Political And Cultural Rebels:**

Maverick Voices Kurt Jacobsen, 2004 *Maverick Voices* offers in depth interviews with prominent rebels stubbornly at work in the interlacing realms of politics literature film art and psychotherapy These highly accomplished artists and activists who hail from the United States Europe and Latin America thrived in their fields against the odds often gaining worldwide acclaim They shake things up shatter barriers and scorn taboos These revealing conversations probe the wellsprings of their work struggles and achievements In the course of going their own stubborn way they open horizons and doors for everyone else and appeal to the maverick at play or at bay in all of us     Where Do We Go from Here? Mark Major, 2010-01-01

Progressive politics has long been in crisis in the United States As the radical Left realizes the dire consequences of defining themselves solely by what they are against this collection challenges leading engaged academics and activists to show how radical politics can lead to a more fruitful democracy Dealing with pressing issues of the day such as health care race immigration religion foreign policy unions feminism liberalism education and the media this edited volume looks at the prospects for a progressive turn in U S politics In doing so it hopes to inspire the radical imagination by showing where we can go from here As technology continues to enable greater access to ideas around the world the power of intellectuals is greater than ever And given that the world is full of crushing poverty sexism uneven development environmental degeneration religious fanaticism racism and imperialism the need for intellectuals to inspire the radical imagination by championing principles of economic and social justice democracy and universality is also greater than ever However political visions are required to guide that struggle This is the aim of this book     **Planetary Politics** Stephen Eric

Bronner, 2005-01-20 Global society has been analyzed in any number of ways books dealing with its economic and cultural implications flood the market But *Planetary Politics* highlights something unique It explores globalization with an eye on the transformation of politics into a planetary enterprise Bringing together the work of major scholars with national and international reputations this exciting new work offers perspectives for dealing with the complexity of power in the planetary life of the new millennium     *Communicative Action* Amy L. Buzby, 2010-03-16 This volume of interviews from the popular online journal *Logo* are organized around the critical and interconnected themes of the decline of politics and culture neo liberalism and the rise of American imperialism the crisis in the Middle East and the need to forge alternative visions and effective modes of resistance in contemporary struggle These interviews offer key insights and galvanizing challenges to critically thinking scholars and citizens engaged in analyzing and struggling against current injustices Although the interviews were conducted during the presidency of George W Bush they are especially relevant now These critical insights and demands should not be abandoned because of the ease and relief engendered by the election of Barack Obama Because of the volume's concern with defending democracy against the incursions of empire the text emphasizes the need to reinvigorate discourse and rebuild the public sphere The primary method of accomplishing these ends frank and honest

dialogue is built into the very structure of the text The insights and challenges offered in the interviews are crucial for active thinkers looking to respond thoughtfully effectively and conscientiously to the crises that shape our times *Radical Religion* Benjamin J. Pauli, 2010 The political Left has had a turbulent relationship with religion from outright hostility to attempts to meld religious faith with progressivism Confronted with contemporary social ills the progressive Left continues to disagree about the role that religion should play whether in understanding social challenges and solutions or stimulating social critique and reform *Radical Religion* presents valuable insights from both religious and secular perspectives for progressives today as they struggle to formulate a coherent agenda and effective strategies for social change This book presents arguments from a diverse group of scholars and offers a snapshot of contemporary progressive thinking about religion American Book Publishing Record ,2003 **Understanding Autism** Chloe Silverman, 2013-09-23 How the love and labor of parents have changed our understanding of autism Autism has attracted a great deal of attention in recent years thanks to dramatically increasing rates of diagnosis extensive organizational mobilization journalistic coverage biomedical research and clinical innovation *Understanding Autism* a social history of the expanding diagnostic category of this contested illness takes a close look at the role of emotion specifically of parental love in the intense and passionate work of biomedical communities investigating autism Chloe Silverman tracks developments in autism theory and practice over the past half century and shows how an understanding of autism has been constituted and stabilized through vital efforts of schools gene banks professional associations government committees parent networks and treatment conferences She examines the love and labor of parents who play a role in developing in conjunction with medical experts new forms of treatment and therapy for their children While biomedical knowledge is dispersed through an emotionally neutral technical language that separates experts from laypeople parental advocacy and activism call these distinctions into question Silverman reveals how parental care has been a constant driver in the volatile field of autism research and treatment and has served as an inspiration for scientific change Recognizing the importance of parental knowledge and observations in treating autism this book reveals that effective responses to the disorder demonstrate the mutual interdependence of love and science *Book Review Index Cumulation* Dana Ferguson, 2005-09 *Book Review Index* provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make *Book Review Index* an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers *Book Review Index* is available in a three issue subscription covering the current year or as an annual cumulation covering the past year **Die deutsch-amerikanischen Beziehungen nach 9/11/01** Barbara Schnieders, 2014-08-14 Der Terroranschlag vom 11 September 2001 hat die Welt verändert und auch die deutsch-amerikanischen Beziehungen nachhaltig beeinflusst Aus dem Blickwinkel der Politikwissenschaft der

Kommunikationswissenschaft und der Sozialpsychologie untersucht Barbara Schnieders die Umw lungen in der traditionsreichen deutsch amerikanischen Freundschaft Dabei wird jede einzelne der klassischen Waltz schen Untersuchungsebenen System Staat Individuum gleicherma en ber cksichtigt Durch diesen interdisziplin ren Ansatz entsteht innerhalb eines konstruktivistischen Theoriegeb udes eine ganz neue Perspektive auf das inzwischen recht ambivalente deutsch amerikanische Verh ltnis
